than the ordinary newspaper and job printing houses have on hand, and the largest kind of orders are filled from our shelves without delay. In addition, the printing office has steam heat and electric light in every part, and everything is arranged with a view to further convenience and comfort.

These improvements, as stated before, have required a large outlay of money. The year of 1895 has not been one of great prosperity in any line of business, and newspapers especially have felt the effects of depression with more or less severity. The Trincex, we are pleased to say, has retained all its old friends and patrons and added many new ones, and by the prompt attention to business, and the quality of service rendered, it has been favored with no small share of the work of this vicinity. For this appreciation of our efforts we are indeed grateful, and more so because of the fact that payment is promptly rendered when bills are presented, with some few exceptions. The men who honor their obligations are the best friends to any business, and it is to these that thanks are due for our success.

But in size, at least, a rival—or rather, a superior—is now being made ready for the massive belfry in the suburbs of Cincinnati where it is soon to swing, and ring out the loudest peal that has ever vibrated upon the free air of America. Doubtless by the time these words appear in print the molten metal will have flowed hissing down the channels into the curiously constructed mold, and the biggest bell ever east on this side of the Atlantic will be cooling in the great pit constructed to receive it. CONGRESS IN SESSION

Reed Elected Speaker by a Majority of 102.

The Rules of the Fifty-first Congress Adopted in the House - Officers Chosen-Organization of the Senate-Waiting for the President's Message, Due at Neon To-day.

Message, Due at Neon To-day.

Washington, Bec. 3.—The machinery for the organization of the house of representatives worked yesterday in a very satisfactory manner and without the slightest jar. Mr. Reed of Maine, in pursuance of the unanimous decision of the republican caucus, was elected to the speakership by a vote of 234, as against 93 for Mr. Crisp of Georgia, the democratic candidate; six for Mr. Bell of Colorado, the pepulist candidate, and one for Mr. Cuberson of Texas, democrat. Mr. Reed's speech in taking the chair was brief and incisive. He would not speak for the past, he said; the past could speak for itself. Nor should he speak of the future, as they were not now putting off the harness, but putting it on. But he suggested that those who had acted with wisdom in the past might be fairly expected to act with wisdom in the future.

expected to act with wisdom in the future.

Officers and Rules of the House.

After the oath of office had been administered to the speaker and all the members the next step in the republican programme—the election of officers— was taken, and Messrs. McDowell of Pennsylvania, Russell of Miscouri, Glenn of New York, McElroy of Ohio, and Couden of Michigan were chosen as elerk, sergeant-at-arms, doorkeeper, postmaster and chaplain, respectively. The rules of the fitty-first congress were adopted for the government of the house in the present congress, after an assurance from Mr. Cannon, rep., Ill., who had offered the resolution, that they would here after be referred to the committee on rules, and that the house would have an opportunity to discuss the report of the committee. That assurance seemed to satisfy Mr. Crisp, dem., Ga., who had raised the question, and the matter went through without further contention. After some further preliminary proceedings and a drawing for seats in the usual manner, perhaps somewhat in contraveation of the anti-lottery law, and in which drawing many of the prizes fell to some of the least known of the members, and many of the blanks to some of the most distinguished, the house, at 3:35 p. m., adjourned till noon to day.

In the Senate.

There was an unusually large attendance of senators when the fifty-fourth congress convened at noon, the only recorded absentees being Mr. Hill of New York, Mr. Lindsay of Kentucky, Mr. Wolcott of Celorado and the two senators from Louisiana. Mr. Palmer of Illinois and Mr. Jones of Arkanass were absent during the first part of the proceedings, but came in time for adjournment. The only interesting feature of the precededing was the swearing in of the new senators. Being officially advised that the president's message would not be delivered till noon to-day the senate immediately thereafter adjourned till that time.

Democratic Officers.

Democratic Officers.

Three hours were consumed by the house democrats in caucus last evening selecting the four officials of their party to which they are entitled by their minority representation. The veteran Ohionn, Col. Isaac Hill, who was the deputy sergeant-at-arms of the last congress, was elected special employe over H. W. Moler of Illinois, who held the office of cashier in the fitty-third congress. After a long discussion, interspersed with numerous roll calls, Geo. L. Browning of Virginia and Thos. Coldey of New York were elected special messengers. The caucus finished its work by electing Jas. F. English of California, page.

A Spanish Defeat.

Manzanillo, Nov. 21, via Key West, Dec. 3,—On the 19th inst. the guerrillas of Vicuna, forty in number, had an engagement with Juan Vega's rebel party, two thousand strong. The rebels had concealed themselves in a place called Sabana, between Vicuna and Medis Lum, and had their sentinels stationed between the trees all along the road to prevent any one from passing who might carry the news of their presence to the neighboring villages. When the guerrillas appeared the insurgents rushed out and attacked their vanguard with mechetes. A desperate struggle ensued, the guerrillas being compelled to retreat to Vicuna. The Spaniards lost twenty-three killed or wounded. The rebels had one killed and five wounded.

Attempt To Bura Remedies.

Remedies, Nov. 24, via Key West, Dec. 3.—Great excitement and alarm prevailed in this city yesterday. The bell of the railroad foundry rang out the alarm of fire and the people ran from their houses screaming that the insurgents had set fire to the foundry and were coming into the city. All the authorities and forces went to the place immediately and found the building in fiames. It being a feast day the rebell took advantage of it and a small group appeared and compelled two boys who were there to wet the frame walls of the foundry with petroleum. This done they applied the torah and part of the building was burned. The prompt arrival of the troops and firemen prevented the loss of the entire building. It was afterwards learned that it was the plan of the insurgents to enter the city, but the precautions taken by the authorities frustrated it. Many young men were ready to join them had they succeeded in entering the city.

Separatiat Sentiment in Cuba.

New York, Dec. 3.—A prominent Cuban to-day received a letter dated in Havana November 27, the following paragraph from which shows the enthusiasm and strong spirit of independence possessed by every Cuban in the island: "There is not a shadow of doubt but that the sentiment of all the Cubans is essentially separatist. It is clearly evinced by the praises sung in all the Cuban homes to Gomez, Roloff, Rabi, Carrillo, Sanchez, Zayas and other chiefs; it is shown by the rejoicings with which the news of every Spanish defeat is received, and no less so by the universal approval expressay for the radical, out necessary, war measure of destroying the sugar cane fields, which simply means to destroy the wealth of the country. And it is more than approval; it is demanded by all that the measure be executed to the fullest extent so that the revolution may triumph. I have been surprised to find that the planters themselves whose estates are threatened by the measure join in the general demand, and declare that they are perfectly willing to undergo the sacrifice in order t
