FRELAND TRIBUNE. PORTAGE EVERY MONDAY AND THURSDAY.

FREELAND TRIBUNE.

Commencing with Monday, January 13, 1896, and continuing through the year, the Tratuve proposes to publish a series of able articles upon subjects of vital and general interest to our readers. Eminent thinkers and writers of national reputation on Social, Economic and Industrial Problems have promised contributions upon topics of universal interest. The list of authors, and the comprehensive group of "Live Questions" that will be treated by them, can be seen on this page, and will, we confidently believe, merit the hearty interest of readers who are already interested in these themes, and are anxious to receive the most rational opinions obtainable.

All articles will be prepared in an inquiring and scientific spirit, and will be non-sectional and non-partisan. Vigor and simplicity of statement will be aimed at, and all phases of reform thought will be fairly and impartially presented. Upon subjects about which there is a variety of candid opinions, all sides will receive an equal opportunity to be heard, that the truth may, if possible, be arrived at.

This is the first co-operative attempt upon the part-of able writers to thoroughly discuss all the interesting phases of social and industrial life for the masses who would be the beneficiaries of substantial reforms, and the arrangements made by the Tribune give us the sole privilege of publishing the articles in this town. They can be read in no other Freeland paper, and those of our readers who are not subscribers should have their names placed on the list without delay.

Deafness is caused by an indused condition of the mucous lining of the custachian tube. When this tube gets inflamed you have a rumbile scene or imperfect hearing, and when it sentirely closed deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever; nine cases out of ten are caused by catarrat, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrat) that cannot be cured by Hall's Cotarrh Cure. Send for circulars, free.

a Tremain, and continued in that conmeetion until the death of Mr. Tremain,
when the firm became Peckham & Rosendale.

As his father did before him, the
younger Peckham began his ascent of
the ladder of legal fame by means of the
district attorneyship of Albany county,
which he attained in 1869. He made a
brilliant record as a prosecutor. He
always took a deep interest in state and
national politics, being active in the
presidential conventions of 1876 and
1880 he was leader of the Tilden
forces. After serving as corporation
counsel of Albany he was in 1883 elected a justice of the supreme court for
a term of 14 years. His election to the
court of appeals followed in 1886. His
eloquent denumeiation of the Onondaga
county election frauds won for him the
opposition of Gov. Hill, who procured
the disastrous nomination of Maynard
for chief justice of that court to prevent Judge Peckham's nomination for
it. Judge Peckham's nominated for the supreme court by President Cleveland
and vehemently and successfully opposed by Senator Hill. The senator,
however, seems to have experienced a
change of heart, as he recently said in
an interview: "I hope the president
will send in the name of Rufus W.

supreme court. New York ought to

Some call it the "Old Man of the Sea," but the majority of Marblehead citizens trace in its lines and curres a counterfeit of the loved face of the first president.

The face is formed by three rocks, one forming the forchead, one the chin and the other the nose. The face resis upon a slightly elevated knoll, at an angle, as if the great general in effigy were taking his repose and languidly gazing out to rea.

Proposed Baby Market.

Proposed Baby Market.

A French writer, M. Louisde Gramont, seriously proposes the establishment of a baby market in Parks. Hew many people are there, he asks, who lament the fact that they have no children in their homes; and, on the other hand, how many people are there who, having children, find the struggle with adversity too difficult, and cannot get food for those children? Let them sell their children, he says, and all will be well.
