Passing of the Sealskin.

Yet a few years and the sealskin cloak will be a thing of the past for all save the wives of millionaires. The returns from the last sealing season are now complete, and if there is still anyone who doubts the utter failure of the Paris tribunal to prevent the extinction of the seals let him read the figures and hold his speech. In place of the annual catch of 100,000 "bachelor" seals taken by the government lessee for a quarter of a century from the Pribyloff islands the company has this year with difficulty secured the 15,000 seals necessary to provide subsistence to the natives of the islands. The total catch of the American sealing fleet was 17,703 skins, and adding this to the take of the Canadian and Japanese fleets we have a total norther was teached. Googetime sealing the sealing the sealing fleet we have a total norther was teached. Japanese fleets we have a total north-west coast catch of 90,000 skins, against 125,000 last year. The diminished catch of 17,820 skins taken by the Rus-sians on the Copper islands completed the world's stock of sealskins.

Shipments of oil from Philadelphia last year exceeded the expots in 1894 by probably 6,000,0000 gallons. During the financial depression last spring, when the price of oil advanced rapidly, the foreign shipments fell off largely, and it seemed likely that the business of the year would show a decline. But with the revival of trade, the decline in the price of oil and the depletion of stocks abroad the foreign trade has revived, and shipments have been heavy in the last six months. Up to the end of last week the exports for the year amounted to 319,182,795 gallons, and for last week the shipments were 7,351-61 gallons. There is likely to be a still further increase before the end of the year, as a large fleet of vessels is in Philadelphia under contract to load oil.

A PROMINENT family residing in the business part of Wayneport, Monroe county, Pa., possesses a dog which, having reached old age, they decided to put an end to. They procured a quantity of chloroform and the wife proceeded to administer it. The handker-chief saturated with the fluid was held to or near the dog's nostrils, but the applicant, watching closely to hear the dog draw his last breath, inhaled the chloroform in much larger quantities than the dog, and promptly went off into an afternoon nap, which was awakened by the dog's quite lively voice. The dog still lives, and the family has decided to let him die a natural death.

Schomburgk, whose line has made him famous in two continents, once lived in the United States and worked as a clerk in Boston and Philadelphia and afterwards engaged in the tobacto business in Richmond. Probably no one dreamed at that time that he would set the world on fire or get two nations by the ears. It was after several years of unsuccessful work that he drifted to the West Indies and then to South America, where he made some botanical discoveries that attracted the attention of the British government. He was commissioned to suggest a boundary line between Venezuela and Gulana, and was knighted for his services.

### Deafness Cannot be Cured

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the custachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrah, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

# FREELAND TRIBUNE NEW UTAH SENATORS

Cannon Wins the Draw for the Long Term.

Their Entrance into the Senate Swells the List of Members to Eighty-nine-Both Classed as Republicans and Favoring Free Coinage--One Vacancy Still Exists.

Washington, Jan. 28.—The United States senate now consists of eightynine members, the swearing in yesterday of the two new Utah senators swelling the list to that number and there is still one vacancy, that from Delaware. Both of the Utah members are classed as republicans and as favoring free coinage. Lots were drawn to decide which was to fill the long term, closing March 3, 1899, and which was to fill the short term, closing March 3, 1897. Mr. Cannon was fortunate enough to win the long term, his colleague, Mr. Brown, having to take the short one. The joint resolution reported from the committee on agriculture directing the secretary of agriculture to comply with the law requiring the purchase and distribution of seeds was debated in the senate. Mr. Hansbrough, rep., N. D., arguing in favor of it, and Mr. George, dem., Miss., against it. No action was taken, and then the house bond bill with the free coinage substitute, was laid before the senate as unfinished business. Two speeches were made on the bill—one against free coinage by Mr. Nelson, rep., Minn, and one in favor of bimetalism and free coinage by Mr. Bacon, dem., Ga. The bill went over without action, Mr. Lodge, rep., Mass., giving notice of an amendment for the issue of 100 millions of 3 per cent. bonds for coast defenses. In the opening prayer the senate chaplain made an impassioned invocation in behalf of the people of Armenia, praying that the powers and people of Christendom may be aroused and united to force the suitan to "sheathe his bloody sword and to stay the frenzied rage and cruelty of his fanatical soldiery Washington, Jan. 28.—The United States senate now consists of eightyand cruelty of his fanatical soldiery and subjects."

House of Representatives.

House vesterday discussed for four hours and passed, by a vote of 143 to 26, the senate concurrent resolution declaring it to be an imperative duty, in the interest of humanity, to express the earnest hope that the European concert brought about by the Berlin treaty may be speedily given its just effect in such decisive measures asshall stay the hand of fanaticism and law-less violence, and as shall secure to the unoffending Christians of the Turkish empire all the rights belonging to them as men and Christians and as beneficiaries of the explicit provisions of that treaty; requesting the president to communicate these resolutions to the five signatory powers thereof, and declaring that congress will support the president in the most vigorous action he may take for the protection and security of American citizens in Turkey, and to obtain redress for injuries committed upon the persons and property of such citizens. Various amendments were offered to the resolution, on the ground that it did notgo far enough—one by Mr. Hepburn, rep., lowa, calling for the dismissal of diplomatic relations with Turkey, but they were all rejected. Messrs. Turker, dem., Ga.; Grosvenor, rep., Ohio; Walsh, dem., N. Y.; Adams, rep., Pa.; Johnson, rep., Cal., and Bailey, dem., Texas, argued against the resolution. The diplomatic and consular appropriations for the coming fiscal year were then reported.

Tariff Bill May Bo Reported to the Senate To-day.

Washington, Jan. 28.—It is thought that the senate committee on finance, which meets to-day, will be unable to report the tariff bill to the senate. Mr. Jones, Neb., has steadfastly refused to give any intimation whether or not he has changed his mind on the sugar schedule which he insists shall be added to the house bill, but his associates believe that he will relent and permit the bill to be reported.

Washington, Jan. 28.—Secretary Car-lisle has decided to annul the contract for constructing the Allegheny, Pa., public building, awarded to M. P. Seul-ly of Cincinnati, at \$64,000, for non-compliance with the terms of the con-tract. The figure at which he bid was generally recognized as so low that he would not sign the contract.

Postal Service Reforms.

Men for the Cuban Insurgents.

Washington, Jan. 28.—Acting Secretary Wike has instructed collectors of customs to look out for the steamer J. W. Hawkins alleged to have left New York last Friday on a filibustering expedition to Cuba. Senor de Lome, the Spanish minister, says Calixto Garcia is aboard the Hawkins with arms and ammunition and men and that the steamer will take on more men and stores at Palma Beach, Fla.; that she will pass in United States waters near Key West; that the arms confiscated at Cedar Keys, Fla., are in readiness to be put aboard the Hawkins and that the famous steamer Commodore at Wilmington, N. C., forms part of the conspiracy. Orders have been sent to the revenue cutters Morrill, McLone and Colfax to proceed to sea and if possible intercept the Hawkins, provided the allegations of the Spanish minister are found to be correct. Little doubt is now entertained that it is to intercept if possible this expedition that the cruisers Raleigh and Montgomery have been ordered to sea.

Government Making No Headway. Havana, Jan. 28.—The government operations against the rebels are being rapidly pushed, but as yet do not appear to be productive of any decisive results. The rebel commander-inchief, Maximo Gomez, who has been reported to be attempting to make his way back to the eastern part of the island, is still somewhere a short distance east of the railway line running from Havana to Batabano. The rebel leader Lacret is reported to be near Jovellanos, in the province of Matanzas. Antonio Macco, the second in command of the rebel forces, entered Mantua, a town in the western part of Pinar del Rio, on January 23. He was accompanied by half his command. The other half remained at Escortina, while wounded men belonging to Macco's force were at Guane. It is believed here that Macco's men will be compelled to abandon Guano and Escortina owing to the activity of Gen. Luque.

FREELAND TRIBUNE.

Commencing with Monday, February 10, 1896, and continuing through the year, the Tribune proposes to publish a series of able articles upon subjects of vital and general interest to our readers. Eminent thinkers and writers of national reputation on Social, Economic and Industrial Problems have promised contributions upon topics of universal interest. The list of authors, and the comprehensive group of "Live Questions" that will be treated by them, can be seen on this page, and will, we confidently believe, merit the hearty interest of readers who are already interested in these themes, and are anxious to receive the most rational opinions obtainable.

All articles will be prepared in an inquiring and scientific spirit, and will be non-sectional and non-partisan. Vigor and simplicity of statement will be aimed at, and all phases of reform thought will be fairly and impartially presented. Upon subjects about which there is a variety of candid opinions, all sides will receive an equal opportunity to be heard, that the truth may, if possible, be arrived at.

This is the first co-operative attemnt won the part of able

portunity to be heard, that the truth may, if possible, be arrived at.

This is the first co-operative attempt upon the part of able writers to thoroughly discuss all the interesting phases of social and industrial life for the masses who would be the beneficiaries of substantial reforms, and the arrangements made by the TRIBUNE give us the sole privilege of publishing the articles in this town. They can be read in no other Freeland paper, and those of our readers who are not subscribers should have their names placed on the list without delay.
