FREELAND TRIBUNE.

VOL. VIII. NO. 63.

FREELAND, PA., MONDAY, FEBRUARY 3, 1896.

\$1.50 PER YEAR.

COAL MEN HAVE AGREED.

ANTHRACITE PRODUCTION IS FIXED UNTIL JANUARY, 1897.

ompared With the Figures of 1894, the Reading Gets a Slight Increase, Also the Valley—The D. S. & S. Cut Down, Agents Meet—Prices Up—Wages Down.

Reading Gets a Slight Increase, Also the Valley—The D. S. & S. Cut Down. Agents Meet—Prices Up—Wages Down.

The all-absorbing topic of interest in New York financial circles on Thursday was the adjourned meeting of the presidents of the eleven great anthracite mining and carrying companies. It leaked out that the special committee appointed a week ago to revise the figures of production of the respective companies during 1895 would present a unanimous report. It was recognized that this fact would simplify the work in hand, provided the presidents were sincere in their wishes for a readjustment. At the same time, the report of the committee was known to be merely of an advisory character.

The session was begun with a full attendance. The committee presented its report and a great deal of squirmwas done by the officers of lines unfavorably affected by the figures presented and considerable controversy arose over the question of the adoption of the report. Previously the important debate was on the motion that the committee's precentage figures should be accepted for fifteen months, dating from Febraary 1. A vote in the negative was taken and a new motion was made providing for the acceptance of the percentages from Febraary 1 to July 1.

When the meeting adjourned it was announced that an agreement had been reached regarding the division of tonnage between the respective companies. This compant was not signed, but adopted by votes. It went into effect Febraary 1, 1896, and endures until January 1, 1897. After the expiration of this the agreement will continue operative subject to the right of any interest on thirty days' notice to challenge revision. A standing committee was appointed, consisting of President Thomas, of the Eric; Maxwell, of the New Jersey Central; Wilbur, of the Lehigh Valley; Harris, of the Reading, and Walters, of the Delaware, Susquehanna and Schuylkill. This committee is charged with the adjustment of any difficulties that may arrise during the pendency of the agreement.

The new percentag

ment.
The new percentages, as compared with the actual shipments of 1894, follow: Reading, 20.50 per cent; increase, .048 per cent.
Lehigh Valley, 15.53 per cent; increase, .013

Lackawanna, 14.09; decrease 1.14. New Jersey Central, 11.71; decrease,

Pennsylvania Railroad, 11.42; de-

Delaware and Hudson, 9.65; decrease

o. Pennsylvania Coal, 4.12; decrease, .012.

Eric, 4.03; decrease, .012.

Eric, 4.03; decrease, .03.

Delaware, Susquehanna and Schuylkill, 3.94; decrease, .04.

Ontario and Western, 3.31; decrease,
Susquehanna and Market and Mark

usquehanna and Western, 3.20; in-

Ontario and Western, 3.31; decrease, 0.21.

Susquehanna and Western, 3.20; increase, 1.41.

The importance of this agreement between the interests controlling the great anthractic industry to the public at large can hardly be overestimated.

In pursuance of their orders the sales agents met on Friday in New York and fixed prices for the coming month. They knocked off prices 50 cents on broken and 40 cents on other sizes from those of the October circular. But as nobody was selling within 70 or 80 cents of those prices they really advanced the price 30 and 35 cents over those of the current week. Following was the rate agreed upon at tidewater: Broken, \$3.25; egg, \$3.50; stove, \$3.75; chestunt, \$3.50. Retail prices were not advanced, but an advance is expected daily.

The rate of wages to be paid the miners in the Schuylkill region for the last half of January and the first half of February was fixed on Friday by the committee of Schuylkill Coal Exchange at 9 per cent below the \$2.50 basis. This is 5 per cent lower than the rate paid last month. The Lehigh Valley Company has also reduced the wages of its miners and laborers at all its collieries.

its miners and laborers at all its collectes.

The "World" Sounds a Warning.
From the New York World.

Under the velvet glove of an agreement an iron hand has been laid upon the great anthracite coal busines of America, and that hand belongs to J. Pierpont Morgan. From this time on the eleven giant concerns engaged in mining and shipping coal from the hard coal regions will obey the manadate of their new leader. There will be no more steady underselling, no more secret overproduction, for henceforth, like a gigantic trust, these companies will operate in concert.

Some of the presidents, speaking not for publication, let the whisper go abroad that this new combination, when its organization had been completed and its tentacles had got a grip on the entire business was going to do what the Sugar Trust and Standard Oil Trust pretend to do—namely, cheapen the product to the last purchasers, compelling the

middlemen to cut down their fat profits, or forcing them out of the business.

There is nothing slow about the way the new combination has started into its work of benefiting the public. It has not stopped to keep the public guessing. The agreement was entered into on Thursday. Within twenty-four hours the sales agents met and advanced wholesale prices on an average of 30 cents a ton. This means a matter of \$12,000,000 a year in the pockets of the anthracite coal roads.

Then it was announced that thirty-two Reading collieries at Shenandoah had received notices to suspend all operations for an indefinite period. This is the commencement of "broken time," which means broken victuals and broken shoes and broken hearts in the little mining patches of Pennsylvania. It was but the beginning of many shutdowns, for one of the chief weapons in the hands of the new combination is for restricted production.

restricted production.

Pettebone Mine Fire.

A big fire is raging in the Pettebone mine, of the Delaware, Lackawanna and and Western Company, at Dorrancetown, three miles north of Wilkesbarre. A gang of timbermen were doing some necessary work in the Cooper vein, about 1,800 feet in a northwestly direction from the foot of the shaft. At 11 o'clock an explosion of gas occurred, caused by the lamp of William Z. Phillips, who was slightly singed, but not injured otherwise

A. H. Storrs, assistant superintendent, soon arrived on a special train, bringing

wise

A. H. Storrs, assistant superintendent, soon arrived on a special train, bringing hose from the Bellevue, Diamond and Dodge collieries, and this, with hose from the Woodward colliery, was put into service as soon as possible.

The men were engaged fighting the fire and made good headway until 4 o'clock, when a second explosion occurred. Several men who were at the front were taken out of the mine as quickly as possible. Their names are Charles Dougherty, Joseph Jones, John Edwards, Phillips Rundel, John Robbins and Samuel Phillips.

Phillips is the general inside foreman. Jones is a fire boss. Both may die from their injuries. After the second explosion the fire madegreat headway, but a fresh corps of men are hard at work.

H. A. Fillmore, the outside foreman, says this is the heaviest fire that has occurred in Pettebone since it was flooded a couple of years ago. The Pettebone colliery has the reputation of being a very gaseous mine, and explosions have been frequent there.

very gaseous mine, and explosions have been frequent there.

Williams' College of Commerce.

Prof. G. W. Williams, principal of the celebrated Wilkesbarre Business College, has made arrangements to open a new business college in Hazleton. The magnificent Jr. O. U. A. M. hall has been leased and will be equipped in excellent style. New polished oak furniture and standard makes of typewriters will be put in and each department will be in charge of able, scholarly teachers.

The Wilkesbarre school has been established ten years, and is conceded to be one of the highest grade colleges in the country. The Hazleton, Mahanoy City and Wilkesbarre colleges will be conducted under the same management. Prof. Williams has decided to sell the first fifty scholarships for only \$50 each. A scholarship will entitle the holder to complete courses in the commercial, shorthand and English departments for only the cost of one course. Other leading colleges charge from \$100 to \$200 for the same courses.

The Williams College, Hazleton, will be the best equipped college in the country, outside the leading cities.

The residents of Freeland and vicinity have now an opportunity to send their children to a first-class college at little expense. The college will be open all the year around. It will be formally opened Monday, February 10.

For full particulars write to Prin. G. W. Williams, or call at Jr. O. U. A. M. hall, 341 West Broad street, Hazleton.

Deafness Cannot be Cured

Deafness Cannot be Cured
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to care deafness,
and that is by constitutional remedies,
beafness is caused by an inflamed condition of the mucous lining of the
eustachian tube. When this tube gets
inflamed you have a rumbling sound or
imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflamation can be taken out
and this tube restored to its normal condition, hearing will be destroyed forever; pine cuses out of ten are caused by
catarrab, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for
any case of deafness (caused by catarrh)
that cannot be cured by Hall's Catarrh
Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria. When she had Children, she gave them Castori

How to Know Live Merchants.

From the Meadoo Tidings.

One reason why people never pay any attention to signs and advertisements daubed on fences, stables and bridges is because they do not know whether they are reading the advertisement of some firm that is still in business or some one that has been dead for years. When people read an advertisement in a newspaper that is up-to-date they know the advertiser is alive and doing business. some firm that is still in business or some one that has been dead for years. When people read an advertisement in a newspaper that is np-to-date they know the advertiser is alive and doing business.

The Nerves Say Thumbs up.

"When I went to a nerve specialist first," said a man who was once an invalid. "he told me that one way to judge of the condition of a person's nerves was to watch his thumbs. Ever since that time I have found the greatest fascination in looking at people's thumbs. The dector said that if they moved involuntarily outward it was a sign that the nerves of that man or woman were not in the best condition. I find myse, if now sweeping the line opposite me in a car, and if that doctor's test is a good one, there is a surprising number of people in this town whose nerves need looking after. There are few among the women who do not involuntarily move the thumbs outward at intervals of every few minutes, and when your attention has been once attracted to it the process of watching their gloved hands grows very interesting. I have found the habit much less frequent among men, but take the average number of women in a street car and it will be a surprise to you to see how many of them indulge unconsciously in this little habit. I only hope it does not mean anything as serious as it mignt indicate if that nerve specialist's diagnosis was a good one."—Boston Gazette.

nosis was a good one."—Boston Gazette.

Dress for the French President.

An esthetic French tailer, who is dissatisfied with the evening dress that forms the official attire of President. Faure on all formal occasions, has designed a uniform that he thinks will be neat, but not gaudy. It consists of a black frock coat with ample folds and velvet collar and cuffs, richly embroodered with gold laurels; the trousers to have broad laurel-leaf embroidery down the sides. The lapels of the coat are to be decorated with the insignia of the legion of honor in diamonds, lent by the state, and the garment is to be buttoned across a white waistcoat, with heavy bullion buttons bearing the effigy of the republic. The whole is to be completed by a nent tri-colored sash. The headgear is to consist of a low cylindrical felt or velvet hat with a plume of black feathers. The sword is to bave a black sheath, and hilt of diamonds, also lent by the state. After these togs have been depend the president is to be put in a carriage and surrounded by a squadron of dragons for the delight of all Paris.—Chicago Inter Ocean.

Chicago Inter Ocean.

Injured by an Explosion.

The twin shaft at Pittston owned and operated by the Newton Coal Mining Company was the scene of a terrific explosion at an early hour Saturday morning. The explosion was due to a large gas 'feeder' becoming ignited and which in turn communicated to a large body of gas. When the force of the explosion had been spent three men were found to be badly injured. They are Martin Gilligan, seriously burned about the face and body. Patrick Kelly, burned seriously-about the arms, head and back; James Boyle, burned about the limbs and head.

Funeral of a Schuyikili Man.

Funeral of a Schuylkill Man.

Funeral of a Schuylkill Man.

The funeral of John J. Ratigan took place at Pottsville on Saturday, and it was the largest ever held in Schuylkill connty. A solemn requiem high mass was celebrated at St. Patrick's Catholic church after which the body was taken to Mahanoy City for interment, a special train of nina cars carrying the funeral cortege to that place. Several thousand people were in attendance. The deceased was state secretary of the A. O. H., and was quite prominent in other societies.

cortege to that place. Several thousand people were in attendance. The decased was state secretary of the A.O. H., and was quite prominent in other societies.

Republican Organize.

A Republian club was organized on Friday evening at Zemany's hall. The following officers were elected: President—Reese Lloyd. Recording secretary—Charles Strittmatter.

Treasurer—John M. Powell. Headquarters will be established in the rooms lately vacated by the Young American Social Club.

Bownan Escaped the Gallows.

The Board of Pardons has changed the sentence of William Penn Bowman, of Wilkesbarre, from death to life imprisonment, and has also granted a pardon to Hugh F. Dempsey, the Homestead labor leader. An effort will be made to have the sentence of Bowman changed from life imprisonment to the term given his accomplie, young Metzger. This can be done by the Luzerne court.

Charged With Embezziement.

A. M. McNulty was given a hearing before Alderman Buchenau, of Hazleton, on Thursday, on the charge of embezziement, which was preferred by L. Olsho. He was a was a proposed at the radius of the Lyon-Dunn contest must not be distarbed. This is in accordance with the ruling of Judge Ikeler, and will necessitate an expense of \$1,000 on the county.
