Mayor Pingree's Plan.

B. O. Flower, in his article on "Practi cal Measures to Maintain Self Respecting Manhood," which appears elsewhere in this issue, refers to the fact that Mayor

this issue, refers to the fact that Mayo Plagree met with strong opposition when he essayed to help the poor o Detroit in a practical way. This opposi-tion showed itself, not in argument, bu in ridicule. If this were a solitary in stance, the matter would not be so seri-one, but measures a concess attement is

av, is always met. This is

out wherever a serious attempt in behalf of the poor the same ki position, manifested in the same

tunate. The spirit that ridicules any serious effort to do good is not the spirit that solves difficulties, but is the one that hin-ders their solution. History is full of lessons of robuke to such a spirit.

those who were forced to ask for charity were eager to earn a livelihood. (2) It

ries of Articles Contributed to These Columns by Advanced Thinkers. NUMBER VI. — PRACTICAL MEASURES TO MAINTAIN SELF RESPECTING MANHOOD. ANCIMER VI — PRACICAL MEASURES TO MAINTAIN SELF RESPECTIVE MANNOOD. To maintain self respecting manhood should be of paramount importance to an enlightened government, and while I am profoundly convinced that radical and fundamental reforms, which com-prehend the abolition of class privileges and special legislation, are essential to the solution of the great problems which are now pressing upon the intelligence and conscience of our civilization, yet I fully realize that to peaceably accom-plish these splendid triumphs for a high-er manhood, will require patient, ear-nest and persistent education and agita-

ders their solution. History is full of lessons of rebuke to such a spirit. All of our cherished institutions were once hypotheses and existed only in the brains of a few people who had insight and the courage of their convictions. Freedom, Democracy, Republicanism were once hated words and are even now in many countries. All government is ex-perimental, and we ought to treat all efforts to improve any phase of our socie-ty with at least ''decent respect.'' The foundation of all liberty and the condi-tion of all progress is in the right of every man to think for himself and to express his thougts without intimidation. Ridicule is antiliberal and un-Ameri-can. Earnest discussion and experiment are the only methods of ridding us of un-profitable hypotheses. Another impor-tant suggestion from Mr. Flower's very suggestive article is that our financial difficultities may be in a large measure solved without legislation. Each com-munity, independent in a measure of legislature, can do more than is now

those who were forced to ask for charity were eager to earn a livelihood. (2) It has proved a magnificent agricultural education for those permitted to earn their year's food. (3) It infused hope in-to the hearts and homes of nearly a thomsand citizens of Detroit during the memorable year in which the plan was inaugurated. (4) It sta an example for thoughtful, earnest and conscientions workers whereby practical palliative measures could be carried into execution to maintain self respecting manhood, promote industry and materially reduce the draft on charity, which has of late become apallingly large in the great cities.

Board of Trade. They were very jubi-lant last week over some runnors floating around in regard to the final location of the new silk mill. The runnor was started by some one saying that the ground selected for the mill next to the electric light station was not large enough for the proposed building. Im-mediately on hearing it the South Heb-erton people began to view the vacant acres surrounding them with deep con-cern, and started to size up their natural advantages. They began to think of railroad extension, and vividly pictured to their mind's eye the Jersey Central skimming along the old farm and Le-high Valley trains connecting the coun-try seat from its present branch below Birkbeck street, at the same time con-templating their vast territory thus ren-dered useful for mercantile purposes. They have about come to the conclusion that they stand as much chance of get ting the silk mill as Freeland proper. $\ddagger \ddagger \ddagger$

Ladies' black woolen besizer, the 3ct curling this week at 75c.

brain, are the reacenting porton of the ple. The relations of the crusts and huckle-berries vary according to the munici-pality or nation considered. In Mexico we find that the ple has much crust and few berries. The middle class has al-most disappeard. If we consider New York city as the ple, the 6 per cent who own the entire area of the city, as shown by the last census, are the honored upper crust, while the large part of the remaining 94 Anthracite Combine Cautious.

Civilization Like Huckleberry Fie

Anthracite Combine Cautious. The meeting of the anthracite coal sales spents to fix the price and output of anthracite for the month of March, which was to have been held in New York on Friday, did not materialize, having been called off by telegraph on Wednesday morning. Explanations as to the sudden calling off of the meeting were anything but satisfactory on the part of the officials. A deep-seuted fear concerning the effort of the New York legislature to investigate the methods of the anthracite combine is supposed to have been the supposed to

It is understood, however, that a taci ierstanding exists among the repre-tatives of the coal companies that prices for the month of March will be changed, and that the production 1 be limited to 2,750,000 tons, and
