FREELAND TRIBUNE.

PUBLISHED EVERY MONDAY AND THURSDAY. THOS. A. BUCKLEY, EDITOR AND PROPRIETOR. OFFICE: MAIN STREET ABOVE CENTRE. SUBSCRIPTION RATES: One Year.....\$1.50 Six Months......75 Four Months......50 Two Months......25 Subscribers are requested to observe the figures following the name on the labels of their papers. By reference to these they can ascertain to what date their subscriptions are paid. For instance: Grover Cleveland 28 June 96 means that Grover is paid up to June 28, 1896. Keep the figures in advance of the present date. Report promptly to this office whenever you do not receive your paper. All arrears must be paid when paper is discontinued. FREELAND, PENN'A., MAY 18, 1896.

The Shickshany Democrat is usually careful in giving credit for borrowed articles to the proper newspapers, but it was imposed upon last week when it gave a Hazleton daily as authority for the item and comment published under the heading of "A liberal company." That article first appeared in the Tribune's columns, last Monday, and was published as original by the Hazleton paper the following day. We must say, however, that there was more than one scissoring-man who considered it a good thing. It has already traveled Carbon county, and on Saturday turned up as original in a Freeland paper. The Tribune doesn't care a pinyan who uses its article, but it does believe in objecting when others are given the credit.

PREPARATION OF BEEF.

Some Practical Suggestions Regarding the Selection of Meat. Beef is not only the most wholesome, but the most economical meat for a family. In choosing good meat it is well to be sure that the grain is smooth rather than open, and that the lean is of a fresh, bright red color. The fat should look white rather than yellow, and in young beef, which is the more tender, the fiber is elastic and rises when pressed with the finger. The prime pieces of beef are the sirloin, the ribs and the round. The two first are usually roasted; the brisket and the shoulder are best for boiling or stewing. A delicate and tender steak is sometimes made from the inside or fillet of the sirloin. It should never be pounded, which is a vain attempt to make tough meat tender by bruising its fibers. If beef is intended for boiling, it is usually rubbed over with a little salt. A tablespoonful of vinegar added to the water will render it quite tender. The loss of weight in cooking meat is from one-fifth to one-third, which is chiefly water, and beef shrinks considerably less than some other kinds of meat. Lean beef contains 72 per cent. of water, and fat beef 51 per cent. Roast beef is digested in three hours; salt beef requires four and a quarter to four and a half hours. The great point in cooking meat is to render it tender without extracting the juices, and it is better to cook it slowly, so that the loss shall be only water. But it should first be subjected to a high heat, thus coagulating the surface albumen so as to retain the juices. The usual time for roasting is calculated at a quarter of an hour for each pound of meat, and it should be frequently basted. When serving, the dish should be handsomely garnished.—Cincinnati Enquirer.

EMPIRE LAMP SHADES.

They Are All the Rage and Thank Goodness, Easily Made. Draped lamp shades are no longer the most fashionable things of their kind. A more inexpensive, and at the same time a more easily made-at-home kind, is now to be used. It is called the "Empire," as most decorative house furnishings are called now. The handsome lamp shades, flaring very much at the bottom, made of crinkled paper, silk, flowers, fringe, etc., are quite expensive, so that they are only suitable for piano or banquet lamps among people who are able to stand the expense. The new "tub" shades may be made of white or tinted heavy, plain paper or light cardboard, cut to shape, and the two ends fastened together with a small wire clamp such as is used in offices to hold manuscript together. So they are extremely inexpensive. They have to be used on wire frames on the lamps, like other shades, of course, but those of the right shape and size can now be had as cheap as any. Indeed, a very little ingenuity will enable anyone to make the wire frame herself. These little lamp shades may be made as pretty as desired by a little painting in water colors, pin-tracing or India ink outline sketching. The end fastenings may be concealed by rosettes or butterfly bows of ribbon. The materials used are so inexpensive that even if they do sear at the upper edge soon, they can readily be replaced by new ones. I have tried them and like them very much. They

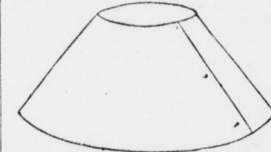

FIG. 2.—SHAPE FASTENED AT ENDS.

will not sear easily as they are so roomy at the top. I give the shape in the figures. The size must be regulated by size of lamp. For a large piano or parlor lamp, 24 inches diameter at the bottom is about correct with about 15 for depth between top and bottom of shade. The diameter of the upper edge should not be much less than that of the bottom. If anyone has an old-fashioned candelabrum with two or more sockets for candles, tiny "tub" shades can easily be made to fit them. Make them of "water color" paper, if you paint, powdered with small Dresden flowers. A yard and a half will make several small or one good-sized lamp shade. If you cannot paint, cut out a leaf and flower design from gold or silver paper, and paste on.—Ohio Farmer.

How to Make Mince Scallops. A nice way to utilize cold meat is to cook one tablespoonful of onion cut fine in two tablespoonfuls of butter, until it turns a golden yellow. Add one cup of fresh bread crumbs, one cup of cooked meat chopped fine, one saltspoon of salt, a half saltspoon of pepper, a quarter saltspoon of nutmeg and one teaspoon of thyme, yellow rind of lemon, and a half cup of water or weak stock. Allow to simmer five minutes. To this add two well-beaten eggs. Serve on thin slices of brown bread or between two square crackers.

To Measure for Wall Paper. To measure a room in order to find out how many rolls of paper will be required to cover the walls, multiply the length by the height of each wall, add together the number of square feet of the walls, getting total number of square feet. Allow one-half roll of paper for each door and window. Divide the whole amount by 23, which will give you the number of rolls of paper required for the walls, including waste.

LANCASTER, 23; TIGERS, 4.

THAT WAS THE SCORE OF YESTERDAY'S GAME AT THE PARK.

State League Leaders Had No Difficulty in Flinging Pitcher Groux's Delivery. Aided by the Errors of the Home Club They Had Things Their Own Way.

The Tigers suffered their second defeat of the season at the park yesterday by one of the largest scores ever accumulated in a game in which they participated. It was accomplished by the Lancaster State league club, which was in excellent condition and played a remarkably fast game. The Tigers suffered from a severe attack of rattles as soon as the professional's manifested their condition, which they did in the first inning by knocking in five runs. They lighted upon Pitcher Groux without the least trouble. The home players had no confidence in themselves when they realized the weakness in the pitcher's box, and could neither field the ball nor hit it. Their work in the latter respect was surprising when compared with last Sunday, when they batted a speedier and harder working pitcher than any of yesterday's men tried to be.

The Tigers had no hold on yesterday's game at any time. Both their pitchers were easy marks for the professional batters, and the fielding of the whole club was wretched throughout the entire game. The visitors played an excellent game, and while seven errors are marked against them they could easily have avoided these had they exerted themselves.

The feature of the game was the repetition by Seybold of his batting of last year, when he again knocked the ball over the left field fence for a home run. Shortstop Butternore played a high-class game, and covered his part of the diamond in about as good style as any man seen here in many days.

Score table showing runs, hits, errors for both teams (Tigers and Lancaster) across 9 innings. Includes statistics for pitchers like Groux and Seybold, and other players like McQuaid, Stouch, and Herron.

BASE BALL BRIEFS.

It is unnecessary to state that Manager Haulon's attraction for next Sunday will fill the Tigers park. The Hazleton State league club will be the opponent of his team on that day, and the old-time rivalry existing between the Tigers and the Hazleton players will place both sides on their mettle. It is one of the choicest attractions that could be scheduled, and it is safe to predict that the spectators will get more than their money's worth.

While a game of ball was in progress at Lost Creek, Schuylkill county, Joseph Bradshaw, Lancaster, Pa., was struck in the head by a foul tip. He fell unconscious to the ground and died in five minutes later. A blood vessel at the base of the skull has been ruptured. The playing of the Tigers yesterday was the worst exhibition that has been given by the team in many days. The management is negotiating with some new men for the coming game.

Umpire Gallagher brought the grand stand down on him yesterday by his decision on a long hit of McFadden's bat, which would have meant three bases. The friends of Charles McGeehan are congratulating him upon his escape from being classed as a member of the Hazleton State league team. The Stars played the Jeannsville club at the park yesterday morning. The score was 17 to 2 in favor of the Freeland boys.

The dust was a source of great annoyance to the spectators at yesterday's game. Third baseman McFarvey is still idle with his split hand of last Sunday. The Stars was the only Freeland club that won yesterday. Anthracite League. The Travelers met defeat for the first time in the league yesterday. The Athletics got them on their own grounds at Hazleton and did not spare them. The score was 25 to 7. The Fearnots played at Lattimer and went down before the team there. The score was 15 to 10.

The McAdoo-Pioneer game was not completed, owing to trouble on the on ground, which is noted on first page. The clubs stand as follows: W. L. P. C. Athletics.....1 000 Pioneers.....1 258 Travelers.....2 1 467 Lattimer.....1 2 283 McAdoo.....1 1 300 Fearnots.....0 3 300 Large Pieces of Coal. From The Lansford Record. On Tuesday the Lehigh Coal and Navigation Company shipped from No. 19 colliery some large pieces of coal to distant dealers, to be used as signs. To Horn & Co., of Boston, one piece weighing 3,200 pounds; and two pieces weighing 500 pounds each, to New Britain (Conn.) Lumber and Coal Company. The pieces were shipped in gondolas filled with egg coal. The "Twentieth Century" shoe is the ladies' favorite. At the Wear Well only. Ladies, buy the R. & G. summer corsets—they are so cool. Sold at Oswald's.

BRIEF PERSONALITIES.

Gov. Greenhalge was the first governor of Massachusetts to die in office for more than 70 years. Mrs. Langtry, who has become a public reciter, frequently receives as much as \$500 for an evening's performance. Gen. Sewell, of New Jersey, is the only genuine Irishman in the United States senate. He was born in County Mayo, Ireland, and came to this country in 1851, a penniless orphan, at the age of 16. In all the world there is but one man that can read the translation of the Bible into the language of the aborigines, which was made by a Mr. Elliott in what is now Paxton, in 1649. That man is the well-known antiquarian and scholar, Trumbull, of Hartford, Conn. Mrs. Grant is said to be happier in her new Washington home, with her daughter, Mrs. Sartoris, and her children about her, than she has been since the death of Gen. Grant. She is busily occupied with her household duties and with the preparation of a book of reminiscences.
