# CZAR'S CORONATION

Second Day of the Three Weeks' Celebration at Moscow.

## VISITORS CONTINUE TO POUR IN

The Emperor and Empress Received Last Night with Great Popular Enthusiasm—Li Hung and Yamagata Viewing the Sights.

Moscow, May 19.—This is the second day of the three weeks' festivities attending the coronation of the czar of all the Russias, and every incoming train still adds to the great gathering of distinguished persons from all parts of the world already here. The chief event of the celebration so far was the arrival last evening of the czar and zarina and court from St. Petersburg. Long before the hour of their arrival, regiments of soldiers were massed about the Smolenskiy station. The governor general of Moscow met the imperial train at Kila and accompanied it to the city. Only those who possessed tickets were admitted to the station. The platform was covered with red cloth and ornated with plants and flowers, large spreading palms forming an arch at the entrance to the royal apartments. On the platform could be seen the minister of war, a large number of generals and aides-de-camp, and numerous foreign princes and the Grand Duke Vladimir. The guard of honor at the station was composed of a detachment of cuirassiers, headed by the royal standard and the cuirassier band. Horse guards and dragoons were waiting outside the station to accompany the royal party to the Petrofsky palace.

Received with Great Enthusiasm.  
At 5.30 o'clock the imperial train steamed slowly into the station. This special train which the czar had made for himself is fitted up with every luxury. The carriage, in which were the emperor and empress, stopped opposite the royal apartments. Their majesties walked down the platform, through the double line of princes and generals, but did not enter the royal apartments. Instead, the emperor and empress proceeded directly to the closed carriage awaiting them, which they entered with the governor general. The appearance of their majesties was the signal for prolonged hurrahs from the people gathered, led off by the long roar of the soldiery. The cuirassier band played the national anthem, and surrounded by the cuirassier guard, the carriage was driven off to the palace. Great enthusiasm was manifested during the whole of the short drive by the thickly massed people along the sides of the road. The palace was quickly reached and the emperor and empress alighted. The emperor looked well and the empress appeared to be in fine health. Her majesty was dressed in white and the emperor wore the colonel's uniform of the Probansky regiment.

Great Attention Shown the Visitors.  
The officials are showing the greatest attention to their many distinguished guests, and to-day Li Hung Chang, the Chinese viceroy, is viewing the sights in company with a special escort. Count Yamagata, the Japanese field marshal, with his suite, is also sharing in the honors extended by the Russians. The Duke and Duchess of Connaught arrived here to-day. The duke will represent his mother, Queen Victoria, at the coronation ceremonies. The czar was 28 years old yesterday, and the anniversary of his birth was fittingly celebrated in all the cities of the empire. All the warships at Cronstadt, including the American and British, joined in firing salutes in honor of the occasion.

The Rise in the Price of Coal.  
Philadelphia, May 19.—It is stated here on good authority that many of the coal companies that took orders at April prices and are now filling them will cancel all that are not filled by the end of the month. All dealers have been notified of this action and it has created a better demand for anthracite coal. About May 30 the new circular price is to prevail and there is talk of making a further advance of twenty-five cents a ton on July 1, to be followed by another on October 1.

Railway Conductors' Club.  
Albany, May 19.—The Railway Conductors' club of North America has been incorporated. It is organized for social purposes and the establishing through discussions and the interchange of opinions and experiences of the highest standard of excellence in the manner of handling passenger and freight trains. The principal office is located in New York city.

Ryan Knocks Out Dunfee.  
Buffalo, May 19.—In the Exposition building at the Buffalo driving park last night the two middleweights, Tommy Ryan and Joe Dunfee, met in a twenty-round glove contest before the Empire Athletic club. Ryan was clearly the superior of his antagonist, and won in the sixth round with a clever knockout.

Horseshoers in Session.  
Buffalo, May 19.—The Journeymen Horseshoers' International union is in session in this city. The meetings will continue until Friday. Fully 100 delegates are in attendance. The secretary's report for the year shows that there are seventy-one local unions with a membership of about 7,000. The report shows a balance on hand of \$6,500.

Kaiser Honors the Empress of Russia.  
Berlin, May 19.—Emperor William has appointed the Empress of Russia to be honorary colonel of the Second dragoon guards, which regiment will hereafter be termed the Empress Alexandra's dragoons.

# BAPTIST ANNIVERSARY.

Many Strangers and Delegates in Attendance at the Asbury Park Meeting.

Asbury Park, N. J., May 19.—Asbury Park is crowded with visitors and delegates to the Baptist May anniversary, which commenced last night in the First Baptist church. The meeting last night was the nineteenth anniversary of the Woman's Baptist Home Mission society, the president of which is Mrs. J. D. Crouse. An address was made by Miss Mary G. Burdette, sister of the famous humorist. She reviewed the result of the society's labors in the various states, and stated that New Jersey showed a growing interest, New York was not up to expectations, but the society was not discouraged; Pennsylvania had cause for rejoicing, but the greatest advance, she said, was in Wisconsin. The society has eighty-two stations and 130 missionaries. In Colorado 30,000 persons had an opportunity to attend church, while in 200 places visited there were no houses for religious worship. Miss Burdette favored statehood, even if it did make the work more difficult. The Chinese made little progress. Miss A. H. Barber, the treasurer of the society, made the closing address. The programme for to-day includes a devotional service this morning, followed by a review of the society's work on the Long Island branch by Miss Nellie T. Lazell. At 11 o'clock the open parliament on the Model Missionary society will take place. In the afternoon addresses will be made by Mrs. H. H. Ames, Mrs. M. V. Littell, Miss Maria Jones and Miss Augusta Seils. The society will conclude its programme this evening.

## IF M'KINLEY IS NOMINATED.

His Friends in New York State Intend to Run His Campaign Themselves.  
Buffalo, May 19.—President George E. Matthews of the New York state McKinley league made a significant statement yesterday. It indicated a purpose on the part of the McKinley managers in the event of McKinley's nomination to take the campaign out of the hands of the republican state committee and put it in the hands of the special committee organized for the purpose. Mr. Platt's open hostility to McKinley is said to be the reason for this contemplated move. In the course of an interview Mr. Matthews was asked what action McKinley's managers in this state would take in the event of his nomination. He replied: "McKinley's friends in this state will do whatever they deem for his interest regardless of the wishes of the parties who have heretofore controlled New York state republican politics." "And that means a provisional state committee, probably?" "It means just what I said—whatever is deemed for his interest." "At present," Mr. Matthews added, "McKinley's friends are getting acquainted with each other. There are so many of them that it will take quiet a time. And the number of them grows with every day."

Escaped Convict Surrenders.  
Watertown, N. Y., May 19.—Convict Boyle, who escaped from Auburn prison last week and again escaped at Syracuse after being recaptured, gave himself up to the chief of police last evening. He says he has concluded that it will be better for him to serve out the remainder of his five years' sentence for burglary, six months of which he had served, than to dodge the police the remainder of his life. The Auburn authorities have been notified.

# FOR CLEANING BRASS.

The Ashes Which Accumulate in a Stove Are Excellent.  
"Throw it out," said one. "Give it away," said another. As it seems a poor kind of giving to bestow that which is worthless to yourself, the last advice was not followed. But the rose shade was so handsome, and the colored glass jewels and hanging drops all intact, it provoked sundry experiments; and the result is a restoration to beauty and usefulness of a lamp that was an eyesore for its verdigris-covered brasswork, says Womankind.

In most stoves a very fine powder accumulates that is not ashes, yet has the essence of the wood in it. Part of this, in one saucer, was moistened well, and another saucer held the dry powder, a pan of good soapuds stood near, and a piece of sheepskin was at hand.

With a tooth brush all the brass was well scoured, then washed in the suds and dried. At this point there was not much encouragement, but now the dry powder and sheepskin were vigorously applied, and, to the surprise of the skeptics, the brass shone with a soft lustre very superior to even the hard brilliancy of newness.

This powder will restore the brass rods when tarnished and fly-specked, and an occasional rub with a woolen cloth or piece of sheepskin dipped in the dry powder will keep them in good condition.

## TASTE IN MILLINERY.

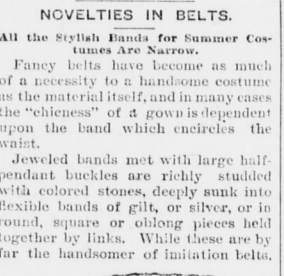

The Value of a Becoming Bonnet Can Hardly Be Calculated.  
One's gown may be simple, may have been made over a number of times, may, indeed, be almost shabby, but if the bonnet is becoming, all else is forgotten.

One's bonnet has much to do with bringing out the virtues or otherwise, not only of one's eyes and hair, but of one's skin and the shape of one's head. The round-faced, plump beauty must give up her ties unless they are of the narrowst and looped with so much care that the idea of framing the full moon is not suggested. She whose face is slender (politeness gives that name to thinness), then there must be a soft, full framing and broad loops that will tone down all angles. She who is sallow must admire rose, pale blue and heliotrope on other women, choosing golden brown, that most charitable of tones, deep crimson, and if a light evening color is required, a delicate shrimp to make the yellow of her skin white. The pale woman chooses rose, dark blue, all reds, dark green, glowing purple and black to gain color, while she of the rosy cheeks selects pale blue, heliotrope, olive, cream white and crimson. If she wishes them not to look like roses, if your eyes are dull do not make them seem more so by putting sparkling jet or brilliant rhinestones near them.—Boston Budget.

## NOVELTIES IN BELTS.

All the Stylish Bands for Summer Costumes Are New.  
Fancy belts have become as much of a necessity to a handsome costume as the material itself, and in many cases the "chicness" of a gown is dependent upon the band which encircles the waist.

Jeweled bands met with large half-pendant buckles are richly studded with colored stones, deeply sunk into flexible bands of gilt, or silver, or in round, square or oblong pieces held together by links. While these are by far the handsomer of imitation belts,

they are the most expensive, costing \$10, \$12 or \$15. Gilt or silver bands are sold as low as 55 cents.

Spangled elastic bands and enameled belts are also among the newer styles, which promise to be much worn this season. Leather belts are most useful and can be had for one dollar. The belt has undergone a great change of fashion since last season, particularly in width. All belts are now narrow, except the broad elastic bands, which are used when "in the field or on the road."—St. Louis Republic.

## Potatoes a la Maitre d'Hotel.

Boil the usual quantity of potatoes for a dish; peel and cut them into slices rather thicker than for frying; put them in a stewpan with two ounces of butter, and when that is dissolved add two tablespoonsful of bullion, a teaspoonful of salt, half as much pepper, a teaspoonful of minced parsley and chives and half a teaspoonful of vinegar. Shake the pan round, and when quite hot serve the slices in the cream.

## Vienna Ice Cream.

Set on a moderate fire in a clean kettle two quarts of milk, yolks of 12 eggs, one-half of a vanilla bean, one and three-fourths pounds of sugar, stirring slowly but steadily with beater. As soon as it is near boiling, take off, cool a little, and add one quart of double cream; strain through a fine sieve and freeze.—Good Housekeeping.

## To Prevent Mold on Preserves.

An exchange says that preserves may be kept from becoming moldy by putting a few drops of glycerine around the edges of the jar before screening on the cover—a simple but sure preventative.

Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children.  
Dr. G. C. Osceola, Lowell, Mass.  
"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."  
Dr. J. F. Kincelore, Coway, Ark.  
"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
H. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.  
"Our physicians in the children's department have spoken highly of their experience in the outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
