BASE BALL BRIEFS.

The Hazleton Sentinel makes the distinction of publishing nothing but prejudiced and untruthful comments on Freeland games and players. The base ball editor is not on good terms with the town, and his animosity to Freeland is injected in his writings at every opportunity. The public, however, considers the source, and judges accordingly.

The Tigers will endeavor to repeat the work of last Sunday in the game to be played with Easton State League club. A strong team has been procured by Manager Hanlon, and the audience can depend upon seeing an interesting contest.

The Stars and Jeddo clubs are confident that if admitted to the Anthracite league they would surprise some of the leaders.

The Stars will play two games at White Haven on Saturday.

THE CELLAR CAMPAIGN.

The Season Has Arrived for Its Vigorous Accomplishment.

As the spring draws on and "that tired feeling" so graphically portrayed by the vendors of various patent medicines takes possession of us, our thoughts, which fain would revel in swelling bud and freshening green, must, if we are housekeepers, be brought to the depths of our habitations, and the needs of the cellar—the very source and inspiration of many of our corporeal woes—receive our first attention.

In the large cities, where supplies are bought in limited quantities, the cellar debris is of a different character from that which litters the ground apartment of farm or village residence. Here repose in "mute inglorious cases" dismantled packing boxes, incriminated coal scuttles, punctured wash-boilers and dislocated boards, and all too frequently a collection of "bones and paylans" that the cat has dragged down unbeknownst to me, mum, and which from all appearances should long ago should have been relegated to oblivion. How, then, can the interests of health be better conserved than by devoting the first bright sunny spring morning to a vigorous onslaught upon this subterranean catch-all of our dwellings?

Can we all realize the danger that lies in wait for those who neglect this important stronghold of disease. From an ill-kept cellar rise poisonous exhalations that permeate the house, Malaria here lies in wait for victims, and from here diphtheria and typhoid fever and rheumatism send out their impalpable but deadly miasma. For, although disease germs may originate in the cellar, they are not stay-at-homes, and soon make their way from cellar to attic, leaving destruction and even death in their wake.

Arming ourselves, therefore, for the conflict in cap and jacket and old gloves, let us head our light brigade and proceed to fall upon the enemy right valiantly.

The first attack should be in the nature of a rout, and no quarter should be shown.

If a few potatoes are left, sprout them, and lay in a clean basket or box; then fall upon all other valetudinarian vegetables that skulk in corners and behind boxes and barrels, and give them decent sepulture in the ash receptacle. Then sweep down the cobwebs; send the most agile member of the corps with a broom and brush into the bins, with instructions to "spare not" empty barrels and boxes. Sweep up the dirt, and let no tender sentiment withhold the avenging hand from veteran and rusty foot tubs, teakettles and coffee mills.

Boxes and barrels that are not needed can be chopped up and added to the kindling pile; pork barrels can be emptied and scalded; butter tubs scraped and washed. Brush off the swing shelves; wash out the cupboards where the canned fruit is kept, and scrub the cellar stairs. Then, with a bucket of lime and an old broom, if you have no brush, give walls and ceiling a thorough coat of whitewash. That will sweeten the air and bring cleansing and healing in its wake.

This being satisfactorily accomplished and a half peck of unslaked lime placed in an open box to absorb the moisture from the atmosphere, the troops may be withdrawn for rest and refreshment, assured that their first victory in the spring campaign is comfortably perched upon their banners.—N. Y. Times.

BLOW TO FREE CUBA

Result of Supreme Court Decision in the Horsa Case.

MORE EXPEDITIONS TO BE SENT

But More Secrecy Will Be Necessary and They Will Labor Under Greater Difficulty—Executive Clemency Capt. Wiborg's Only Hope.

Philadelphia, May 26.—The decision rendered by the United States supreme court yesterday, holding that Capt. Wiborg of the steamship Horsa was guilty of a violation of the neutrality laws in conducting a filibustering expedition to aid the Cuban insurgents, is a great blow to the friends of free Cuba in this city, who say that, while other expeditions will undoubtedly be sent to that island, they will have to be conducted with much more secrecy and under far more difficult circumstances. Unless the president interferes Capt. Wiborg will have to serve the sentence originally imposed upon him.

The opinion, which was delivered by Chief Justice Fuller, holds that the decision of the Pennsylvania court was correct on the point that the expedition was a violation of the neutrality laws. The judgment of the lower court was affirmed as to Capt. Wiborg, but reversed as to the mates of the Horsa, Johansen and Petersen, on the ground that they were ignorant of the purpose of the expedition. Judge Harlan concurred in the reversal of the judgment as to Petersen and Johansen, but dissented from the judgment affirming the sentence against Wiborg. This case was recently advanced by the supreme court at the request of the attorney general, who was desirous of securing a decision as to the condition of the neutrality laws and their effect in preventing filibustering expeditions against friendly powers.

LITERALLY SLAUGHTERED.

Cruising Defeat of a Spanish Force While Trying To Invade Cuba.

Kingston, Jamaica, May 26.—Advice has reached here from a reliable source in Cuba to the effect that a strong body of Spanish troops recently made a second attempt to invade Cuba, the seat of the Cuban government. They were ambushed in the mountain fastnesses and sustained a crushing defeat. The Spaniards were literally slaughtered by the insurgents and the force was compelled to flee in disorder, abandoning their equipments on the field. The advice further shows that a filibustering expedition, having large quantities of munitions of war, has landed at a place to the eastward of Santiago de Cuba.

Cuban Fair Opens.
New York, May 26.—The great fair for Cuba Libre, or the Cuban-American fair, was opened last night in the Madison Square garden. The garden presented a gorgeous appearance, with many lights and the blending of the Cuban flag and "Old Glory," while the gaily decorated booths added to and heightened the general effect. There were everywhere hosts of dark-eyed beauties, who did their best to wheedle the seductive coin from the purses of the large number of visitors, and there were early indications that they were eminently successful.

Cubans Buy a Yacht.
Camden, N. J., May 26.—The Cuban junta has purchased a thirty-foot gas and electric yacht owned by a resident of Camden, and the little craft, the Luis Shang, is now said to be on her way to Cuba. The yacht can make fifteen knots an hour and can carry thirty people. It is said that she will be used by the Cubans as a sort of tender to the larger filibustering steamers and will convey the latter's cargoes ashore to the island.

Laurada Again Goes to Sea.

They asked Capt. Beasley if he would send a cablegram to London to that effect, but he said he would prefer the board send it. President LaGrange then sent the following cablegram to London: "We exceedingly regret that we will be unable to send a team to London to compete in the international tournament as heretofore intended."

HOME BOARD AFFAIR

Several Prominent Presbyterians Called to Saratoga.

THE ATTACK TO BE MADE THURSDAY

Assembly Committee on Missions Reports To-day—Proposition To Retire Those Members Whose Terms Expire This Year—New Blood Is Wanted.

Saratoga, N. Y., May 26.—The predicament of the home board on account of the Mission house investment has caused a gathering of the friends of the board in this city. Ex-moderator Charles L. Thompson of New York and Charles A. Dickey of Philadelphia arrived last night. John Hall, president of the board, is here. John E. Parsons, the board's counsel, has been called to its assistance, and other influential Presbyterians have been summoned. The date of the attack is fixed for Thursday. But to-day will have trouble of its own for the board. The assembly's committee on home missions reports to-day. This committee has digested the report of the board, including the schedule of the Mission house building committee. A prominent commissioner said last evening that a proposition is to be made to the assembly to retire those members of the board whose terms expire this year and elect in their stead Presbyterians from other parts of the country, thereby introducing new blood into the board and "breaking the clique of New Yorkers who play into the hands of the Wall street bankers." If the Hubbard resolutions are not discussed to-day there will be other matters to engage the attention of the visitors from New York. One of the foreign board, who is also an influential member of the assembly, said last night: "I think the proposal of Miss Kennedy to aid the boards to return to the old quarters most noble and generous. It ought to be accepted by the assembly with gratitude and satisfaction. It extricates in an honorable and easy manner the two boards from a most dangerous situation, from which they must retire sooner or later. We cannot handle the building at Fifth avenue and Twentieth street as profitably as a business man could. For instance, we were offered \$30,000 rental for the corner room, but could not accept as an independent business man could, as it was wanted for a restaurant, and liquors are sold in a restaurant. Again, the space occupied by the chapel is worth \$10,000 a year. A business man would avail himself of this space at a profit, but we cannot."

The circular will be sent to all the representative Germans in the United States. The signers will be asked to take a decided stand against bimetalism and free silver coinage.
