

VANGUARDS MOVE

Republican Leaders Beginning To Arrive at St. Louis.

McKINLEY'S OHIO MEN DUE TO-DAY

National Committee To Meet To-morrow and Consider Contests—Washington Reporters Enroute—Many Visitors Will Sleep in Cars.

St. Louis, June 9.—The national republican committee will meet at the Southern hotel to-morrow and decide upon the temporary organization of the convention and go over the contests. Ex-Congressman Thompson of Ohio, having in charge the contests of McKinley delegates from various states, announces that there are contests in the following states, and he expresses confidence that the committee will recognize the claims of the McKinleyites as the regularly elected delegates: Alabama—Four delegates-at-large; first, third, fourth, fifth, sixth, seventh, eighth and ninth districts, making twenty delegates in all. California—The third and fourth districts, four delegates. Delaware—Six delegates-at-large. Florida—Four delegates-at-large; first and second districts, eight delegates. Georgia—Four delegates-at-large; first, ninth and eleventh districts, ten delegates. Kentucky—First district, two delegates. Louisiana—Four delegates-at-large; first, second, third and fourth districts, twelve delegates. Mississippi—Four delegates-at-large; first, second, third, fourth, fifth, sixth and seventh districts, eighteen delegates. New York—Sixth, eighth, ninth, twelfth, thirteenth and fifteenth districts, twelve delegates. North Carolina—Eight districts, two delegates. Pennsylvania—Third district, two delegates. South Carolina—Four delegates-at-large; first, second, third, fourth, fifth, sixth and seventh districts, eighteen delegates. Tennessee—Sixth and ninth districts, four delegates. Texas—Four delegates-at-large, and every one of the thirteen districts, thirty delegates. Virginia—second and third districts, four delegates. Arizona, six delegates.

Temporary Chairman at St. Louis. New Haven, Conn., June 9.—It is reported that Samuel Fessenden of this state will be temporary chairman of the St. Louis convention. He left for St. Louis last night.

Correspondents Due To-night.

The Washington correspondents of the principal daily papers throughout the country, who left Washington for the republican national convention yesterday afternoon at 4 o'clock, are scheduled to arrive here this evening at 7 o'clock. They travel luxuriously on a special train of Pullman cars. About 100 are in the party. Delayed by the continuance of congress, another contingent of the leading correspondents, including the convention staff of the United Press, will leave Washington to-morrow afternoon via the Chesapeake & Ohio and will reach St. Louis on Friday. Both parties will return together after the convention ends.

Many Will Sleep in Railway Coaches.

Whatever sleep a large number of political men are to get during their convention sojourn here will be enjoyed in the railroad cars which bring them to this city. Arrangements have been made by the Terminal Railroad association to store 800 passenger cars in different places in St. Louis in the latter part of this and all of next week. More than 200 of these coaches, all of which are sleepers, will be converted into temporary hotels. Spaces are being reserved for them, and locations conducive to comfort have been selected. It has been decided by the Terminal association to allow each of its twenty tenant lines the storage of ten occupied sleeping cars. This arrangement will provide lodging places for at least 3,000 persons within five minutes' walk of the convention hall.

The Arrivals.

The morning trains arriving here today brought few arrivals of prominence. Chairman Manley of Maine and James S. Clarkson of Iowa are scheduled to reach here to-night. Ex-Gov. Foraker of Ohio, who is to present McKinley's name to the convention, will not be in St. Louis until next Sunday or Monday. He will be escorted in a special car by the Blaine club of Columbus. Mr. Hanna and the Ohio contingent of McKinley workers are due this morning.

McKINLEY ON FIRST ROLL CALL.

Then a Platform Against Free Silver is Nathan Frank's Convention Forecast.

Chicago, June 9.—Richard C. Kerens and ex-congressman Nathan Frank of St. Louis stopped in Chicago last evening on their way home from their political visit to William McKinley at Canton, O. As a Missouri delegate to the republican convention, Mr. Frank said: "We will nominate McKinley on the first roll call. There will be McKinley strength to not only dictate the nomination, but the manner of doing it. We will not permit a suspension of the roll call long enough to make the nomination unanimous. And then we will make a financial plank satisfactory to the business men of the country. We will declare unequivocally against the free coinage of silver at any ratio. We will not straddle at that point. As for Major McKinley's position, I can say that the financial plank cannot be made too strong for him. He is sound."

Sound Money Democrats.

Westminster, Md., June 9.—The Carroll county democratic convention adopted resolutions declaring for a sound and stable currency as provided for by the constitution of the United States. B. F. Crouse was endorsed for congress.

TRIAL OF MRS. FLEMING.

It Develops Into a Bitter Fight Between Opposing Counsel.

New York, June 9.—The trial of Mrs. Alice Fleming for the murder by poison of her mother, Mrs. Bliss, which is now in its fifth week, has developed into a bitter fight between lawyers for the prosecution and defense, or, more properly, between Lawyer Brooke, senior counsel for the defendant, and Dr. O'Sullivan, special counsel for the prosecution. The greatest excitement occurred while Dr. Scheele, expert witness for the people, was on the stand. Mr. Brooke asked the witness if he had not on several occasions said that he had made a mistake in previous cases by being on the side of the defense; that Mrs. Fleming must die, whether she is guilty or not, and that her conviction was necessary to save his reputation. Once or twice Dr. O'Sullivan considered Mr. Brooke's questions as insinuating that he, himself, had conspired with Scheele and lived with rage, he almost gave the direct lie to his former partner, and asserted that brewers were in a conspiracy to ruin him and Chemist Scheele. The recorder has been compelled repeatedly to call the opposing counsel to order on account of heated personalities indulged in.

CAPITOL FRIEZE.

Resolutions Introduced in the House Looking to Its Completion.

Washington, June 9.—Representative Boutelle, rep., Me., introduced the following resolutions anent the unfinished frieze of the capitol rotunda: That the president of the senate, speaker of the house and joint committee on library are appointed a commission to secure the completion of the historical frieze in the rotunda of the capitol, by the painting therein of a suitable design by an American artist of national reputation, that shall symbolize the great events in the national life since the close of the Mexican war, and appropriately commemorate the preservation of the union and the establishment of universal freedom by the heroic valor and sacrifice of the citizens of the republic under the leadership of Abraham Lincoln. The design is to be selected after advertising, and \$10,000 is appropriated for the work.

COMMODORE RELEASED.

The Filibustering Steamer's Owners Give Bond to United States Officials.

Charleston, S. C., June 9.—The little filibustering steamer Commodore was released from custody by the United States authorities here last evening upon the attorney of Messrs. J. D. Hart & Co. putting up \$4,000 for her appearance when wanted. The boat was seized by the United States customs officials upon her recent return from an alleged trip to Cuba. Information was given against her by one of her seamen, and she has been tied up at the custom house dock ever since. The boat will probably be placed on the ways to have her bottom cleaned, after which, it is stated, she will go to Philadelphia. A crew of eight men have arrived in this city for her.

MRS. WHITTAKER RELEASED.

Grand Jury at Port Jervis Fails to Indict Her for Murder.

Port Jervis, N. Y., June 9.—Mrs. Martha Whittaker of Port Jervis, who has been confined in the Goshen prison for the past two months charged with the murder of her mother, Mrs. Francis Snyder, was discharged yesterday afternoon on the application of her attorney, the grand jury which has been in session during the past week having failed to find an indictment against her. The motion for her discharge was opposed by the district attorney, but the presiding judge said there was not sufficient ground to detain her for another grand jury and ordered her discharge.

G. A. R. in New York State.

Albany, June 9.—Owing to the decrease in the ranks of the Grand Army of the Republic during the past year the Grand Army of the Republic department in this state will have but thirty-eight delegates, one less than last year, in the national encampment at St. Paul in September. During the last year 2,000 veterans left the posts in this state. This decrease was caused mostly by death.

Capt. John G. Bourke Dead.

Philadelphia, June 9.—Capt. John G. Bourke of the Third cavalry, United States army, died yesterday at the Polyclinic hospital, this city, where he had been under treatment for about three weeks. He had been suffering for a long while from the effects of disease contracted while campaigning in Texas and the far west. Capt. Bourke had a brilliant record as a soldier.

Wale-Wisconsin Boat Race.

New Haven, Conn., June 9.—Plans are being completed for the Yale freshmen-University of Wisconsin race at Lake Saltonsall. It will be rowed here on June 18, between 4 and 6 o'clock. Guy Richards of Columbia has been selected as referee. The course will be from the east end of the lake to Regatta point. The Wisconsin crew are expected here about June 13.

A Sloop Yacht Stolen.

Rockland, Me., June 9.—The sloop yacht Ivanhoe, owned by Oliver Hanley of this city and valued at \$1,000, was stolen from her moorings sometime yesterday. The authorities have issued a description of her and are keeping a close watch.

Weavers' Strike Continues.

Fall River, Mass., June 9.—The weavers at the Hargraves and Parker mills have entered on the fourth week of their strike. In the Hargraves mill about thirty-two weavers are working and in the Parker mill about forty are working.

THE CLOSING WORK

Only Three Appropriation Bills Now Before the Senate.

DEFICIENCY PASSED LAST EVENING

Adjournment May Be Reached To-morrow, But the Belief Is That the Session Will Continue Throughout the Week.

Washington, June 9.—It is not believed this morning that congress can reach final adjournment by to-morrow and it may continue in session throughout the balance of this week. There are still three general appropriation bills before the senate, the District of Columbia, naval and sundry civil. The new general deficiency bill was passed last evening in less than three-quarters of an hour. Ordinarily a bill of 130 printed pages would have taxed the powers of the reading clerk for at least two hours, but the reading of this bill was completed in half an hour. An attempt was made by Mr. Harris, dem., Tenn., to have the claims under the Bowman act, aggregating about half a million dollars, placed in the bill, but they were ruled out on a point of order and the bill was promptly passed. The immigration bill was taken up and Mr. Morgan, dem., Ala., made another long speech on the question of the war in Cuba. Alluding to a newspaper statement that he had on the floor of the senate made hard and unpleasant remarks as to the queen regent of Spain, Mr. Morgan said that he had on that occasion referred to the queen regent merely in connection with her speech from the throne in which she claimed that the president of the United States was in controversy with congress and in controversy with the people as to their sentiments about Cuba.

Enthroned Queen Regent of Spain.

Those who knew anything of that lady—he did not know her personally—said that she was a woman of almost unexampled virtue and of very high character. While she had perhaps less to do with the government of Spain than Queen Victoria has with the government of Great Britain, she was entitled, by virtue of the regency of her womanhood, to the utmost respect; and so every senator spoke of her. If the queen of Great Britain, the queen regent of Spain, the queen of Greece and the empress of Germany were to meet in the island of Cuba and were they to witness some of the things done there in the name of Spain upon innocent women and children, who were shot to death by a brutally soldier, those great and noble women would rise in their majesty and would strike to death the power which enabled a brute like Weyler to inflict such wrongs. "Would to God," Mr. Morgan exclaimed, "that the queen of Spain were there to see these things. The delicacy of her nature would not permit the infliction of such brutalities upon women and children. But were she to stand by, according to the president's theory, idle and mute, and are to witness the continued repetition of these brutal acts in that island. I wish the noble women were there to see them. They would lay their hands on the arm of the brutal soldier who now wields the sword of Spain there, and would tell him in the name of God and humanity to forswear his inhuman deeds."

House of Representatives.

The house did not adjourn last evening, but took a recess until 10 o'clock to-day, and it is understood that no adjournment will be taken until the final close of the session. In order to maintain the presence of a quorum, resolutions offered by Mr. Dingley, rep., Me., regarding all leaves of absence except those granted on account of illness and directing the sergeant-at-arms to telegraph other absent members that their presence here is necessary to the transaction of the public business were adopted. In this connection the house heard with applause the message announcing that the senate had passed without amendment the general deficiency bill which the house passed Saturday afternoon. Twice Mr. Daniel, rep., N. Y., endeavored to bring up for consideration the report of elections committee No. 1 on the contested election case of Truman H. Aldrich, rep., vs. Oscar W. Underwood, dem., from the ninth Alabama district. The first time the house refused—64 to 53—to enter upon its consideration. The vote on the second motion had not been announced when recess was taken.

Cabinet Troubles at Rome.

London, June 9.—The correspondent of the Times at Rome says that the Italian ministry is in very rough water, owing to the publication of the Green Book on Abyssinia, which relates communications from Great Britain regarding the Sudan expedition. There is a widespread opinion in Rome that a cabinet crisis is inevitable.

The Proposed New Battleships.

Washington, June 9.—The naval conferees have agreed finally on the battleships in the naval bill. Three ships are provided for, with a stipulation that contracts for armor-plate are not to be made at any price until congress shall have further acted in the matter.

To Take Naval Militia to Sea.

New York, June 9.—Cruiser Raleigh sailed last night for Charleston and New Orleans to take the South Carolina and Louisiana naval militia out to sea for instruction.

Nominated by the President.

Washington, June 9.—The president has nominated Richard M. Bartleson of Massachusetts to be consul of the United States at Malaga, Spain.

CONNECTICUT DEMOCRATS.

State Convention at Hartford To-morrow Promises To Be Largely Attended.

Hartford, June 9.—From returns received by the state committee from town caucuses the indications are that the state convention to-morrow will be larger than any held in many years. For several days there have been consultations among democratic leaders of this city and neighborhood, it is said, on the subject of introducing in the state convention a resolution ordering the Connecticut delegation at Chicago to withdraw from the national convention if a free-silver platform is adopted. It was argued by some of the leaders that such an instruction might be a warning to check the free silver leaders in the west and at the same time strengthen the gold sentiment in the party in the east. As against that it was urged by other leaders that the delegates are simply agents to report to their principals, who can then determine whether the emergency of the party is such as to justify a new state convention and action for a democratic sound money presidential ticket, to be supported by Connecticut democrats.

BALTIMORE DEMOCRATS.

They Endorse Cleveland's Administration and Declare for Sound Money.

Baltimore, June 9.—Democratic primaries for the election of delegates to the three legislative district conventions were held in this city yesterday. The regular organization selected the delegates without opposition to speak of, and will control the Baltimore representation in the state convention to-morrow. Aside from the selection of sixteen delegates to the democratic national convention and the adoption of a sound money platform, nothing else will be done by the state convention. Baltimore county democrats also held their convention yesterday. A resolution was unanimously adopted endorsing President Cleveland in his views on the money question and pledging itself to a sound money currency. The president's name was cheered.

Committed to Life Imprisonment.

Albany, June 9.—Gov. Morton has commuted to imprisonment for life the sentence of Tuedi Tuzekewitz who was convicted in New York in March, 1895, of murder for killing Adolph Balansiefer. The commutation was granted on the recommendation of the judge, the district attorney and all of the jurors.

Passed a School of Spouting Whales.

New York, June 9.—Capt. Hawthorne of the Morgan line steamer El Norte, just arrived from New Orleans, reports that on Sunday afternoon, off the Chesapeake, he encountered a school of more than twenty whales blowing the water high in the air and presenting a very interesting picture.

Another Victory for the Meteor.

London, June 9.—The Royal Cinque Ports Yacht regatta was held here yesterday and Emperor William's new cutter Meteor again won. This was her third race and her third victory, and the belief gains strength daily that she is more than a match for any of the fast British yachts.

\$100,000 for Chickasaw Indians.

Washington, June 9.—The president has signed an order granting permission to the Chickasaw tribe of Indians in Indian Territory to draw upon the United States treasury for \$100,000 out of their fund of \$1,300,000 to pay the current and national expenses of that tribe.

Another Consensus Contribution.

Washington, June 9.—A consensus contribution of \$8 from New York, from a man who said he had smoked cigars of his own manufacture and had not paid the tax thereon, to the amount named, has been received at the treasury department.

The Woolsey Statue Site.

New Haven, Conn., June 9.—Prof. Weir of the Yale art school has written to the Yale corporation asking a new site for the Woolsey statue, and there seems to be no little doubt that the corporation will recede from its vote.

Postmaster Nominations Confirmed.

Washington, June 9.—The senate confirmed the nominations of William F. Rooney to be postmaster at Waltham, Mass., and A. M. Brownley at Franklin, Va.

HOW LONG IT WILL LAST.

PENNSYLVANIA'S SUPPLY OF COAL HAS BEEN FIGURED UP.

Interesting Statistics Showing the Area of Anthracite Coal Lands and by Whom Controlled—Also the Tonnage and Duration of the Supply.

William Griffiths, of Scranton, who is an acknowledged authority on the subject of anthracite coal, has prepared several articles on this subject which contain the most elaborate data that has ever been presented. These articles have been in course of publication in the *Bond Record* for several months past, and the June issue gives in detail a summary of the coal statistics and figures that is of unusual value. The *Wilkesbarre Record* has taken pains to summarize the figures given in the articles, and presents the same below, showing the approximate future supply of coal tonnage of the various railroads having access to the Pennsylvania anthracite coal fields:

SQUARE MILES AREA.
Wyoming region 170
Lehigh region 45
Mahony district 91
Pottsville district 169

*The area is based on coal lands covering 3 and 4 foot beds, and the figures represent acres.
†The duration is based on 1895 tonnage shipments.

It will be seen from the above tables that the corporations named control directly or indirectly 96.29 per cent of the available tonnage of the future, while there remains uncontrolled, in private hands, only 3.70 per cent.

The tonnage supply and acreage of the various fields are proportioned as follows: The first column gives the percentage of area covering 3 and 4 foot beds, and the second the percentage of future tonnage supply:

Wyoming region 37.6 25.2
Lehigh region 16.3 10.4
Mahony district 29.4 20.5
Pottsville district 31.7 43.2

The above figures show how completely the anthracite industry is under the control of the above corporations, and it must be evident that they are in a position to form a powerful combination, trust, or what you will, if they choose to do so.

Large Fire at Kingston.

Late on Monday night fire broke out in Alfred Koons' flour and grain mill in Kingston. The fire burned fiercely and at one time it looked as if the town would be destroyed. Assistance was asked from Wilkesbarre, and fire engines were sent to the scene. At midnight the flames were under control. Besides the flour mill, Vanhorn's blacksmith and wagon shop and lumber yard was destroyed. Loss, \$40,000. The reflection of the blaze in the sky was visible in Freeland.

Anthracite League.

The Fearnots will cross bats with the Travelers at Freeland park on Sunday. The clubs stand as follows:

BASE BALL BRIEFS.

Sugar Notch, the strongest amateur club of the Wyoming valley, will be the Tigers opponents at the park on Sunday afternoon. This club was seen here on different occasions during seasons that are past, and they never failed to make the game interesting. The Sugar Notch boys are noted for their hitting abilities. Play will begin promptly at 3 o'clock. Manager Hanlon learned this morning that Sugar Notch may be unable to come here on Sunday.

The Tribune's prediction, made the day after the State league was formed, that it would not live to see the Fourth of July, seems about to be fulfilled. York has disbanded, Easton will follow within a week and Hazleton is ready to say "enough" any day.
