It is often difficult to convince people that their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or whenever there is any indication of

blood, to take Hood's Sarsaparilla, and prevent such eruptions and suffering. "I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor tended me over seven weeks. When the abscess broke, the pains were terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it and my husband, who was suffering with boils, took it also. It soon purified our

built me up and restored my health so that, although the doctor said I would not be able to work hard, I have since done the work for 20 people. Hood's Sarsaparilla cured my husband of the boils, and we regard it a wonderful medicine." Mrs. ANNA PETERSON, Laumer, Kansas.

**Eden's Flowers and Thorns.**  
In this beautiful season of flowering green, when the air is balmy and the sunlight golden, it seems a pity that anything should enter into this Eden of ours to mar its pleasures and blight its joy, but so it is ordained; man has his heritage, and it is even doubt ful—if all of life were a scene of pleasure—whether we could possibly enjoy it. The birds come and sing, and the birds sing and go. Rhetoric comes and goes. It is well, therefore, while we enjoy all these seasonable delights, not to be without this great remedy for pain, and to have it ready, more because we are the more liable at this season than any other to suffer from such attacks.

# THE TURN OF LIFE.

THE MOST CRITICAL PERIOD IN THE LIFE OF A WOMAN.

Experience of Mrs. Kelly, of Patchogue, Long Island.

There is no period in woman's earthly career which she approaches with so much anxiety as the "change of life." Yet during the past twenty years women have learned much from a woman.

It is safe to say that women who prepare themselves for the eventful period, pass through it much easier than in the past. There is but one course to pursue to subdue the nervous complications, and prepare the system for the change. Lydia E. Pinkham's Vegetable Compound should be used. It is well for those approaching this time, to write Mrs. Pinkham, at Lynn, Mass. She has the experience of years to aid her in advising. She will charge you nothing.

She helped this woman, who says:—"I have used Lydia E. Pinkham's Vegetable Compound in my family ten years, with the best results. Some time ago my daughter had catarrh of the womb, and it entirely cured her. I was approaching the 'change of life,' and was in a deplorable condition. My womb had fallen, and the bearing-down pains and backache were terrible, and kidneys affected. "I began taking the Compound, and my pains ceased. I consider it the strong bridge between sickness and health, and recommend it to everybody I meet who needs it."—Mrs. L. KELLY, Patchogue, L. I.

# HOW TO MAKE A SHIRT LAST A WEEK.

# HOW THEY MAKE LOVE.

Officers of the Salvation Army Must Do Nothing Sentimental.

Marriages of officers in the Salvation army are not numerous, and perhaps the reason is to be found in the very stringent laws which govern the love-making in that body. The new field book of the army, which has just been issued, lays down the rules which must

and heart-breaking flitting will be reduced to the ranks. Courting means, more or less, a division of feeling, necessarily interfering in some measure with the discharging of duty, and is therefore deprecated. Officers must not be allowed to carry on any courtship in the town in which they are stationed.

# DYNAMITE AIR-SHIP.

Novel Flying Machine Is Being Constructed in Washington.

In a busy workshop of a Washington suburb a novel flying machine is in course of construction. The greatest secrecy prevails among the workmen, and the professor who is the brains of the concern is a sphinx. It has been learned, however, that the invention consists of two immense bobbin-shaped receptacles made of thin sheet aluminum, to contain hydrogen gas. A car or cabin of the same metal is to be attached to the receptacles, and will be of sufficient size to accommodate a crew of five or six. An electric motor will operate the wings and steering mechanism. The car will be the shape of a ship's hull, and in case of the aerial contrivance collapsing, the inventor claims the crew can drop to the surface of the sea and become navigators of the water instead of the air.

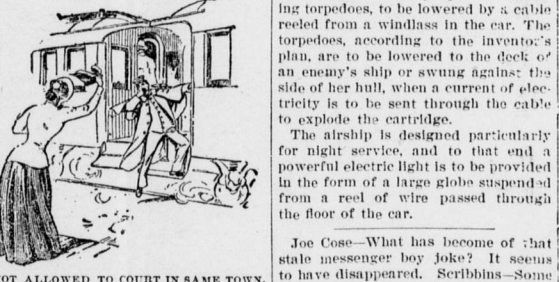

govern the affections of individuals in the army as if hearts were machines and Cupid's pranks could be controlled with a word.

It is only to the officers of the army, however, that these rules apply; the rank and file may make love and marry as they see fit, provided they limit the number of their marriages to one. If the susceptible heart of a male officer becomes stirred with the tender passion of love, and he ardently desires to become one with the fair lady of his affection, he does not drop at once on the left knee and ask her to allow her soul to join with his, nor does he then slip on the engagement ring while she prettily blushes. Neither does he timidly approach him whom he fain would call father, declaring that life without "her" is of no account at all.

No; he goes to the division officer and briskly asks for a printed engagement application blank. He fills this out, stating all he knows about the fair one, and hands it back to the division officer, who in turns forwards it to the national headquarters.

Officers may not marry without a year's separation from their chosen life partners, and if the two favorites interested both live in the same town, the higher officer either refuses them permission to become engaged or remits rise from the ranks before the marriage will be sanctioned. This provision is made that there may be extraordinary efforts made by the private in doing good work—and love will find a way—for thus the marriage will reflect honor upon the army.

"Any breaking of an engagement," the field book ordains, "must at once

Tightly closed trapdoors, which, when securely fastened, will not admit water, are to be opened when at the desired height for the purpose of releasing torpedoes, to be lowered by a cable reeled from a windlass in the car. The torpedoes, according to the inventor's plan, are to be lowered to the deck of an enemy's ship or swung against the side of her hull, when a current of electricity is to be sent through the cable to explode the cartridge.

The airship is designed particularly for night service, and to that end a powerful electric light is to be provided in the form of a large globe suspended from a reel of wire passed through the floor of the car.

"Got on your husband's cravat, haven't you?" asked a neighbor of Mrs. Bilkins. "Yes," replied Mrs. B., sadly, "and it's the only tie there is between us now."—Harlem Life.

**Faral's.**  
From the Press, New York City.  
Morris Preslaner, of No. 1 Pitt Street, New York, who is a real estate agent and collector of rents, caught a severe cold early last spring, which settled upon his kidneys. Soon he began to suffer severe pain in his back, sides and chest. His symptoms grew rapidly more alarming, until at last he was as helpless as a child and could scarcely move as he lay on his bed. As Mr. Preslaner is well known in the part of the town where he resides, he had many sympathizers, who did all they could to help him.

Though a native of Berlin, Mr. Preslaner has lived in this country for forty years, having served the country of his adoption by three years' hard service in the civil war. He enlisted with the Nineteenth Illinois Infantry, taking part in many battles and marching with General Sherman to the sea. While in Georgia, Mr. Preslaner was promoted to first Sergeant for bravery on the field of action. He is now a member of Kotzes Post, G. A. R., and is one of the most popular men in the Post.

Mr. Preslaner told a reporter the story of his dreadful illness and wonderful recovery. The reporter met him as he was returning from a long walk, and, saying that he had heard of his wonderful cure, asked him to tell the story. When Mr. Preslaner was comfortably seated in his pleasant parlor, he told the following story, which, he said, he hoped everyone who was suffering as he had suffered, would read. His words were as follows: "To begin with, I was taken sick last year and a month ago, having taken a severe cold which settled on my kidneys. At first I thought that the pain I would soon pass away, but, instead of doing this, it grew more intense every day, so that in a week I could walk only with considerable difficulty.

"I called in a doctor, who said I had locomotor ataxia and began treating me for that disease. He did me no good, and all summer long I could scarcely attend to my business at all. Then I called another doctor and took his medicine for several weeks, but experienced no relief. Dr. Truman Nichols, of No. 237 East Broadway, who I at last called in, helped me more than any of the other doctors, but along towards fall I grew worse, despite his treatment. I think Dr. Nichols is a good doctor and I understood my case, but despite this fact his medicines did me no lasting good.

"Early in November the little strength I had in my legs left me and I was unable to stand. The pain in my back and sides became almost unbearable, and my limbs grew cold. An electric battery I bought failed to help, and for weeks I felt myself gradually growing weaker until all hope left me.

"Sometime before this I had read of a wonderful cure a man had received from Dr. Williams' Pink Pills for Pale People, but was so prejudiced against what I thought was a patent medicine of the usual worthless character that I could not make up my mind to try them. As my pains increased and death seemed coming near, I thought of what I had read and of the symptoms of the man who had been cured. They were precisely the same as mine, and at last, with my wife's earnest entreaty, I consented to try Pink Pills.

"I am now convinced that these pills cured my illness. Gradually my strength began to return, the desire to live grew stronger. After having taken three boxes I felt my bed. This was early in March. All pain had left me, and that terrible dead feeling in my legs had gone away. I was still very weak, but before I had taken the fourth box I was able to get down stairs for a short walk in the open air. Now I feel as if I had been born again and am as happy as a child. Every pleasant day I take a walk, and am sure that in a month I will be as well as ever."

All diseases, such as locomotor ataxia, St. Vitus' dance, partial paralysis, sciatica, rheumatism, neuralgia, nervous headache, palpitation of the heart, effects of a gripe, pale and sallow complexion, and all forms of weakness, either in man or woman, disappear when Dr. Williams' Pink Pills for Pale People are taken. Pink Pills can be bought of any dealer, or will be sent post paid on receipt of price 50 cents a box or six boxes for \$2.50, by addressing Dr. Williams' Medicine Co., Schenectady, N. Y.

# Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxative cures or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest, and is most largely used and gives most general satisfaction.
