### WASHINGTON LETTER

Washington, October 2, 1896.
Mr. Bryan's supporters find nothing discouraging in the situation. On the contrary, they have excellent reasons for believing that Mr. Bryan's chances for election are better than those of Mr. McKinley. These reasons are not entirely based upon reports made to the managers of Mr. Bryan's campaign, although there is no doubt of the trustworthiness of those reports as a rule. Those Democrats who are careful not to allow their wishes to become tangled up with their judgment have been making a study of the figures put up by the more conserva-Washington, October 2, 1896. wishes to become tangled up with their judgment have been making a study of the figures put up by the more conservative supporters of McKinley and have thereby strengthened their belief in Bryan's success. The latest of these tables appeared on the editorial page of the Washington Post, which is strongly for gold. It gives Bryan 205 electoral votes, McKinley 104, and puts 102 in the doubtful column. To accept this table as correct is to be sure that Bryan will be elected, as the 102 electoral votes classed as doubtful, of which Bryan must get 10 to be elected and McKinley must get 84, are made up of the following states: Illinois, Oregon, California, Maryland, West Virginia, Minnesota, Michigan, Wisconsin and Iowa. It is a conservative claim to say that Bryan will certainly carry more than five out of these ten states, which would elect him with votes to spare, if the rest of the table be all right, and there is no doubt about that, as with only includes states with are conceded to Bryan by the Republicans.

Democratic confidence, which has been fairly good from the beginning of the campaign, has greatly increased since the conference in New York this week, participated in by Messrs. Bryan, Sewall, Chairman Jones, Senator Gorman and other Democratic leaders. At that conference every aspect of the campaign was carefully considered, and the deliberate and unanimous conclusion of those present was that Mr. Bryan, was making a great campaign and that cannot fail to make itself felt in the work of the campaign.

work of the campaign.

Hon. W. E. Chilton, secretary of stats for West Virginia, was one of the party which came to Washington to escort Mr. Bryan to that state. While in Washington Mr. Chilton said: "I am not afraid of the rseult in West Virgina, and have no hesitation in predicting that Bryan will get its electoral vote. Our people are strongely for silver, and many converts have been made from the Republican ranks. The Palmer and Buckner ticket will not poll much of a vote. The Republicans are making the most strenuous effort for McKinley and the allegations of coercion and intimidation of railway employes are strictly true. But there is always a reaction against such methods, and a feeling of resentment arises in the minds of the men who are thus coerced that will result in causing hundreds of them to vote the other way."

Senator Gorman's disinclination to make ante-election claims and promises adds force to what he told to Mr. Bryan and the other gentlemen who participate in the conference held in New York city this week. He promised that Mr. Bryan should have the electoral vote of Maryland, and he said that he considered that the Democrats still had an even chance to win, notwithstanding the influences that were being used against them.

Here is lots of silver sentiment in my state.

Place the control of the standard money of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, on matter what distress may overtake the story of the world in the hands of a few great financiers, and times will be good for them, or matter what a few great financiers are the world in the hands of a few great financiers.

ing to Senator Faulkner's advices neither of them will be carried by McKinley. The Democratic state committee of Michigan reports that state to be absolutely safe for Bryan, and gives the figures to back up the claim; reports from California say that is now only a question of the size of the majority Bryan will get in that state; Iowa is considered so safe for Bryan that its prominent stump speakers are being sent into other states, and a poll of Kansas gives Bryan the state by 50,000 majority. majority.

deep any one teils you your dollar un-der free silver would only buy half as much as it does today, ask him how prices can go up if what McKinley says is true-manely, that free silver would reduce our volume of meney. An increase in the vol-ume of money raises all prices, including that of labor. A decrease puts them all down. The volume of money in the last few years has decreased.

## BRYAN TO THE MINISTERS.

He Is Willing to Take Chances With Laz arus if They Prefer Dives,

He Is Willing to Take Chances With Lazarus if They Prefer Dives.

Well, I could stand any appeal made by the advocates of the gold standard to almost any class better than an appeal made to the preachers and teachers of religion. If there is one thing that the church people of this country could afford to array themselves against it is the gold standard as it is being advocated by the American people at this time. And yet the Republican party is appealing to church people to take their place upon the side of the gold standard. How things have changed in the last 1,800 years! Look at the people who head the gold standard propaganda in the United States. Look at the bondholding class and the mency change classes, the brokerage classes of New York, who are trying to fasten a gold standard upon the people of this country, not openly, but secretly and in disaguise, and then turn back 1,800 years, when the meek and lowly Saviour threw the same kind of people out of his temple because they had made his house a den of thieves, and then think that these people come and appeal to the ministers of the gospel and the church papers to save them from the wrath to come!

My friends, when certain ministers of the gospel denounce the great mass of the gospel denounce the great mass

papers to save them from the wrath to come!

My friends, when certain ministers of the gospel denounce the great mass of the people who stand behind free coinage, when these ministers have denounced these advocates of free coinage and have taken their places upon the side of those great aggregations of wealth, I remind them that when the Saviour was here it was the common people who heard him gladly—the very people whom these ministers call an archists and socialists.

My friends, when I find—there are not many of them, but they are quite conspicuous—when I find these men casting their lot upon that side and exhausting abusive language in their description of the great masses of the people of this country, I feel like saying to them that if they will take their chances with Dives I will risk my chances with Lazarus.

Fictitions Value of Products.

One is almost moved to tears by the sight of New England manufacturers protesting with indignation against the wisdom or possibility of giving fictitions value to a product, when for the last 30 years they have drained the rest of the country and secured artificial prices by protective tariff laws.—W. J. Bryan in House of Representatives, Nov. 1, 1894.

Free silver will raise prices and wager by bringing more money into circulation, by doing away with fears of a money panic and by bringing another form of real money into competition with foreign

gold.

More Hope Than Confidence.

At the Republican national head-quarters at Chicago ex-Senator Manderson expressed himself as follows on the political situation:

"The Republicans in our section are earnest, vigorous and aggressive. I have hope rather than confidence that we will carry Nebraska by a small majority. All this talk about McKinley carrying everything west of the Missouri river is all bosh. I told Mr. Hanna when I was in New York that he must not depend on any state west of the Missouri. There is lots of silver sentiment in my state."

chance to win, notwithstanding the influences that were being used against them.

Senator Faulkner has been getting some very cheering news this week from all around, but that which pleased him most has come from Michigan, California, Iowa and Kansas, which are claimed by some Republicans and put in the doubtful column by others. Accord-

## FACTS FOR WORKINGMEN.

What the Election of McKinley Will Mean to Wageworkers.

What tae Election of McKinley Will Mean to Wageworkers.

If McKinley wins this fight, we go flat upon the single gold standard unitigated even by any reasonable hope of relief from any source. That will mean a final settling down to gold prices in every branch of industry and trade. It will mean wages to labor in this country corresponding closely to the wages given to the "pauper labor" of gold standard Britain.

But one of the very first effects of the final triumph of the single gold standard in this year's election would be a sharp cut in the wages of all labor and the early beginning of a readjustment of prices in other industries besides agriculture.

The single standard gold dollar is a dear dollar the world over. The man who has it is going to get something when he parts with it.

If McKinley is elected, thousands of men who vote for him will in less than three months have the strongest kind of reasons in their pockets for begging somebody to kick them.

But McKinley is not going to be elected.—St. Louis Republic.

It is odd to find so many big employers of labor trying to tell the workingmen what is best for them. Great reforms al-ways have come from the masses, open world's history where you may.

Needs Explanation.

Mexico is not heaven, but it is true that there are more Americans going to Mexico than there are Mexicans coming to the United States. It is also true that no Mexican capital is invested in this country while millions of American capital is invested in Mexico. What is the explanation of these strange facts?

# Billheads.

There is a vast difference between asking a man bluntly for money and presenting a Bill to him. The begging method is not business-like, and there is great risk of offending the sensibility of your debtor, thereby perhaps losing a customer who might otherwise be retained. It is a satisfaction to every man who deals with you to receive an itemized account of his purchases and a receipt in payment for the same. A Billhead is the handiest means of giving him both. He will know what he pays you for every article, and when he gets an opportunity to compare your prices with others he will have them handy for reference. Do not use the common stock variety which is furnished by wholesalers. Be a little above your competitor. Have nothing but your own name and your own business on the heading. That is the proper kind of a Billhead.
