### KING AS ARBITRATOR

DSCAR OF SWEDEN TO HELP SETTLE THE VENEZUELAN DISPUTE.

ecretary Olney and Embassador Pannee fote Reach an Agreement—An Informal Treaty Between Great Britain and the United States-Sketch of King Oscar.

United States—Sketch of King Osear.

Washington, Nov. 11.—The king of Sweden and Norway, Osear II, has been chosen by treaty between the United States and Great Britain as the fifth or final arbitrator of the Venezuela boundary question. The other arbitrators, four in number, are to be designated, two by the lord chief justice of England and two by the chief justice of England and two by the chief justice of the United States.

This is the final and the most important feature of the treaty for the complete adjustment of the long pending Venezuela controversy. The treaty was concluded in Washington at the British embassy, Sir Julian Pauneefote representing her Britannic majesty and Secretary Olney the United States. Since the return of Sir Julian from London, three weeks ago, negotiations toward a final sertlement have been proceeding. Most of the meetings were of such an important character that they were held either at Mr. Olney's residence or at the British embassy, the two houses being but two blocks apart. It happened that the concluding meeting was at the embassy Monday night, and special

KING OSCAR.

Interest was given to it from the fact that Lord Salisbury, the British premier, was to make a speech at Guildhall, London, tater in the evening. It is an annual event, at which the premier usually takes occasion to review the status of the most important international questions. For this reason it was desired, if possible, to acquaint Lord Salisbury of the final and satsfactory adjustment of the Venezuela question in order that he might make such unnouncement as he thought fit concerning it. When Mr. Olney and Sir Julian had their final conclusions, a cablegram was at once dispatched to Lord Salisbury, notifying him of the result. It reached him within one hour of the time when he went on the platform at Guildhal, and it was the basis for his announcement to England and to the entire world that the Venezuela controversy was settled.

Was a General Agreement.

The other essential feature of the treaty is that 50 years' actual possession is to constitute title. With this limitation as to the settled districts, the entire sweep of Venezuela boundary is placed in the hands of the court of arbitration. The treaty sovers only Venezuela, and the question of general arbitration between the United states and Great Britain is left to future negotiations. As a king seldom leaves his sountry, except on state visits to other sovereigns, it is not expected that King Desar II will go outside of Sweden for the meeting of the arbitrators, and the outrit is likely to sit at Stockholm, the apital of Sweden, where King Oscar's alace and the halls of the Swedish parlament are located.

revolution.

King Osear has long shown a most cordial sentiment toward the United States, and this doubtless had a part in his selection. General Thomas, U. S. A., and his brother, Hon, W. W. Thomas, late United States minister to Sweden, gave interesting accounts of the king's cordiality toward America. At an audience in Stockholm, King Osear asked with especial interest of General Thomas concerning American affairs, particularly inquiring as to the Greedy relief expedition, the status of the Mormon question, dynamite plots, Ericsson monitors as an implement in future warfare, the condition of the negro and of the south and their future and the character and bent of the American people.

General Thomas gives the following pen picture of the king: "A middle aged gentleman, dressed in a double breasted frock coat of black diagonal and pearl gray trousers, with full beard and dark hair, varieties of the second of the martyred resident.

While most cordial toward the United

Great Fortune Had Been Reduced Before Her Death-She Made Large Bequests to Loyal Servants.

New YORK, Nov. 11.—The odd will of that odd woman, Mrs. Hicks-Lord, is to be contested by her favorite nephew, J. W. H. Crommelin of Amsterdam, Holland.

During her long stays abroad Mrs. Hicks-Lord often made the ancestral home Hicks-Lord often made the ancestral home of the Crommelins her own. Her nephew knew nothing of her death till a friend in New York sent him a newspaper containing a two column account of it. This news was closely followed by letters telling of her strange will and intimating that the estate had not crumbled away by her use of the principal, as was reported at the time, but that instead of a paltry \$400,000 she still retained what represented some of the many millions that had come to her by inheritance and her two marriages.

some of the many millions that had come to her by inheritance and her two marriages.

Mr. Crommelin is a well known banker in Amsterdam, and his family is one of the most famous in Holland. He decided to visit America and find out the truth for himself. He arrived here on the Netherlands-American liner Spaarndam a week ago last Sunday. He brought letters to American branches of Amsterdam houses, and through them a law firm has been engaged to, investigate the circumstances of the preparing of the will and to bring the contest. Mr. Crommelin has been enjoying himself in New York in a social way and is now on a sightseeing tour in Washington. The papers will probably be served within a few days.

Mrs. Hick-Lord was born in Surinam. Dutch Gulana, in 1827. Her great-grandfather was Sir Francis Rumbout, an English gentleman, who two centuries ago got a concession 12 miles long and 9 miles wide on both sides of Fishkill creek, parts of which have since been owned by such New York families as the Kips, Van Courtlandts and Scheneks.

Acquired a Fortune In Dutch Guiana. Sir Francis married a Scheneck, and Aberr H., their son, married a Miss Wiltse. Their daughter Adeline was the mother of firs. Hieks-Lord. Her father was Unico eter Wilkins, whose sister was the ancesor of the contestant. Crommelin Wilkins, he father of Mrs. Hieks-Lord, was a rich butch planter, who nequired a fortune in Jutch Guiana. The family returned to datteawan, where the father died. As a young and pretty girl Annette Wilins was married to Henry Hieks, a New fork shipping merchant, many years older

ers, who had come to New York from East Haddam, Conn.

The welding took place at Matteawan on Dec. 31, 1877. The Lord family made a terrible row, for the old man was worth \$6,000,000. The strangely assorted couple were in hiding for a long time. Detectives searched for them in the south, and they were finally found living in her West Fourteenth street mansion. At night they did not venture to have lights.

On Jan. 3, 1878, Justice Van Brunt signed an order forbidding Lord to dispose of his property, and it was shown that he had given his wife \$2,000 a week for some time before their marriage. The suit was settled during that year by Mr. Lord giving his property into the hands of trustees and his wife relinquishing her dower rights. There she died on the night of Aug. 5 last of cerebral apoplexy and was buried in the Schenck plot at Fishkill. In her house was a great collection of paintings, jewels and priedess enamels. It was reported after her death that she had sold the house and was living in it at a rental of \$4,000, also that her property had dwindled from millions to hundreds of thousands.

Her will, which is now to be contested, was read on Sept. 23. The residuary estate was left to her nephew, Jefferson Fletcher, and to her cousin, Sarah E. Townsend. The bequests which excited comment were those made to the few trusted servants, who had been long in her employ and had stood by her through thick and thin.

To her colored maid, Maria Miller, who had been with her 35 years, she left \$25 a week for life. To Thomas Dyer, her cacalman, who had been in her employ 22 years, she left \$25 a week for life. The maid also got some of the most valuable furniture. The parlor maid, Marayaret vincent, got \$35 a week for life. ### WILL BLACKBURN SHOOT?

Some Think His Quarrel With Logan Carlisle May Have a Fatal Ending.

New York, Nov. 11.—The World's Washington correspondent says:

The enmity between Senator Blackburn of Kentucky and Logan Carlisle, chief clerk of the treasury department and son of the sceretary of the treasury, has at length reached the point where the friends of both men are seriously discussing the probability of an armed encounter the first time they meet. The haunts of both men are the same, and it is almost certain that within a few days they will be brought face to face. What the outcome will then be is what southerners and Washington people generally are trying to decide.

Senator Blackburn is a man of flery temper and speech and is easily moved to threats of death and destruction. So far, however, all the disasters predicted by him have been happily averted. Logan Carlisle is a quiet, phlegmatic young man, of slow, deliberate speech and even temper. His hatred of Blackburn, however, is of the steady, glowing order that with provocation may six him to violent action.

The feud between the Blackburns and Carlisles is a noid one, and their enmity in Kentucky has burned at a steady heat since Blackburn's entrance into public life. The campaign which has just closed funned this hatred into a blaze. There were incidents both in the Blue Grass state and in Washington which singled out Blackburn and Logan Carlisle as personal and political enemies.

Throughout his tour of the state Senator Blackburn constantly referred to Secretary Carlisle in an insulting and contemptuous manner.

At Owentown Senator Blackburn said

sares, ne said:
"We know that Morgan & Co. got a few
millions of the money, but who got the
balance? I don't say Carlisle got it, but
somebody did."

### Morrison Gets Ten Years.

Morrison Gets Ten Years,

Thoy, N. Y., Nov. 11.—The trial of George H. Morrison, the defaulting Rensschaer county treasurer, which was in progress here, came to an abrupt end when the prisoner pleaded guilty to two indictments, one charging felony in refusing to turn over \$259,000 to his successor and the other for misappropriating \$4,500 of the county funds. Counsel for the accused said that they were satisfied that the people could sustain the charge. Morrison was arraigned immediately and sentenced before Justice Parker, who sent the accused to Dannemora for ten years and five months. The sentence on the first indictment was for seven years, the remainder coming under the second. The prisoner took his sentence coolly, but was visibly affected when his counsel, Judge Lillie of Whitehall, made a very impressive plea.

"The Munchausen of Monkeyland."
LONDON, Nov. 11.—Truth has an article covering 1½ pages, headed "The Munchausen of Monkeyland." dealing with Professor Garner, who claims to have distinguished words in a monkey language, and his book, repeating the old charges made by Truth of imposture, and declaring that the whole story of Professor Garner's adventures among the gorillans is an impudent humbing. The article suggests that the French missionaries at Fernanyoz, to whom it alleges Professor Garner gave a promissory note for 300 francs for board and lodging, should sign a judgment in England on the unpaid bill and should attach the proceeds of his book. Truth concludes that this would set at rest forever the question of where Professor Garner early spent those 100 days and nights.

Suffocated by Gas.

PHILADELPHIA, Nov. 11.—Louis Doerfel, aged 67, and Bertha Miller, aged 4, were suffocated by gas at the former's home, 2747 Darien street. Magdalena Doerfel, the aged wife of the dead man, is lovering between life and death. They were foundlying on the floor of the kitchen of the house by a daughter of the old comple, when she returned from work, and it is not known how the catastrophe occurred. It is supposed, however, that while Mrs. Doerfel was ironing, her dress caught the stopeock of a gas stove in the room and turned on the deadly fluid. Doerfel had practically lost the use of smell, and his wife was suffering from a violent coli, so that neither could detect the presence of gas in the room and were unaware of it until they toppled over.

WARSHIP MINNEAPOLIS TO THE RES-CUE OF ARMENIANS.

Sam's Cruiser Helped a British Skipper In Rescuing Refugees From Turkish Assassins - Admiral Selfridge

New York, Nov. 11.—The steamship Boyne of the Mercantile Steamship company of London has arrived at this port from Gibraltar and Mediterranean ports. Captain Fischer told a remarkable story to Collector of the Port Kilbreth, Law Officer Phelps and Special Deputy Naval Officer Gourley of the customs department as to why he had entered port without a manifest.

Officer Goule's of the customs department as to why he had entered port without a manifest.

The British steamship Boyne lay at anchor off Sinyrna, Turkey in Asla, on Oct. 10. There had been several riots in Smyrna for three or four days before. The din of another conflict reached the cars of the Boyne's captain about 7 o'clock in the evening, and the cries of the victims of the assassina came over the waters. An hour afterward a small boat came up beside the British steamship, and an aged man begged permission to go aboard. With him were six others, three of them women, all Armenian refugees. Captain Fischer assented. He fed them, cared for them and gave them the protection of his flag. Fischer said he was bound for America, and in order to be on the safe side the refugees were registered as passengers.

Not long afterward a boatload of Turks, under an officer, rowed up alongside, and the forces came aboard. Captain Fischer admitted that he had the refugees on his vessel, but refused to deliver them over the Armenians. After the Turks had left his resident of the safe that he had the refugees on his vessel, but refused to deliver them over the Armenians. After the Turks had left his vessel Captain Fischer manned a boat and moved stealthily away from the ship to secure assistance. He visited an Ital's a man-of-war, but the commander decided his right or wish to interfere, as he was there to protect the subjects of King Humbert, he said.

Captain Fischer had at length to give up the search, and, returning to his vessel, made all preparations for a run for it.

When dawn came, however, out of the mists, away down the bay, the outlines of a white hull appeared. The great white stranger was the United States warship Minneapolis. The British flag was sent swinging out upside down, and the Minneapolis lookout saw the signal of distress. Captain Fischer put off in a small boat and was royally received. He told his story, and Admiral Thomas Q. Selfridge, Jr., commander of the European squadron, said:

"We'll give you all the assistance you want. You'll take those refugees safely out of this port if I've got to bombard the town," and the admiral ordered off the barge, with a detail of marines and blue-jackets, over to the British ship with orders to hold her safe from attack. Then the American consul was sent for, and it was agreed that the Boyne should sail at once under the escort of the Minneapolis. Soon bloody Smyrna was many miles behind, but the captain had forgotten his manifest.

### Carter on Tariff Legislation

Carter on Tariff Legislation.

WASHINGTON, Nov. 11.—Senator Carter of Montana says that he sees no prospect any important legislation at this session of congress. He did not believe the Ding by bill could pass and thought that the session would be devoted to the appropriation bills and sparring among the political parties for position. As to tariff legislation in the next congress, Senator Carter said that he did not believe the Demorats would obstruct, no matter what the silver Republicans might do. In his opinion those who were claiming and believed that the hard times could be cured by silver must allow Republican tariff legislation to be enacted, or they would meet the tariff fight in the next campaign.
