FREELAND, DECEMBER 10, 1896

Traveling the Country.

As an illustration of how little items travel the country, the definition of "mugwump," as given by Alderman Donohue, of Wilkesbarre, may be cited. The editor of the Wilkesbarre Times three weeks ago called a silver Republican named Jones a "mugwump." Jones took offense and had the editor arrested for slander. The case was heard before Alderman Donohue. He failed to find any slander in the remark made by the newspaper man and discharged him, at the same time defining "mugwump" as "a respectable Republican inclined to kick over the traces." The definition, with a brief account of the case, then began the rounds of the press. It traveled Pennsylvania over and over, went into the neighboring states, and on Sunday appeared in the News, Savannah, Georgia, and the Times, Kansas City, and is still going.

With the aid of the newspapers Alderman Donohue has won a national reputation—and still some people have no faith in the public press as an advertiser.

Pupils Must Be Vaccinated.

In an opinion handed down by Judge McPherson, of the supreme court, he sustains the Hummelstown school board, which excluded from the public schools of that town 155 pupils whose parents refused to comply with the order of the board as to vaccination. The court holds that while the vaccination law is in conflict with the compulsory attendance act, the vaccination law was passed last and takes precedence of the other. The decision is an important one to school boards, as it makes their duty very clear whenever opposition rises to their orders on the vaccination question.

The parents of Freeland pupils will be called upon between now and the first of the year to procure statements for all who attend the borough schools, certifying that the pupils have been vaccinated, or has previously had the small pox. Blank forms will be furnished the pupils by the teachers of the various schools.

Best Method of Winning a Fortune.

This is a good time to advertise. Now that the holidays are coming more attention should be directed to business. The best way to secure this attention is by newspaper advertising. There are other mediums that are valuable, but the experience of the most successful business people who have tried about every method is largely in favor of legitimate newspaper advertising. Like every undertaking, the more care that is exercised in selecting means to secure desired results the more success will follow. Localities and mediums, circulation and standing are important factors in newspapers. The Tribune claims the careful attention of local dealers and offers its columns to make their announcements. If you have something to sell that people need and will inform them in a convincing way of the fact we are sure you will reap substantial benefit. Try it if you have not done so.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Hall's Family Pills are the best.

The man who advertises one day and expects to find his trade doubled the next day, is a good deal like the boy who in the afternoon digs up the seed he planted in the morning to see why it didn't grow.

WORK OF THE COUNCIL.

BUSINESS TRANSACTED AT MONDAY EVENING'S SESSION.

Another Large Batch of Bills Ordered Paid and Reports of Borough Officers Received—Councilman Breslin's Resignation Again Laid Over.

The members of the borough council met in regular monthly session on Monday evening. The following bills were read and ordered paid: Morris Ferry, storage for cruse crusher, \$6; J. J. Ward, salary as health officer, \$30; Dr. J. H. Cloud, salary as secretary Board of Health, \$10; M. H. Hunsicker, coal for crusher, \$1.50; John W. Davis, coal for council room, \$8; Electric Light Company, street lights, \$241.66; Hazleton Machinery and Supply Company, cement, \$8.25; Hugh Boyle, janitor and feeding prisoners, \$15.50; Citizens' Hose Company, drying hose, \$10; Wm. Welsh, emptying cess-pools, \$85. Bills from the Freeland Mercantile Company, Limited, and John Molick were laid over for further consideration by the street committee, also freight bills from the L. V. R. R. The solicitor was instructed to collect the amounts for cleaning cess-pools, for which work was done at the expense of the borough.

The street committee reported having ordered stones from John Danaker for crossings, and one large stone for man-hole, but that a stone was sent which was not ordered. They were ordered to notify Mr. Danaker, Simon J. Bok, August Kellert, John Zestloff, Henry Stuntz, Joseph Backus and John Groger were exonerated from dog tax.

Health Officer Ward spoke about certain parties who were dumping clay and other refuse in the Public park, with the intention of making a road. The secretary was ordered to notify the parties to appear before council at its next meeting and explain their reason for so doing.

John M. Powell, on behalf of the Citizens' Hose Company, asked whose duty it was to dry and clean the hose after each fire. After discussing the matter for some time it was agreed that it was the duty of the borough janitor and he was instructed to attend to such matters hereafter, and when he requires assistance the bill will be paid by the council.

Street Commissioner Moore's report for November was: Street labor, \$121.61; man-hole, \$49; crushing stones and hauling on streets, \$86.60. He presented a bill for work done in crushing stones for Electric Light Company, for \$7.50, which the secretary was ordered to send to the company.

Burgess McLaughlin reported as follows: October receipts, \$6; expenses, \$6.70; due burgess, 70 cents. November receipts, \$21.50; expenses, \$13.35; due borough, \$8.15. A request to make a settlement with the treasurer before the next meeting was made of the burgess.

Police service bills, of the following amounts, were ordered paid: Patrick Welsh, \$11.35; Tony Hays, \$12.25; J. J. Boyle, \$14.50; J. J. Kennedy, \$6.45; J. M. Gallagher, \$3.69; Daniel Gallagher, \$1.20; total, \$28.34.

The street commissioner was ordered to put in crossing stones on Centre street and charge the cost to the Traction Company, as requested by them.

The resignation of Councilman Breslin was again read and on motion it was laid over.

Mr. Neuburger spoke about a number of obstructions that are being erected along the sidewalks. The matter was left to the street committee with instructions to report at the next meeting.

The question of grading Johnson street was discussed, and it was decided that the surveyor make the grade.

Ladies' Home Journal for 1897.

An even excellence makes the good things which the Ladies' Home Journal promises unusually interesting and strong. The list is long and sturdy. One series of papers alone would sell the magazine; that is, the three White House articles which ex-President Harrison is to write. No man has ever done what General Harrison will do in these articles—show us what "A Day With the President at His Desk" means in a third article in another tells of "The Social Life of the President," and in a third article describes "Upstairs Life in the White House." Each of the articles will be profusely illustrated. Another series equally fascinating is the one called "Great Personal Events," in which some of the greatest enthusiasms which have occurred in America will be revived—those wonderful times when Louis Kossuth rode up Broadway; when the young Prince of Wales was here; when Jenny Lind sang in Castle Garden; when Henry Ward Beecher electrified his congregation by selling slaves in his pulpit; when Henry Clay gave farewell to the senate; when John Wesley preached in Georgia, of which we few know. All these memorable events and others will be vividly recalled, told more graphically than ever before and illustrated with pictures which have occupied twelve artists for over a year.

A third series is unique and valuable from the fact that it will give women scores of ideas for their homes. It will reveal what there is "Inside of a Hundred American Homes," and carefully reproduce pictures of one hundred completely-furnished rooms in homes in this country—from Maine to California—where taste has gone farther than money. New department writers have also been exclusively engaged—Mrs. S. T. Rorer, who will hereafter have entire charge of the domestic department, and Dwight L. Moody, the famous evangelist, who is to put the result of his life study of the bible in "Mr. Moody's Bible Class."

Altogether, no magazine gives a list of attractions so interesting and promising as does the Ladies' Home Journal, and certainly no periodical does it. If it has become a fad, as it seems, for every girl and woman to take this magazine, it is an excellent one, and, unlike many other fads, a sensible one. The Journal is published by the Curtis Publishing Company, Philadelphia, for \$1 per year.
