**Children Cry for Pitcher's Castoria.**

## TALKED ABOUT STONES.

**COUNCILMEN UNABLE TO EXPLAIN WHY THEY CAME HERE.**

From All Accounts the Traction Company Delivered Stones Without Orders. Notice Given Them to Send No More to Freeland—Other Important Matters.

The borough council met in special session Tuesday evening, all the members being present, except Mr. Davis. The meeting was called for the purpose of acting upon the granting of the right of way through the borough to the Freeland Gas Company and the Anthracite Telephone Company, but the matter was withdrawn before the meeting opened and will be presented at the next regular meeting.

The committee to whom was referred the advisability of placing more are lights and extra water plugs in the northern part of the borough had not yet come together, but the chairman, Dr. Ritter, reported that the committee had settled on the 13th inst. to meet and go over the ground.

Mr. Zomany reported that the well on West Walnut street had been placed in a safe condition for the present, but that when the committee goes around again they should give it another examination.

Mr. Meehan, on the part of the street committee, reported that they met Mr. Hess, of the Lehigh Traction Company, in regard to furnishing stones for Centre street, but that they did not fully authorize Mr. Hess to send the stone here. The price was fixed at \$1 per ton, but that no contract was ever entered into by them. He gave a description as to how the stone was to be weighed, by putting it in a box and estimating 90 pounds to the cubic foot. The substance of the report went to show that the street committee did not order the stone.

Mr. Ritter took the floor and denounced the manner in which the business of the council was done, and offered the following motion: "That the secretary notify the Lehigh Traction Company to discontinue sending stone to the borough until ordered by council." The motion was seconded by Mr. Mulhearn and agreed to.

The borough solicitor was authorized to make a settlement with the parties arrested for cutting trees in the park, upon payment of the regular fine and costs.

S. B. VanHorn and Joseph Neuburger asked that the public sewer be extended west on Chestnut street from Washington. The matter was referred to the street committee, as was also the grade of North Washington street and the grade of Adams street from South to Luzerne.

The council agreed to meet this evening and view the borough, so as to be able to report on the various subjects referred to committees.

## The New Men Were All Right.

From the Mauch Chunk News.  
On Saturday the new men on the base ball team appeared in active service. They are Pitcher Howard Luckey, who made a splendid record last year with the Wilkesbarre Eastern league team, and "Bid" Gillespie and Matt Broderick, formerly of the Freeland Tigers, and John Cleary, last season with Moose, Luckey was at no time called upon to extend himself to any great extent, but he gave sufficient evidence to our people that the association was lucky in securing his services. Broderick and Cleary did not have much to do in the field, but at the bat and on the bases both showed up very strong. Gillespie's work in centre field was splendid, and his batting and base running was a feature. He's all right.

## When John Wesley Was in America.

Few people know that John Wesley was ever in America. Few know that it was he, and not Robert Raikes, who established the first Sunday school in the world. It was John Wesley who preached the first Methodist sermon in the United States. In the *Ladies Home Journal* for June Rev. W. J. Scott will tell in the "Great Personal Events" series the story of "When John Wesley Preached in Georgia," which is said to be one of the most interesting narratives in this most successful series.

## Living Art.

Eight finely formed and classically costumed ladies, appearing on a great revolving pedestal, in most charming and refined living reproductions of famous works of ancient and modern sculptors and painters, are among the novel and attractive features of the consolidated Forepaugh and Sells Brothers' shows. At Wilkesbarre, Monday, May 31.

## Reduced Rates to Philadelphia.

Via the Lehigh Valley Railroad, account unloading of the Washington monument at Fairmount Park, May 15. Tickets on sale at all Lehigh Valley offices May 14 and 15, at rate of fare one way for the round trip. Tickets good for return to and including May 17.

Just received some handsome spring suits and trousers. Sippel, tailor.  
J. Bellezza's stock of spring shoes is now ready for your inspection.

That mince meat at A. Oswald's makes delicious pies.  
\$1.50 a year is all the *TRIBUNE* costs.

## Breaker Burned at Jeansville.

No. 4 breaker at Jeansville, owned by the Lehigh Valley Coal Company, was totally destroyed by fire early Tuesday morning. The fire broke out near the top of the structure and before the watchman, who discovered the blaze, could summon assistance the flames had spread so rapidly that it was impossible to save it. The employees responded promptly and directed their attention towards preventing the flames from going down the slope and setting the mine on fire. The slope timbers ignited several times, but the fire was finally confined to the surface.

The boiler house was also damaged to some extent, but the boilers did not suffer any injury.

The origin of the fire is a mystery. The greatest precaution had been taken to prevent fire, and although the breaker was lighted by electricity the company would permit no one to enter after operations ceased without a closed lantern.

The breaker was erected in 1871, but was thoroughly equipped with modern machinery for the prompt handling of coal and preparing it speedily for market. It had an output of 800 tons per day and furnished employment to 500 men and boys.

The loss is estimated at about \$75,000, which is fully covered by insurance.

## Primitive Methodist Assignments.

At Tuesday's session of the Primitive Methodist State Conference the stationing committee reported assigning the various ministers to the following charges in this, the Schuylkill district: Tamaqua, Rev. W. F. Nicholls; St. Clair, Rev. W. H. Acornly; Mahanoy City, Rev. C. H. Higginson; Girardville, Rev. S. T. Nicholls; Mount Carmel, Rev. D. Savage; Shenandoah, Rev. Jas. Moore; Williamstown, Rev. Thomas Cook; Shamokin, Rev. W. Bently; Seok, Rev. Thos. Bell; Hazleton, Rev. George Lees; Freeland, Rev. S. Cooper; Gilberton, under care of Girardville; Mahanoy City, Shenandoah, Wade, Rev. H. V. Sharper.

The conference of this district will be held at Mahanoy City on July 12.

By returning Rev. Cooper to Freeland the state conference has pleased the large circle of friends which Mr. Cooper has made during his residence here.

## C. T. A. U. Convention.

Extensive preparations are being made for the holding of the annual convention of the Catholic Total Abstinence Union of the Scranton diocese, in Nanticoke, Wednesday and Thursday of next week. Many delegates will be present, and considerable business will be transacted. In order to entertain the delegates in a proper manner, St. Francis' T. A. B. Society, of Nanticoke, has decided to hold its twenty-third annual ball in the Broadway opera house, on Wednesday evening, May 19. The Young Men's Corps, of town, will be represented at this convention by Michael J. McGill, William Doggett and John McCole, Jr. John J. McMenamin, ex-delegate to last year's national convention, will also attend.

## A Haunted House in Plymouth.

The people of Plymouth are much exercised over the peculiar experiences of Mrs. Mary Titus, of Vine street, and her married daughter, Mrs. Cora Shaw, who lives with her. Both the women say their house is haunted and they cannot live there. Mrs. Titus' husband was killed in the mines at a spot almost directly under the house three years ago by a cave-in. A week ago that portion of the mine was opened for the first time since the cave-in and Mrs. Titus now says she believes her husband, instead of being killed by the fall of roof, was shut in and starved to death after rapping on the wall to attract attention.

## Capital Stock Increased.

At a special meeting of the stockholders of the Freeland Electric Light, Heat and Power Company on Monday evening the proposition to increase the capital stock of the corporation was carried. This gives the directors authority to issue \$15,000 worth of additional stock, making the total authorized capital stock \$30,000. Only a part of the additional stock will be issued at present, the balance being held in the treasury to provide for improvements and extensions which the company intends making in the near future.

## Agitating a New Asylum.

Senator Scott has introduced a bill in the legislature to provide for the selection of a site and the erection of a state hospital for the insane for the counties of Luzerne, Lackawanna, Bradford, Carbon, Monroe, Pike, Sullivan, Tioga, Wayne and Wyoming, to be called the State Hospital for the Insane for the northeastern part of Pennsylvania. To make necessary preparations for the erection and to purchase the site an appropriation of \$50,000 is provided for.

## Patents Granted.

Reported by C. A. Snow & Co., Washington, D. C.  
J. F. Harris, Jr., Eagleville, ear-coupling.  
J. H. Phillips, Pottsville, water-heating fire-grate.  
The Wear Well's russet shoes led everything in town last season, and will do it again this year.

## IRON ORE FROM SAND.

Edison Extends It by Means of Powerful Magnets.

It is stated that by May 1 Edison's mill at Edison, N. J., will be shipping daily 1,200 tons of the finest Bessemer ore ever mined. It is now able to prove to the iron men who have been calling him visionary, for the last few years, that his theories regarding the extraction of iron ore from sand by the means of magnets is practical. He has spent nearly \$3,000,000 in perfecting his plant, most of the machinery being of his own invention. A ton of dynamite a day is used for breaking rock from the mountain sides. An electric crane, 200 feet long, runs on an overhead trolley wire, loads tons of rock into buckets, two of which are a car load, lifts them to the surface, and places them upon a flat car. They are hauled a quarter of a mile to a crushing plant. Its roar, as it seizes the masses of rock, can be heard a mile. When the rock is reduced to 30 feet high. From this point to the ground are 400 magnets. The falling ore and sand pass about two inches from the face of the magnets. The particles of ore are drawn to the magnets, and the shower of sand falls to the bottom of the mill. A V-shaped board is below each magnet. The ore clings, become heavy, and drops of its own weight. The board below deflects the ore from the sand. The bricking of the ore has been accomplished by means of a composition of Edison's manufacture. The air in the mill is so filled with dust that an electric light can only be seen a few feet away. The men work in masks, with a muffle over mouth and nose, saturated with water and glycerin. The mill is expected to net \$100,000 per month. Edison says: "We quarry, crush, grind and brike ore from 25 pounds of rock for one cent."—Chicago Inter Ocean.

## VERMIFORM APPENDIX.

Some Important Facts Which Have Been Discovered Lately.

The vermiform appendix is known to science as a vestigial organ. It was once larger and played an important part in the digestive operations of the human system, but, like the tonsils and wisdom teeth, has fallen into disuse; hence is imperfectly nourished and especially liable to disease. The false notion that appendicitis is caused by a grape-seed or some foreign substance finding an entrance to this little organ, whose interior is only large enough to admit a small drawing needle, has no foundation in fact. It is atrophied by disuse, and unable to throw off disease as do the stomach, lungs, heart and other organs. It is composed of lymphoid tissue, which is lowest in scale of material in the body. The true cause of the disease is inflammation and consequent gangrene in the tissue. Recently surgeons have found that the removal of the organ is the simplest of operations, but it should be done within a few hours after the first symptoms appear. They are: 1. A sudden attack, coming on when a patient is, apparently, in perfect health, and without warning. 2. A sharp pain in the center of the abdomen. 3. A sore spot, painful to the touch, located exactly where the incision must be made. The appendix is generally, but not always, found on the right of the abdominal center. The disease seldom attacks people except between the ages of 10 and 30 years. The proportion is 80 per cent. males and 20 per cent. females. It has recently been discovered that in the latter an extra vessel supplies blood to the appendix, which in males is only nourished from minute veins in the web that holds it in place.

## Glass for Monuments.

The idea has been put forth by English glass workers from time to time that ordinary plate glass material is better adapted for an enduring monumental structure than the hardest marble or granite known to the stone masons, glass being, in fact, practically indestructible; wind, rain, heat and cold have their well-known effect upon even the hardest rock, solid granite eventually crumbling away, nor is the obliteration uncommon of an inscription on a stone gravestone only fifty years old. On the other hand, a glass structure for such purpose will present as fresh an appearance a couple of centuries after its manufacture, it is asserted, as on the day it was erected, and the inscription can be made ineffaceable. Thick plate glass for marine exposure is found to resist the stormiest sea and is practically unbreakable.

## Motor Run by Moonlight.

An account is given in Nature of a motor, intended for delicate experiments in heat measurement, invented by Mr. A. R. Bennett. It is so sensitive that it begins to revolve the moment it is exposed to daylight, even when the sun is hidden; and in clear weather it will work all night, being affected even by the radiant heat of moonlight. The motive power is due to convection currents set up inside the glass shade with which the instrument is covered. While the glass is not warmed by the radiant heat of daylight or moonlight passing through it, the metal surfaces of the motor are, and the minute differences of temperature thus produced suffice to start convection currents.

## Pitcher's Castoria.

Children Cry for

## Memorial Day Exercises.

Maj. C. B. Cox Post has perfected nearly all the necessary arrangements for the celebration of Memorial Day. The customary parade will take place in the afternoon, and from the reports received by the adjutant of the post there will be a sufficient number in line to make a creditable display. After the parade the exercises at Freeland cemetery will be held. Chas. Orion Stroh, Esq., will be chairman, and John M. Carr, Esq., will deliver the oration. The entire programme will be given in later issues.

In the morning delegations from the post will visit St. Ann's, Eckley and Upper Lehigh cemeteries and decorate the graves of the soldiers buried there. At Eckley the local societies and Sunday schools will parade in honor of the day.

## Trolley Cars Get Together.

There was a collision of trolley cars at Suburban Park, near Wilkesbarre, on Tuesday morning. Motorman McDonough, by a miracle saved his life, but pained in the vestibule was crushed and bleeding. The injured are: Annie Randall, Plains, injured by being thrown against stove; Nellie Garrahan, side injured; James Gartley, Plains, cut about face and bruised; Motorman McDonough, Wilkesbarre, seriously hurt, taken to hospital; Conductor McCarthy, face cut; Miss Love, Plains, cut and bruised; Patrick Burke, Plains, slight bruise. Several passengers were slightly injured from flying glass.

Not much blame can be attached to any one for the accident. There was a heavy fog and objects could not be discerned at a distance of over fifty feet.

## Important Decisions for Constables.

Judge Scott, of Easton, has handed down an opinion regarding constable fees that will be of interest to these officials throughout the state. The county commissioners refused to pay constables for making regular returns to the court of quarter sessions and for attending the polls on election day. They also contended that the constables were not entitled to 10 cents each way for mileage, but that the mileage was for the round trip, 5 cents each way. Judge Scott decided that the constables were not entitled to pay for making returns or for attending the polls, but were entitled to 10 cents mileage for each mile traveled.

## Prohibition Church Formally Organized.

A People's Christian Prohibition Church was on Sunday organized in Scranton, chiefly through the instrumentality of Rev. J. C. Hogan, the Forest City temperance enthusiast. Mr. Hogan is the ex-minister whose ministerial certificates were demanded by the Wyoming Methodist conference, at its recent session at Oneonta, N. Y., on account of his radical temperance views. Four hundred dollars have been subscribed for the new church. Its pastor will be Rev. Levi Bird, of Freeland, late of Auburn, N. Y.

## Freeland and Foster Valuations.

The adjusted valuation of Freeland borough for 1897 has been completed by the county commissioners. The total amounts to \$264,439, divided as follows: Real estate, \$40,493; properties, \$144,561; horses, \$3,825; cows, \$99; trades and occupations, \$75,555. There are 135 dogs assessed.

## Foster township's total valuation is \$402,963, as follows:

Real estate, \$187,308; properties, \$134,639; horses, \$7,900; cows, \$769; trades and occupations, \$72,336.

## Knights of Malta Convention.

The annual convocation of the state commandery of the Knights of Malta, which was held here two years ago, was opened in Sunbury this week. Four hundred past commanders are there. The sessions will last three days. The reports of Grand Commander Williams, of Pittsburg; Grand Recorder Pierce, of Philadelphia, and Grand Treasurer Basler, of Sunbury, show the order to be in excellent condition. The growth in the past year was over 26 per cent.

## Rockafellow Adjudged Guilty.

The sealed verdict of the jury in the case of ex-Banker F. V. Rockafellow, who was charged with embezzlement, was opened in court on Monday morning. The jury found the defendant guilty with a recommendation to mercy. The jury had been out for forty-two hours. Rockafellow and his friends were greatly disappointed over the verdict, as they had expected either an acquittal or a disagreement.

## Good Plays at the Opera House.

The Macauley-Patton Company has been giving fair performances at the Grand opera house this week. On Monday evening "La Belle Marie" was produced. "A Struggle for Gold" on Tuesday evening and "A Minister's Son" on Wednesday evening. The admission is only 10 cents to all parts of the house, the cheapest price at which a company of its prominence has ever played here.

## List of Jurors.

June 21.—Gilbert Smith, Foster; S. Charles, A. McNeil, Hazle; Edwin Jacobs, R. Whitebread, Butler.  
June 28.—R. P. Kealy, Freeland; John Beach, Jas. Helferty, Al. Jacobs, Hazle.

## BRIEF ITEMS OF NEWS.

PARAGRAPHS GATHERED FROM ALL PARTS OF THE REGION.

Synopsis of Local and Miscellaneous Occurrences That Can Be Read Quickly. What the Folks of This and Other Towns are Doing.

Ed. F. Hanlon has accepted the agency of a Milwaukee life insurance company.

The average number of passengers carried daily, Sundays excepted, by the Lehigh Traction Company is 4,500.

Daniel Shovlin is making preparations to return to Montana. He has spent several years in that part of the country.

A handsome iron fence will soon enclose the grounds surrounding St. Luke's Lutheran church, at Main and Washington streets.

Tickets for the masquerade ball of the Tip Top Club, at Yannes' opera house on the 24th inst., are meeting with a ready sale. The price is only 25 cents.

All the base ball clubs and athletic associations of the region will be largely represented at the Fearnots' ball at Yannes' opera house on the evening of May 28.

The borough of East Mauch Chunk will shortly begin a sewerage system. Surveyor Mackel is estimating the cost of 4,000 feet of terra cotta pipe and connections.

The third anniversary of the local branch of the Luther League will be celebrated on Tuesday evening at St. Luke's church. A well arranged programme has been prepared.

If you want a good mince pie buy your mince meat at A. Oswald's.

Editor Fowler has evidently withdrawn his application for a government position at Washington, as Tuesday's *Progress* announces that he could not afford to accept the salary offered.

It is stated that hereafter no workmen will be employed at the collieries of the Delaware, Lackawanna and Western Company but those who can read and write and speak the English language.

The managers of the anthracite coal trust state that the amount to be mined in May will be 2,500,000 tons, the figures originally agreed upon. They promise, however, that they will allow more coal to be mined in June.

On Monday the state council of Red Men will meet in annual session at Mauch Chunk. It is estimated that over 600 delegates will be in attendance. Mauch Chunkers are making extensive preparations to receive them.

John Fetherman and Roger Shafer, of Bossardsville, were fined by Justice Gruver \$100 each and costs, for fishing trout illegally in Cherry Creek, Northampton county. The men were arrested for fishing with a trail net.

J. T. Berryman, president of the P. O. S. of A. of the Hazleton district, and prominently connected with the organization for years, has announced himself as a candidate for master of forms at the state convention to be held in Reading next August.

St. John's Reformed church, Eckley, will be dedicated Sunday, May 23, with appropriate services. Rev. Massonheimer, of Weatherly; Rev. Stoffat, of Hazleton, and Rev. Benner, of Freeland, will officiate. The Reformed church's of Weatherly and Freeland will also take part.

Work has been commenced tearing down the buildings occupying the ground on which Wilkesbarre's new hotel will be built. The places being torn down are Music Hall and the Welles building. The hotel, which will be finished by May 1, 1898, is to be one of the finest in the state outside of Philadelphia.

At St. Ann's church yesterday afternoon John McElwee and Miss Hannah O'Donnell, both of Drifton, were united in marriage by Rev. M. J. Falliehe. The bridesmaid was Miss Annie O'Donnell, a sister of the bride, and the best man was Owen McElwee, of Harleigh, the groom's cousin. They will reside at Bivvanton, Freeland.

Three Hungarians were hurt at Dick & Mante's stripping, Upper Lehigh, on Tuesday, by part of the bank caving in on them. They were preparing a blast when the earth slipped down and caught the workmen, covering one man completely. He was badly crushed, and the other two were cut and bruised. All the injured lived at Upper Lehigh.

## DEATHS.

Brillin.—At Freeland, May 9, Mary, wife of James Brillin, aged 38 years. Interred on Tuesday at Freeland cemetery.

Smith.—At Freeland, May 9, Mrs. Thomas Smith, aged 75 years. Interred yesterday at Freeland cemetery.

## BASE BALL DOTS.

The schedule for May 16 is as follows: Stars at Drifton, Hazleton at Lattimer, Anthracite league clubs stand as follows: Freeland.....1,000; Drifton.....1,000; Hazleton.....1,000; Lattimer.....1,000.
