NAUGHTINESS AT DINNERS. It Is Becoming More Common in New ³ York's Swell Set.

It is Becoming More Common in New "York's Swell Set." In view of the disclosures which have been made regarding the indecent actions at the Seeley dinner in New York recently, it is not without inter-est to note that the practice of having as entertainers at swell society dim-ners members of the theatrical profes-sion, if possible the naughtiest mem-bers thereof, is decidedly on the in-crease in the gay metropolis. Yaude-ville performers, "sketch" teams and stars of the concert halls are no longer fads at fashionable dinners. They are fixtures—Just as much a part of the menu as the oysters or the coffee. Dur-ing the holiday week fifty hostesses obtained the dramatic item of their dinners from one firm alone, "and it was not such a remarkably good week, either," said the seaior member of the firm.

This custom of entertaining guests at dinner with professional talent has been growing in America for the past fifteen years, and last winter found it in the fullness of its popularity. And these entertainers come high. An art ist who has made any kind of a hi with a concert hall audience demands anywhere from \$50 to \$1,500 for an hour's work. Bays one dramatic agent "Sooner or later most of the senson's domestic and imported naughtiness gets into the homes of the rich and the fashionable. Generally the real wick-do are as are booked to do their turns before a small, selected company of guests-just the intimute friends of the host or hostess, who can be trusted to keep what they have seen to them-selves. custom of entertaining guests

Seep what they have seen to them-selves. "Ourlous thing about it, too," the agent went on; "our best business is done during Lent. You wouldn't think it, would you? But it's so, and has been for the last two or three years. While society is doing penance and goes about in sackcloth and ashes be-fore men, it is being entertained in its drawing rooms and dining rooms by artists whose work in the winter has made them famous or infamous, which ever way you want to look at it. "I am inclined to believe that the ten-dency for what the world calls 'ques-tionable performances' is growing. That is as far as the private entertain-ments are concerned. The young folk -the buds-who a few years ago were satisfied with the parlor elocutionits type crave something a bit stronger now, especially in Lent. We gave them the best-or the worst-we had last year, and I don't suppose they will be content with any Sunday school benefit this year."

this year." Health Soon succeed weak-ness and languor when Strength Hood's Sarsaparilla is and vitalize the blod. Hood's Sarsapar-rilla expels the germs, of scrofula, sait theum and other poisons which cause so much suffering and sconer or later under-mine the general health. WEIGHTY WORDS

Ayer's Sarsaparilla.

The Old Greek Costame. Men often wore the himation alone, without chiton. The chlamys, another rectangular garment, shorter than the himation, weighted at the corners, and fastened by a brooch so that one corner hung down in front, was worn by men, with or without the chiton. It is espe-cially weil shown in the horsemen on the frieze of the Parthenon. Occasionally Diana, or an Amazon, wears the chiamys, but it is the dis-tinctive garment of the young Greek. Bands, belts and fillets were much worn. Meen and women wound fillets around their heads. Women wore, of-ten under their chiton, a breast band adjusted below the bosom, not to com-press the form, but to protect the or-gans. Indeed, there was no tempta-tion to compress the waist, the flowing drapery reling the waist of choth, but the outer belt, holding in the loss folds of the upper part of the long chi-ton, was often of gold enriched with jewels, and always beautifully adorn-red.

ton, was often of gold enriched with jewels, and always beautifully adorn-ed. Great care was taken of the hair; in-deed, a mysterious virtue was suppos-ed to lie in the locks, which, carefully washed and perfuned, were one of the bodily graces of the Greek. Women often wore elaborate head-dresses; many were revived in the latter part of the Eighteenth century and the first of the Nineteenth. Out of doors the head was covered either by folds of the poplos brought over the head and around the throat, or by a separate vell, sometimes thick, sometimes thin, -Arthur's Home Magazine.

vell, sometimes thick, sometimes thin, -Athur's Home Magazine.
Unnecessary Noise.
This is a noisy world. All nature's operations are accompanied by more or less noise, so that even in "the quiet country" uninterrupted silence seldom reigns. In the city the din is almost insupportable; it has increased very much during the last heif century be-cause of the vast amount of machinery employed, and the use of electric and steam power. Now might brings the city no respite, and how much of the nervousness and insomia of the pres-ent decade is due to this increase of noise might be an interesting subject for the study of sanitarians. Human-ity adjusts itself usually to all neces-castroned to certain sounds that many cannot sleep when the noise ceases. A few nights of sleeplessness a short time ago led me to think the slamming of doors with creaking bioges, ther at-ting of blinds, creaking bioses, with noisy, heavy walking, were the most distracting and annoying noises. Next to this is loud conversation and whis-pering. The inventor of a noiseless bioe, and elastic door casings, which will enable people to shut or slam doors hard yet without noise, will con-fer a great boon upon nervous human-ity. In the inventor of a noiseless bioe, and elastic door casings, which will enable people to shut or slam doors and yets without noise, will con-fer a great boon upon servous human-ity. In the meantime, all persons, es-pecially at night, should wear felt or cork-soled or other soft slippers. All doors and locks should be kept well oidvate the art of slutting doors as noise-lessily as possible.
The memory one should try to cul-vivate the art of slutting doors as noise-lessily as possible.

The capitol's Weather Map. The Capitol's Weather Map. The immensity of the rotunda im-presses the visitor at the Capitol, the frescoes are attractive, the turbulence of the House and the quiet dignizy of the Sonate are interesting in their con-trast, but, after all, the feature of uni-versal interest in the white-domed building is the weather apparatus. If is something novel to glance at a mag which tells you whether it is raining or snowing, sunshiny or cloudy in Mon-tana, Illinois or Louisiana, or any-where else in this broad had. You can tell whether the friends whom you left at home are wearing mackintoshes or airing their spring clothes under blue skies, while even the temperature and the direction of the wind are recorded. But the map is not the only feature. There is something mysterious in the cabilitie characters which are traced on revolving cylinders, and which tell at a glance how hot or cold it is, or how hard the wind is blowing, or whether the sun is shining. The instruments which furnish the information are up on the roof of the Capitol, but delicate in-struments within the building. All day long a crowd of kincrested visitors at the Capitol throng around the pretty mechanism and never cease to wonder at the progress of the age.

Gossip. Connectiout has fifty-four women who are daughters of soldiers who fought in the Revolutionary War. Mrs. J. H. Mills is President of the State Bank of Croswell, Mich., one of the directors of which also is a woman. Lowell, Me., has a postmistress, a woman physician, a woman stage driver and a woman justice of the peace.

A Remarkable Duchess

A Remarkable Duchess. Speaking of some of the women octogenarians of England a writer in London Answers pronounces as prob-ably the most remarkable member of the aristocracy the aged Duchess of Cleveland, famous by her own indi-viduality, and still more famous in the person of her celebrated son, Lord Rosebery. Though the Duchess is well over eighty years of age, she is more juvenile in some things than many women of fifty. Her Grace al-ways dresses in white whenever it is at all possible, and she has a perfect passion for traveling. Half her life is spent on the continent or at the at all poss spent on the continent or at the

the erection of a building for young women. Mrs. Jane M. Kinney, of Port Huron, has been appointed by Gov-ernor Pingree a member of the board of directors of the Michigan State In-sane Asylum. Garibaldi's widow, who is still living at Caprera, where the patriot was buried in 1882, has been granted a pension by the Italian Government. It amounts to the sum of \$60 a year. The German Government has com-missioned Mrs. Guild, an American, to execute two statues representing the post and the telegraph to be placed on the new general postoffice in Berlin. Mrs. Raymond, the mother of the President of Vassar College, has given the Foreign Missionary Society of the Epiphany Baptist Church, New York, \$11,000 for the education of heathen women. ape cape. "Old Hickory's" Granddaughter Resigns. There is an old saying that few Government employes die and none re-sign. Secretary Gage is able to dis-prove this assertion by a transaction which occurred in his office Friday. A granddaughter of "Old Hickory" Jackson, Mrs. Wilcox, who is a \$600 clerk in the Sixth Anditor's office, called upon the Secretary of the Treas-ury and told him she had enough of Government service and promosed to

and a lock of her hair was solicited and the secretary of the Freas-ury and told him she had enough of Government service and proposed to resign, to take effect August I. Inci-dentally she informed Secretary Grage that she was born in the White House, and a lock of her hair is now in the corner stone of the Treasury Depart-ment building. She was a little girl at the time the corner-stone was laid, and a lock of her hair was solicited and cheerfully given for this purpose. Mrs. Wilcox is now beyond the four score-mile post in age, and retires from Government service, where she has served uninterruptedly since 1882. —Washington dispatch to the Chicago Tribune. The Countess von Linden has been women. The Countess von Linden has been selected by the University of Halle as substitute for Mr. Brandis, professor of zoology, during his leave of absence. The Countess has already acted as as-sistant to the professor. Beginning October 1, 1897, girls who have passed their eighteenth birthday are to be admitted to the "philo-sophical" courses of lectures at Aus-trian universities. The medical facul-ty, too, will probably soon be open to them.

has served uninterruptedly since 1882. —Washington dispatch to the Chicago Tribune. Charming Queen Regent. The Queen Regent of Spain is one of the most charming of women. She has a sweet voice, a pleasant smile, and a gracious manuner. Her lfe is passed in almost as complete retire-ment as that of our own Queen. She never dines out, and rarely goes to the theatre or the opera. Yet her time is fully occupied, she holds a council once a week, sees her Ministers, gives various andiences to various officials and others every day, and superin-tends her children's studies with the greatest care, says The Lady. —She herself is most accomplished, speaks four languages, besides her own, quite perfectly, and is 'passion-stely fond of music. In addition, she is a fine rider, and has a splendid seat on horsehack. In her stables are to be found english, Spanish, Irish and Arab horses, to all of which she is de-voted, her own personal favorites fol-lowing her as soon as they hear her voice, and eating sugar prettily from her hands. Both the Princesses, her daughters, and the little King ride and drive constantly, while the Infanta Isabel, her sister-in-law, may he seen tooling her four-in-hand of mules in the private park with great dexterity, or following the hounds in the country.
