Miss Ella Conrad, of Philadelphia, died at Reynolds, a summer resort five miles south of Tamaqua, from rheumatism of the heart. During the early part of the season she rode a bicycle to excess and went to Reynolds to recuperate. She rallied for a time, but the strain was too much and she died.

Foster School Board Meeting.

Foster township directors met on Saturday evening. The salaries of the teachers were fixed as follows: Grammar school teachers who taught heretofore, \$65 per month; grammar school new teachers, \$60; teachers of mixed schools, \$45; female teachers who taught heretofore, \$40; new teachers, \$35 for the first three months.

Superintendent Gabrio read bills from S. Woodring of supplies for the past year, in order to show that the board had not paid too much for the same, as published in a Hazleton newspaper. He recommended that the board subscribe for the Pennsylvania School Journal, five copies of which were ordered to be sent, one to each director. He stated also that a law had been passed requiring the presence of the tax collector at each regular meeting of the board to render an account. The secretary was instructed to request the collector to comply with it.

W. F. Porter, representing the E. H. Sauborn Publishing Company, of New York, was given 15 minutes to explain the merits of two books he desired having used in the schools. One was a primer which was gotten up for the purpose of instilling simple words into the minds of pupils so as to leave a lasting impression of them. The other was a grammar for the more advanced pupils, which led gradually up to the books now in use. John J. McGill and Superintendent Gabrio testified to the merits of the books, which sold at 10 cents for the primer and 30 cents for the grammar. The purchasing power was left in the hands of the committee.

J. W. Crock and P. F. Fallon, furniture agents, were also present. The supply committee was given power to buy furniture, if needed.

Superintendent Gabrio read his annual report to the state superintendent of public instruction, in which he recommended the establishing of school libraries.

August 30 was agreed upon as the date of opening the schools.

Sixth District Democrats Split.

The Harrity and anti-Harrity men had a bitter contest at White Haven on Saturday at the sixth district Democratic convention, and as a result two sets of state delegates were elected. Dr. S. W. Trimmer, of White Haven, and Hon. P. P. Caffrey, of Sugar Notch, are supporters of Harrity. They had themselves chosen chairman and secretary respectively, and then threw a bomb into the anti-Harrity camp by declaring that no voting by proxy would be allowed. As nearly all the anti-Harrity men were proxies they objected vigorously but in vain.

When their appeal was overruled they withdrew to another room, organized a convention of their own and elected as delegates J. K. P. Fenner, of Ashley; Charles Smith, of Black Creek, and John Hicks, of Nescopeck.

Meanwhile the Harrity men had elected Dr. Trimmer and Mr. Caffrey delegates.

Strikers in a Scrimmage.

A lively scrap occurred at Honey Brook Saturday morning as the result of a strike of the mule drivers at the Audenried mines. In the course of it Mine Superintendent Gomer Jones was assaulted. The drivers asked for pay for all hours they worked. This Jones refused to grant. A number of discontented Hungarians joined them. Superintendent Jones, who found other hands to take the place of the strikers, attempted to take his mules from the stable to the mines so as to continue the work. The strikers attacked him and his friends with clubs and stones. Jones was knocked down. Levi Walsh, a carpenter, who came to his rescue, was struck on the head with a large stone and severely injured.

Word was sent to Hazleton for the coal and iron police, whose arrival averted further trouble.

Brakeman Becomes Insane.

Ezra Bollinger, of Walnut street, a D. S. & S. brakeman, became insane at Perth Amboy on Thursday morning. He was shipped home on the first train which left for Drifton and given in charge of Mauch Chunk officials. He escaped from the latter and jumped the next D. S. & S. train which came along. As he was threatening to do desperate deeds when he reached Freeport he was given over to the officers at Weatherly and returned to Mauch Chunk, where he has relatives. Bollinger's mind was unbalanced a few years ago. His present trouble is supposed to have been caused by domestic difficulties.

He is at present at Mauch Chunk, under the care of his wife and parents.

HOGS HUNT HUNTER.

Drove of Porkers Free a Florida Man and Kill His Dogs.

While hog hunting at Manatee, Fla., the other day Matt Johnson was attacked by big hogs and nearly killed. He was suddenly surrounded by a score of big porkers. Johnson was on horseback and had four dogs with him. The hogs charged on the dogs, and in a jiffy they were killed, the huge boars ripping them to pieces with their tusks. Then they charged on Johnson's horse, jumping at its legs and jumping up, trying to reach Johnson. The horse started to run, but stumbled over a gopher hole, and Johnson was thrown into the limbs of an oak tree near by. The horse recovered and dashed off. The hogs

THE PORCINE CHARGE.

surrounded Johnson in his tree, compelling him to climb up further.

He waved his coat at them to scare them. As he did so a flask of liquor which he had in his pocket slipped out and fell to the ground. One of the big porkers gulped for it, and, as it broke, he greedily dashed down its contents. The fiery liquor took upon the porcine toper, and in a few seconds he acted as if drunk. He went round with a chip on his shoulder, so to speak, attacking every hog in the lot. The others pitched upon him, and there was a free-for-all fight. For half an hour this bloody scene lasted, when ten of the largest and fiercest boars were killed. Some of Johnson's neighbors who had seen the horse then came to his rescue, and as they approached the remaining hogs ran off.

Mishap at a Wedding.

During a wedding at a private house in Salisbury, Md., a few evenings ago, the bridegroom's coat caught fire and had to be torn off. But the ceremony went on all the same, nor did the mishap mar the festive occasion.

WHEELS AND WHEELING.

The bill requiring Canadian railroads to carry bicycles free, as personal baggage, has failed to become a law, but will be introduced again next session.

Padewski, the famous pianist, and Joseph Jefferson, the great actor, are the latest converts to the wheel. The latter rides a woman's wheel, which is easy to mount and dismount, and is much safer in case of an accident.

It is suggested with reason that chain makers should get together and establish a standard gauge. Sometimes it is a matter of considerable trouble for a rider to replace a damaged chain, because the style has changed since he bought his wheel.

Two Haymakers Hurt.

On Saturday morning, while Mr. and Mrs. Lewis Stucker were haying on their farm near Shickleshiny, the horses became frightened and ran away. The wagon upset and Mrs. Stucker, who was on it, fell off. In falling she landed between the horses, one of which kicked her, breaking one of her legs in two places and inflicting severe internal injuries. Mrs. Stucker is 50 years of age and little hope is entertained for her recovery.

About the same time and near the same place, Thomas Long and son, Bruce, aged 12 years, were also engaged in mowing hay, the son being on the wagon. In some unaccountable manner young Long lost his balance and fell to the ground, running the pitchfork through his chest. He is in a serious condition.

Big Money for a Cemetery Site.

The sale of the tract of 110 acres at \$2,350 per acre, in Lower Merion, Montgomery county, to be used as a Chinese graveyard, has been consummated. The price, \$247,500, appears enormous and the Mexican man who owned the farm has certainly salted the heathen. It will take a great many washes to pay for this land. The cemetery will be used as a burial ground by Chinamen all over the Eastern section of the country, being the only one in existence in the East. Here the Celestials will be at liberty to indulge in all their native rites, a privilege which has been denied them heretofore by the local cemetery authorities.

Coroner to Investigate a Death.

Miss Jemina Jenkins, a young woman of Plymouth, died under mysterious circumstances on Saturday. Last Monday Dr. Cross, of Kingston, was called to attend her. Subsequently Dr. L. B. Byron, also of Kingston, was called to assist Dr. Cross, but in spite of the fact that they did all in their power to save the girl's life, she sank gradually. The coroner will investigate the death.

That Rangé Fire.

Watch and see that a clinker is not allowed to form on the linings.

In giving the fire a thorough raking remove all clinkers with the poker.

At night the firebox should be even full of coal after raking out all the dead ashes and cinders and putting on the night's supply.

The ashes should never accumulate in the ashpan until they reach the grate. If this happens often the grate will soon be burned out.

Never use the shaker when it is possible to avoid it; instead use the poker freely, and you will have a brighter fire and use less coal.

Remember that shaking banks the fire down into a solid mass, and as the air cannot circulate through it the draft will be poor.

When the fire from any cause becomes dull do not stir it over the top or put in wood, but rake out the ashes and put on the drafts.

Keep the stove well polished; if the lids become greasy turn them over and let the top of the lid come next to the fire until all the grease is burned off; then polish as usual.—Leisure Hours.

To Eject People from Cars.

The Scranton Street Railway Company has posted an order full of fight regarding spitting in the cars. Conductors and motemen are given wide power on the company's responsibility to forcibly eject from cars passengers who expectorate on the floors, and refuse to abide by the order. The notice went into effect Friday morning, and reads as follows:

"The attention of conductors is called to a notice in the cars regarding spitting on the floor.

"This order is to be enforced within the limits of the city of Scranton, and conductors are requested to carefully note the following instructions:

"In case a passenger does not observe the order call his attention to the notice in the car, and politely request the passenger to observe it. Should any passenger, having been requested to observe the order, refuse to do so, stop the car and request such passenger to leave the car. If he refuses to leave the car, call an officer and request him to remove the passenger from the car. If there is no officer in sight, eject him, using only such force as is necessary, and if necessary calling on the motemen to assist. Conductors must at all times be courteous and not enter into an argument over the order, which must be enforced."

The Anthracite Coal Trade.

From the Philadelphia Inquirer.

Increased activity is reported in the retail anthracite trade in New England cities, and as stocks in the yards are low, there has been a good demand for supplies from the producing companies. The scarcity of available coal is perhaps a stronger factor in the situation than the real improvement in the demand, but whichever is the controlling influence it has resulted in causing a good demand. In other retail centres the trade is very quiet. Tidewater prices are not strong, and while some companies are receiving full circular prices because they happen to be short, other companies are said to be selling at the May circular. The local trade is dull with individual producers slashing prices 10 and 15 cents a ton. In fact, outside of New England the retail demand has been quiet and even in that section it has not been very active.

The July output turns out to have been far larger than was calculated upon and to be very close to 4,000,000 tons. This excess will be corrected this month, for unless plans are radically changed the output in August will not be much over 3,500,000 tons. In the first seven months of the year the production has been 20,000,000 tons against 23,700,000 tons in the same period last year.

BASE BALL NOTES.

Owing to the presence of Sullivan here yesterday, it had been arranged to have all the Anthracite league clubs play at the Tigers park. The first game, Lattimer vs. Freeport, began at 2 o'clock and was called at the end of the fifth inning, with the score 3 to 2 in the local club's favor, to prepare the grounds for the Drifton and Hazleton teams.

Yesterday's second game at the park would have been a good contest. Schrum and Ward were Hazleton's battery and had a strong team behind them. McGill and Culver were in the points for Drifton, and nearly the whole Mauch Chunk club was on the field to assist them.

James J. Corbett is playing first base regularly for Harrisburg club. He and his team may be seen at the Tigers' park in the near future.

Anthracite league clubs will play next Sunday as follows: Hazleton at Freeport, Lattimer at Drifton.

Ed. Hanlon's Freeport club will give Allentown another hold on Saturday.

Anthracite league clubs stand as follows:

Clubs	Won	Lost	Percentage
Drifton	9	4	.692
Hazleton	7	6	.538
Freeport	7	7	.500
Lattimer	4	10	.286

SULLIVAN HAD TO RUN.

EX-CHAMPION AND 800 SPECTATORS CHASED BY THE RAIN.

First Inning of a Ball Game was Being Played When a Heavy Shower Came Along—John L. and the Players Gave Way to the Elements.

A heavy shower of an hour's duration swept over Freeport yesterday afternoon. It chased John L. Sullivan, ex-champion of the world, and two baseball clubs off the field at the Tigers park and drenched 800 spectators more or less thoroughly. Play began with Sullivan as umpire. Drifton was first to bat, but failed to score in their half of the inning. Hazleton had two men out when the advance guard of a thunder storm made its appearance on the ground. The ex-champion buttoned his coat to his chin, pulled down his cap and made preparations to defy the rain. The drizzle soon developed into a down-pour, and with a sweep of his mighty right Sullivan signaled to the clubs to surrender and a rush was made by umpire and players for the grand stand.

After waiting half an hour for the rain to cease, it was agreed that the game could not be played. Sullivan's barouche was then ordered and he returned to the Cottage hotel, which was his headquarters while here.

The arrangements for his coming were made on Thursday afternoon, and he arrived here at 10.50 a. m. yesterday from Wilkesbarre. A large crowd was at the station to greet the famous pugilist. Owing to the threatening weather which appeared about 3 o'clock many people did not venture inside the park. He was driven to and from the park and station in a closed carriage, which added to the curiosity of the multitude on the streets.

Sullivan was accompanied by his manager, W. H. Sherwood, and his advance agent, J. H. Randall, both of whom are well-known in sporting circles. He left town last evening for Hazleton, where he took a train for Philadelphia.
