CORONER'S JURY DIVIDED ON THE LATTIMER SHOOTING.

'ery Direct Testimony Given at the In-quest, Still the Verdict Is Not Forth-coming—Lackawanna Miners Striking Preparing to Organize This Region.

Preparing to Organize This Region.

The coroner's jury to inquire into the killing of the strikers at Lattimer met in Deputy Coroner Bowman's office Saturday night, and after being in session nearly three hours adjourned without rendering a verdict. Some of the jurymen favored censuring the sheriff and deputies, while others opposed a verdict of this kind. After considerable wranging and no possible sign of arriving at any conclusion they adjourned. An effort will be made to have them convene again tonight.

TAKING THE TESTIMONY.

The testimony taken at the inquest, which was held in Hazle Hall on Thursday and Friday afternoons, did not differ materially from that given at the hearing of the deputies in Wilkesbarre earlier in the week. The evidence was substantially the same from all witnesses, and an idea of its character can be formed from the following testimony, part of which is given by a spectator and part by a striker.

REGION TO BE ORGANIZED.

The work of thoroughly organizing the anthracite miners is under consideration by all the big labor unions. A a session of the executive council of the American Federation of Labor on Thurs-day at Washington, D. C., very strong resolutions regarding the shooting at Lattimer were adopted. The council, the resolutions state, "will give its full est help through the trade unions and the American Federation of Labor, to

general organizers, was directed to pro-ceed immediately to the Luzerne district, for the purpose of helping in more thor-oughly organizing the miners.

Mr. Weber arrived at Hazleton Friday svening and will spend some time in the

region.

STRIKING IN LACKAWANNA.

Four hundred miners and laborers, employed at the Simpson & Watkins collieries, above Scranton, went out on a strike Friday morning, and in consequence the Last Chance, Eyebrow and Edgerton mines are idle. On Monday last the men at the Last Chance went out, but after a conference with General Superintendent Crawford, in which he promised them that their grievances would be considered, they returned to work Tuesday, and everything went well till Thursday night, when a meeting of the miners was held and it was decided to stop work next morning, and to stay till their claims were granted. The officials at Scranton were notified, and they told the men to either go to work or remove their tools from the mine. They did the latter.

One hundred slate pickers, employed at the Coal Brook breaker, Carbondale, struck the same day. The principal grievance is that when working three-quarter time no noon hour is allowed them.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the custachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrah, which is nothing but an inflamed condition of the nucous surfaces.

Rough on Sandy Run.

From the Weatherly Herald.
The Sandy Run base ball team came to town last Saturday to play a game with the Orioles. They didn't arrive, however, until 4 o'clock and the Orioles refused to play. The boys were a rather jolly crowd, and no doubt our policemen were wishing they were town boys, that they could give them a taste of Weatherly justice.
