REPORT OF THE VIEWERS WAS CON-FIRMED ON MONDAY.

Four Wards Formed from the Territory That Previously Comprised the North Ward-Full Text of the Court's Decree. New Polling Places, Election Officers,

hereafter as the First, Second, Third and Fourth wards. The document was signed by Judge Bennett, and is published in full in this issue. To those of our citizens who reside in what was the North ward, as well as to many residing in the South ward, the decree should prove interesting.

The re-arrangement of the voting districts, of which there is one in each of the new wards, makes several changes, especially to those who live in the northern portion of the borough. The boundaries are given in full in the decree, but may be better understood by describing them as follows:

First ward—All east of Centre street, between Main and Chestnut, including part of the unbuilt portion of Alvinton.

Second ward—All cast of Washington street, north from Chestnut to northern borough line.

street, north from Chestnut to northern borough line.

Third ward—All west of Washington street and north of Chestnut.

Fourth ward—All west of Centre street, between Main and Chestnut, including greater part of Birvanton.

The districts of the South ward, and the ward itself, remain the same, as this ward was not a subject of consideration by the viewers.

Election officers were appointed in all the districts, and the names of each appear in the decree.

A map showing the boundary lines of the new wards can be seen at Attorney Stroh's office. The Tribune has secured a copy of the same and all parties interested can view it here.

At the last election, in February, the votes cast in the then North ward amounted to 579. At the same election the South ward polled 415 votes.

ITS POLITICAL ASPECT.

After the next election, the Tribune is informed, each ward will be entitled to two members in council and two representatives on the school board, a total of ten in each body. As the decree provides that none of those now in office

with Mr. Zemany; one director to sit with Mr. Johnson.

Second ward—Two councilmen; two directors.

Third ward—Two councilmen; one lirector to sit with Mr. Schaub.

Fourth ward—One councilman to sit with Mr. Davis; two directors.

South ward—No councilmen; no directors: as two members of each body hold.

New Naturalization Rules.

New Naturalization Rules.

A special session of naturalizationcourt was held Monday before Judge Lynch. There were ninety-seven applicants, but one-fourth of them were refused-because they did not understand enough of this form of government to entitle them to the rights of citizenship. The new naturalization rules which recently went into effect and put in practice Monday for the first time, prove to be very thorough, and will prevent persons ignorant of our laws from receiving the power of voting.

gration showing when they landed here; must file their application at least thirty days and have it advertised before it is acted upon by the court. Each applicant must also be represented by an attorney and must have a witness who knows his reputation and that his statements are true.

There are many amusing answers made to questions asked by the court and the attorneys of the applicants. The latter had to give the names of their king in the old country, when and where they landed, the president of this country, the governor of the state, how

Boyle, Thomas L. Thomas, Barton Frees and Peter McKernan, of this jury, do further say that said Clemens Plotack with others were marching peaceably and unarmed on the public highway, that they were intercepted by said Sheriff James Martin and his deputies and merellessly shot to death and we further find that the killing was unnecessary and could have been avoid-

There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the mucous lining of the
eustachian tube. When this tube gets
inflamed you have a rumbling sound or
imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflamation can be taken out
and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by
catarrah, which is nothing but an inflamed condition of the mucous surfaces.

RE-SURVEY OF THE PARK.

Boundary Line Changes Promise to Make Some Queer Complications.

The re-survey of the Public Park has been completed by the surveying corps of the Cross Creek Coal Company and large fron stakes have been placed at the four corners. The new line starts twenty feet west of the original line as at first laid out, between the Edward Lynch and Andrew Kennedy tracts, and runs west 610½ feet to a stake, thence assist wardly 610½ feet to a stake, the

One Dollar for Jennings.

The jury in the celebrated case of Jennings against the Lehigh Valley Railroad Company for damages sustained in the Mud Run wreck nine years ago, agreed Sunday morning after having had the case under consideration for thirty hours. Monday morning at 10 o'clock the jury came into court and rendered its verdict. It was for the plaintiff for the sum of one dollar. The verdict does not carry costs with it, but the defendant company will pay an amount of costs equal to the verdict, or one dollar. The plaintiff will be obliged to pay his own costs.
