ian Mountain, than anywhere else in the world. The coal is easy to get at, streams, and the grate fires of the the veins are thick, and in some mines South blaze with the rays from the they are almost on the top of the lost diamonds from Péansylvania. ground. They are better than any The Ohio River is the great coal chute other coal fields in this respect, with for the Mississippi valley. The coal one single exception. This is the new is carried down it in great barges

pushed by little steamers, and so fastened together that a single steamer
will push acres of coal. Loads of
twenty thousand tons are taken. A
vast amount of coal is carried on the
canals and the great lakes form one of
the chief highways of the coal traffic.
The amount of coal carried on the
railroads is almost beyond conception.
The Philadelphia and Reading has
more than fifty thousand coal cars,
which are dragged by nine hundred

coal locomotives. These cars are kept busy in carrying anthractic coal. The Penanylvania Ratiroad employs more than seventy thousand cars for the and the Ceatral Ratiroad or New Jurish and the and the Ceatral Ratiroad or New Jurish and the selection of the Ceatral Ratiroad or New Jurish and the selection of the Ceatral Ratiroad or New Jurish and the selection of the Ceatral Ratiroad States on the Ceatral Ratiroad States on the Ceatral Ratiroad Ratir

law women cannot be employed in our mines.

Boys, however, have been largely used. They drive the mules, and in the authracite regions they pick over the coal, taking the slate and refuse out of it. They get from fifty to sixty coal, roasting in the summer and almost freezing in the winter. They are frequently hurt, though it is by no means as bad with our children as with those of Europe a few years '200, when in one investigation it was stated: "That they seldom slept with a whole skin, and that their backs were cut with knocking against the roof and sides of the tunnels, and that the walking in the water covered their feet with fastering sores."

DEVIL'S HEAD.

known as "Devil's Head." Prospectors rub a spot above the eyes, which is said to bring them luck. The Indians have a legend concerning the disable not have a legend concerning the wiskling more or less than the petrified head of a great warrior who came from the tribute of the Northwest against extermination by the whites.

# WHY SO MANY REGULAR PHYSICIANS FAIL

To Cure Female Ills—Some True Reasons Why
Mrs. Pinkham is More Successful Trun
the Family Doctors.

Mrs. Pinkham is More Successful Tren
the Family Doctors.

A woman is sick; some disease peculiar to her
sex is fast developing in her system. She goes
to her family physician and tells him a
story, but not the whole story.
She holds something back, loses her head,
becomes agitated, forgets what she wants
to say, and finally conceals what she
ought to have told, and thus completely
mystifies the doctor.

Is it any wonder, therefore, that
the doctor fails to cure the disease?
Still, we cannot blame the woman, for it is very embarrassing
to detail some of the symptoms of her suffering, even to
her family physician.

It was for this reason that
years ago Mrs. Lydia E. Pinkham, at Lynn, Mass., determined to-step in and help her sex. Having had considered the women of America to write to her for advice in regard to their
complaints, and, being a woman, it was easy for her ailing sisters to pour into
her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable
to do, simply because she had the proper information to work upon, and
from the little group of women who sought her advice years ago a great
army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that more than one hundred thousand of them have been
successfully treated by Mrs. Pinkham during the last year is indicative of
the grand results which are produced by her unequaled experience and
training.

No physician in the world has had such a training, or has such an amount
of information at hand to assist in the treatment of all kinds of female illa,
from the simplest local irritation to the most complicated diseases of the womb.
This, therefore, is the reason why Mrs. Pinkham, in her laboratory at
Lynn, Mass., is able to do more for the ailing women of America than the
family physician. Any woman, therefore, is responsible for her own suffering
who will not take the trouble to write to Mrs. Pinkham in her laboratory at
Lynn, Mass., is able to do more for the ail

# STANDARD OF THE WORLD. [897 COLUMBIA BICYCLES]

\$75 TO ALL ALIKE.

The 5% Nickel Steel Tubing used in 1897 Columbias costs more than any other steel tubing on the market. The expense incident to this construction is justified by the advantages which it enables us to offer to the rider, both in safety, stiffness of tubular parts and consequent ease of running. This is indicated by the regard in which '97 Columbias are held by all riders.
