Rev. Matyak, the new pastor of St. Mary's Greek Catholic church, has taken

most business men. He has always been well liked by his neighbors and friends, because there is nothing narrow or bigoted about him. On the contrary, he is broad and liberal in all his views. He has greatly prospered in his business since he first located in Weatherly, eighteen or twenty years ago, yet at the same time he has been kind and considerate to the poor. Should he be elected to the office, he will make a very worthy director.

Nobody in Carbon county was more surprised than Frank C. Wintermuth, of East Mauch Chunk, when he learned that he was nominated for poor auditor. The nomination in this case came not only unsolicited but also unexpected. It was not given him to tickle him, as it is so often the case in nominations of this kind, but because he has the ability to make an intelligent audit of the poor directors' accounts. He should be elected.

The performance given on Saturday evening by the Juvenile Dramatic Company at Yannes' opera house was well worth the price of admission. The company produced "A Midnight Mistake" in a manner that deserves commandation.

Offices Removed to New York.

The Lehigh Valley Railroad's freight and passenger traffic officers are to remove their headquarters from Philadelphia to New York city. General Freight Agent Foster and his assistants and General Passenger Agent Lee will hereafter conduct their operations from that city. No special reason for this change of base is advanced except that it will be more convenient. It is also rumored that later on President Walter will move his headquarters to New York, but no confirmation of this report can be obtained, although no denial is made.

There is only one way to cure deafaess,
and that is by constitutional remedies,
Deafaess is caused by an inflamed condition of the muccus lining of the

inflamed you have a rumbling sound or
imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflamation can be taken out
and this tube restored to its normal condition, hearing will be destroyed forever; nine easee out of ten are caused by
