# HOUSEHOLD MATTERS. The Cooking of Game Birds. Most game birds and animals, ba-cause of a life of ceaseless activity, do not take on fat, and such should be harded, or cooked with slices of bacon or salt pork placed on them. Do not serve birds with heads on and un-drawn, as is quite generally practised-the latter point being a relic of sav-agery, the former an offense to sen-sitive nerves. It is pleasanter to en-joy a bit of choice flesh without being so forcibly reminded that we are eat-ing dead birds. This is not the only instance where realism is inartistic.--Woman's Home Companion.

Stuffed Tomatoes.

Staffed Tomatoes. Staffed tomatoes are excellent. Se-let as many large, firm, ripe tomatoes as there are persons to be served, and out them in halves. Heat a little but-ter in a porcelain-lined saucepan and lay the tomatoes in it with the flesh side down. Let them fry two or three minutes. Make a stuffing of one small shallott, chopped fine (a small white onion will do); one clove of gar-lic—no more—also mineed; the yolks of two hard-boiled eggs, a tablespoon-ful of equal parts of chopped chirves, paraley and two salt anchovies, fresh-enened and chopped fine. (Mix all these ingredients thoroughly together, stirring in a tablesponful of butter; seeson with a little pepper, and salt if necessary. Lay the halves of fried to-mato on a buttered tin, flesh or cocked side up, and cover each one of them with one-sixth of the amount of staf-fung prepared.
