FREELAND, PA., MARCH 10, 1898.

Should Be Faithfully Supported.

From the Johnstown Democrat.  
Those excellent gentlemen who deserted the Democratic party in 1896 and joined Hanna in saving the country from repudiation and dishonor are now exceedingly anxious to "overcome party harmony," their notion of the way to do it appearing to be that the men who stood by Bryan should be thrown down and those who knifed him in behalf of McKinley should be restored to place and power in the Democratic organization which they so basely betrayed.

To this end they are now modestly proposing the deposition of Chairman Garman, a man they do not like because he is not ready to lick the hand that smote the party when it dared to stand up for the plain people against trusts and monopolies and combines. They regard Mr. Garman as a troublesome fellow who should be put out of the way

in the interest of a harmony which would restore the traitors to power and hand the organization over to the service of the predatory classes.  
But we think it will be some time before the Democracy of Pennsylvania will consent to purchase harmony at such a price. The Democrats of the state are very well satisfied with Mr. Garman. He is at least free from the taint of monopoly and he held up the standard of the common people with courage and fidelity under the most trying circumstances, holding the party together against all the machinations of the traitors in the camp and getting out a vote for Bryan that fell but little short of that which Cleveland received when the tide was all in favor of the Democracy.

Mr. Garman deserves and must have the united and loyal support of the Democrats who stood for Bryan in 1896. To discredit him were to discredit the great and splendid work that has been done under his courageous leadership, and to displace him at the head of the party organization in the interest of the men who treacherously aided and abetted Hanna two years ago would be a betrayal of the people that could never be forgiven. It should be understood that a fight on Mr. Garman is really a fight on Mr. Bryan and on the Chicago platform.

**Educate Your Bowles With Cascarets.**  
Candy Cathartic, cure constipation forever. 10c. If C. C. C. fail, druggists refund money.

**CASTORIA**  
For Infants and Children.

The fac-simile signature of *Chas. H. Fletcher* is on every wrapper.

A Kansas City woman, arrested for swindling people as a fortune teller, confessed the swindle and offered as an excuse for her business that "few respectable women could earn an honest living unless they became swindlers." Employment in various reputable lines of business had failed to bring her even a fair living. As soon as she began to cater to public gullibility her income grew until she "had money to burn."

It was a Philadelphia little girl who, when her mother had given her a box of candy and had told her to invite one of her friends to partake of it with her, said that she would ask Fannie Brown, because candy always made Fannie's teeth ache, so she couldn't eat much.

A young husband in Georgia has left home and abandoned his family because his first born is a girl. This, comments the Chicago Times-Herald, is carrying aversion to the "new woman" idea entirely too far.

An epitaph in a Kentucky cemetery reads: "Peace to ashes, for he is in ashes long ago if he got his just punishment. Though he might be too tough to burn."  
So rapid was the change in the English language that the English of today bears no more resemblance to the English of 1,000 years ago than it does to German.

It is reported that a Pawtucket (R. I.) man was recently locked up in the police station at his own request, "to save him from his wife."

People are apt to think that the music in their own homes is fine while that next door is abominable.

**CASTORIA.**  
The fac-simile signature of *Chas. H. Fletcher* is on every wrapper.

### FOR THE FARMER.

The hog is not able to endure severe cold weather, yet it is kept in the most uncomfortable situation. The pig pen should be well littered and dry, and the shelter should contain no cracks or openings for drafts of air.

It is feared that as sugar beet seed is nearly all imported the result will be the introduction of fungoid diseases. About 15 pounds of seed are required for an acre, and the crop will pay if grown only for stock.

Sheep are considered valuable agents in enriching land. They scatter their droppings uniformly and press them into the soil. By keeping the grass close they thicken it, and they destroy weeds because they have a fondness for certain kinds that no other animal on the farm will eat.

It is estimated that the potato crop is 70,000,000 bushels less than last year. Farmers are disposed to shorten a crop the following year if there is a surplus, and the result is better prices because the supply is less than the demand. A farmer who watches the markets and has noticed that a short yield follows one that is heavy will plant more instead of growing a smaller crop after a year of plenty.

**Two Millions a Year.**  
When people buy, try and buy again, it means they're satisfied. The people of the United States are now buying Cascarets Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means merit proved, that Cascarets are the most delightful bowel regulator for everybody the year round. All druggists, 10c, 25c, 50c a box, cure guaranteed.

**In a New Disguise.**  
Potatoes left from breakfast, Little chunks of meat, Make the old concoction The boarders have to eat; "Flash" is what they call it Where the price is low, But in the "upper" places "Souffle" is all the go. —L. A. W. Bulletin.
