MINES AND RAILROADS.

Mines and residents of Freeland who work in Upper Lehigh collieries received notice on Saturday that they stand suspended until further orders, which is taken by many as a virtual discharge. The polley of retrenchment at Upper Lehigh has been carried with a vengeance since the first of the year. No. 7 colliery, it is reported, is to be shut down completely. All breaker employes are laid off until the 16th inst.

Earnest VanDyke, aged 15 years, of Weatherly, attempted to jump on a coal train on Saturday. His footing slipped, and the right leg went under the wheels, crushing it so badly that amputation was necessary.

On Wednesday the county commissioners, acting as a board of revision, will sit in Freeland to hear assessment appeals from the taxpayers of Freeland and White Haven boroughs and Foster and Hazle townships.

completely. All breaker employes are laid off until the 16th inst.

The rate of wages to be paid miners in the Schujkill region for the last half of April and the first half of May was fixed by the committee of the Schujkill coal Exchange at 3 per cent below the \$2.50 basis. This is the third consecutive month that the miners' wages have been below basis.

The Neilson Colliery, at Shanokin, was closed down on Friday for an indefinite period, and the mules have been hoisted from the inside workings. Six hundred men and boys will be thrown out of employment. The suspension is sacribed to the duliness of the coal trade.

Mass meetings under the auspices of the United Mine Workers will be held at Stockton Wednesday evening and at Eckley Thursday evening. District President Duffy and National Organizer Chris Evans will make addresses.

The ranks of the United Mine Workers continue to swell at every meeting of the locals. The union is to be more fully organized in the Wyoming region in the near future.

The output of anthracite for the month of May has been fixed by the coal trust at 2,000,000 tons. This is the same amount as was ordered to be mined in April.
