Real Gold in Carbon County.

The rumors of gold finding in Carbon county are becoming more general every day. The latest discovery is said to be a genuine Klondike strike. The fortunate men who struck it rich are brothers, John J. O'Donnell, commissioner of Carbon county and Neil O'Donnell. The latter is an experienced gold miner, having spent the past twenty years of his life in western mining camps. His knowledge in this respect bids fair to make him a rich man by digging gold from his mine at Mauch Chunk. Mr. O'Donnell made numerous tests and examinations of the mountain, recently and last week with a force of men began to tunnel into the mountain near the Valley station. Tests of the ore already assayed gives \$800 of gold to the ton besides a great deal of copper.

The town is much excited over the discovery and hundreds eagerly watch the men at work, while blasting the ore.

Mr. O'Donnell is positive the assay will be increased as the vein is increased. He says it is known in the gold mining region as the Fisher lode and usually turns out very productive. The brothers have secured a lease of the land where the mine is located from the agents of the Steadman estate and will soon have a crushing mill erected.

Leaving the Coal Region.

The exodus of Hungarians, Slavs and Poles from the anthracite region, which began about two months ago, still continues, and those of the English-speaking residents who can secure employment elsewhere are now following them. Some are going to other parts of the coal fields, but the majority are settling in the larger cities, as far away from their former oppressors as they can get.

In addition to the large number who have already been mentioned in these columns, the following have removed lately: Henry Rudolph and family to Reading; James Harvey to Philadelphia; John Wilson and family to Weatherly; William McFarlane, of Drifton, to Scranton; John Gallagher to Wilkesbarre; John Mochamer, of Eckley, to Chicago; Edward Allen and Bernard McDevitt to Bethlehem.

Three Men Have a Narrow Escape.

From the Hazleton Sentinel.

While a steam shovel was being removed between No. 3 and No. 1 mines, Ebervale, on Tuesday, a bridge broke down and precipitated the workmen into the canal. The shovel is still in the trench and it will cost considerable money to remove and repair it. Chris Griesing, of Jeddo, fell into the water and was nearly drowned, as were two Hungarian laborers who were also thrown into it. The excitement in the vicinity for the time was intense. The prompt response of other workmen saved those who had been thrown from the bridge.

Appealing from the Assessment.

If a recruiting station had been opened at the Central hotel yesterday morning the rush of applicants could not have been larger than the crowd which gathered there to demand that their assessment valuations be reduced. The county commissioners, with the assessors of Freeland, Foster, White Haven and Hazle, had their hands full all day long. The large increase in all valuations required considerable explaining to many, and some reductions were made.

Entertainment at Baptist Church.

An entertainment will be given in the basement of the First Baptist church, on behalf of the Sunday school funds, on Saturday, May 7, commencing at 7:30 p. m. Mr. William Davis will be on hand with his graphophone, with records of songs, speeches, band music, etc., of a very novel character. There will be other numbers of interest, including solos, quartets and recitations. Admission, 10 cents; children under 12, half price.

Early Morning Fire.

A fire was discovered between 5 and 6 o'clock this morning in the residence of Mrs. Andrew McDevitt, at Alwintown. The alarm was rung and with the assistance of Bottler P. M. Sweeney's team the hose cart was run to South Heberton. The blaze was confined to a chimney and an examination showed that it was unnecessary to turn the hose on the building. The fire was drowned with a little damage to the property as was possible.
