

Pearls in Palms.
Among the curiosities of tropical plant life are the pearls found occasionally in the cocoa-nut palm of the Philippine Islands. These pearls, like those of the ocean, are composed of carbonate of lime. The bamboo also yields another precious product, in the shape of true opals, which are found in its joints.

Beauty is Blood Deep.
Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for 10 cents. Satisfaction guaranteed. 1 c. 20c. 50c. 90c.

Croesus, of ancient times, possessed about \$20,000,000.

No-To-Bac for Fifty Cents.
Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c. \$1. All druggists.

Fifty-one years ago a well-known Norwich (Conn.) merchant deposited \$10, the first money he ever earned, in the savings bank of New London. Recently he was in the city, and for the first time had the interest added to his bank. He was somewhat surprised to learn that the \$10 had grown to \$139.08.

Five Cents.
Everybody knows that Dobbin's Electro Soap is the best in the world, and for 38 years it has sold at the highest price. Its price is now 5 cents, same as common brown soap. Bares full size and quality. Order of grocer, 40c.

There is 87 per cent of water and 13 per cent of solids in milk. The sugar in the solids is in greater proportion than in any other solid.

You Can Get Tired

By working hard, and then you can get tired again. But if you are tired all the time it means that your blood is poor. You need to take Hood's Sarsaparilla, the great cure for that tired feeling because it is the great enricher and vitalizer of the blood. You will find appetite, nerve, mental and digestive strength in

Hood's Sarsaparilla
America's Greatest Medicine.

Hood's Pills cure nausea, indigestion, 25c.

PIMPLES

"My wife had pimples on her face, but she has been taking CASCARETS and they have all disappeared. I had been troubled with constipation for some time, but after taking the first Cascaret I have had no trouble with this ailment. We cannot speak too highly of Cascarets." FRED WATMAN, 5708 Germantown Ave., Philadelphia, Pa.

PAINT YOUR WALLS AND CEILINGS
CALCIMO FRESCO TINTS
FOR DECORATING WALLS AND CEILINGS. Purchase a package of Calcimo paint dealer and do your own decorating. This material is made on scientific principles by machinery and milled in twenty-four tints and is superior to any concoction of Gouge and Whiting that can possibly be made by hand. To be mixed with Cold Water.
SEND FOR SAMPLE COI OR CARD and if you cannot purchase this material from your local dealer let us know and we will put you in the way of obtaining it.
THE MURAL CO., NEW BRIGHTON, S. I., NEW YORK.

Among the bills paid out by the Belfast (Me.) city government one reads: "Towing a whale, \$5." This refers to the dead whale that has been floating from shore to shore about Belfast bay. Finally the authorities hired a man and his steam launch to tow the whale out of sea.

To Cure a Cold in One Day.
Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 50c.

Educate Your Bowels With Cascarets.
Candy Cathartic, cure constipation forever. 10c, 25c, 50c, C. C. fail, druggists refund money.

There have never been more than three contemporary European Queens; in fact, the number who have occupied the throne in medieval and modern times is comparatively small. England heads the list with five; Russia can boast of four, but the total comes to considerably under 30 altogether.

W. H. Griffin, Jackson, Michigan, writes: "Suffered with Catarrh for fifteen years. Hall's Cathartic Cure cured me." Sold by Druggists, 75c.

After six years' suffering, I was cured by Pisco's Cure—MAY THOMSON, 399 Ohio Ave., Allegheny, Pa., March 19, '94.

Fits permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. \$2 trial bottle and treatise free. Dr. R. H. KLINE, Ltd., 938 Arch St., Philadelphia, Pa.

Died a Pauper.
Samuel Tetlow, who died a pauper recently in San Francisco, was one of the earlier settlers on the Pacific coast, and in the good old days of Frisco's babyhood was known as "Prince Prodigal," because of the facility with which he won and lost fortunes over the green baize. He built the old Bella Union Theater, having as a partner in its management William Skeneanteury, whom he shot to death during a quarrel. Tetlow was sentenced to death, but "social" influence brought about his acquittal at a former trial. At one time he owned the property now known as Sutro Heights, which he sold to ex-Mayor Sutro for \$30,000.

From Bad to Worse.
Dixon—I'd give anything I possess if I could only get rid of this gout.

Hixon—Oh, that's an easy matter. Just move around to our boarding house and I'll wager that liver complaint will soon take the place of the gout.

Dixon—Liver complaint! Why, how's that?

Hixon—Well, the landlady feeds us liver every other day and the boarders are all complaining.

Dickens Not Good Enough.

Of the remaking and unmaking of books there is apparently as little end as of their making. We have already seen the expurgator at work on "Oliver Twist," and now it is the harmless-looking "Sketches by Boz" which is to be torn to pieces. The authorities at Darlinghurst jail, in Sydney, Australia, declare that thirty pages of this book are unfit for prisoners to read and have accordingly cut them out of the copy in the jail library.

The Missing Heart.
Jack Potts—I might have won a couple of hundred from old Chipps last night in a little game of poker, but I didn't have the heart to take his money. Will Betts—Conscience wouldn't permit it, eh?

Jack Potts—No; merely a case of heart failure.

Will Betts—Why, how's that?

Jack Potts—Well, you see I needed just one more little heart to make a flush.

Some men are so fixed that they have no use for a moving van.

NERVOUS DEPRESSION.

[A TALK WITH MRS. PINKHAM.]
A woman with the blues is a very uncomfortable person. She is illogical, unhappy and frequently hysterical. The condition of the mind known as "the blues," nearly always, with women, results from diseased organs of generation.

It is a source of wonder that in this age of advanced medical science, any person should still believe that mere force of will and determination will overcome depressed spirits and nervousness in women. These troubles are indications of disease.

Every woman who doesn't understand her condition should write to Lynn, Mass., to Mrs. Pinkham for her advice. Her advice is thorough common sense, and is the counsel of a learned woman of great experience. Read the story of Mrs. F. S. BENNETT, Westphalia, Kansas, as told in the following letter:

"DEAR MRS. PINKHAM—I have suffered for over two years with falling, enlargement and ulceration of the womb, and this spring, being in such a weakened condition, caused me to flow for nearly six months. Some time ago, urged by friends, I wrote to you for advice. After using the treatment which you advised for a short time, that terrible flow stopped.

"I am now gaining strength and flesh, and have better health than I have had for the past ten years. I wish to say to all distressed, suffering women, do not suffer longer, when there is one so kind and willing to aid you."

Lydia E. Pinkham's Vegetable Compound is a woman's remedy for woman's ills. More than a million women have been benefited by it.

U. S. INFANTRY TACTICS.

COMPILED BY A FIGHTING GENERAL FOR OFFENSIVE WORK.

The United States Infantry Tactics are, as has been said, formed after European patterns, and it appears that the French tactics have been followed in the main. The French, on the other hand, remodeled their infantry tactics toward the close of the '80's, immediately following the Russo-Franco alliance, after the Russian style, and the latter, in turn, is patterned in its material points after the German infantry tactics.

The exception in favor of the United States tactics is the maintenance of the company formation as unit instead of that of the battalion.

The scouts of the skirmish line have been taken from the French tactics, where they are called "ecclaireurs." But it would seem as if, in decisive modern warfare, the days of the scout in modern warfare are past. A loose chain of scouts cannot maintain any effective fire at a great distance unless the enemy offers an unusually favorable aim, which can hardly be supposed in the modern science of war. Such a chain of scouts may, on the contrary, hinder the support which follows at 150 yards' distance from doing effective work without endangering its own scouts.

Infantry tactics, as they now rule in the United States army, are obviously compiled for the offensive and not for the defensive. They are eminently the gospel of a "fighting general."

The American tactics, however, differ from the Russo-French in avoiding the latter's close order and in bringing to the front a larger firing line.

The attack with fixed bayonets, also, is likely to be scarce in modern warfare because the effect of the improved small arms of the present day is so destructive that the volley of a compact firing line will in most cases dislodge the enemy. Hence the better rifle and the cooler and better riflemen will almost invariably decide the attack.

Just Catching Fish.

One day this week a Boston party on a fishing trip to Moosehead came across one of the old-school fishermen. He was up off the mouth of Tomhegan stream and was fishing out of a lumberman's bateau. It developed later that he was the cook for a crew of river drivers. On the bank near at hand stood the cook, or his helper. The cook had thrown about a peck of table refuse into the lake in order to "tole" the fish, and over that hole he was having great luck. His pole was of the jibboom variety, and when a fish bit he would derrick it over his head into the bushes where the cook was stationed.

The Boston men from their canoes watched the operations with all the disgust of the true sportsmen. "Got enough for supper yet?" shouted the fisherman over his shoulder as he sent another great trout flaming into the bushes. "No; better catch six or eight more," shrieked back the cook.

"Say, how many fish do you two fellows usually eat for supper?" shouted a Boston man, who didn't understand the situation. "When you've cooked for twenty-two river drivers as long as I have," yelled the cook, deriding another fish, "you'll know more about empty nail kegs."

Hardly was this enigmatic utterance out when there came a tug at his line that was nothing short of tremendous. He twitched. The fish didn't come. He braced, set his jaws, and pried. His line only sawed the hissing water. "Play him! Play him!" screamed the excited sportsman from the city. "Play your grandmother!" bellowed back the cook. "I ain't here to play. I'm here to fish." And as he spoke he boosted over his head a fifteen-pound laker. Any man in the Boston crowd would have given \$10 to have played him an hour at the end of an eight-ounce rod. 'Twas too much for their nerves. They came away.—Lewiston (Me.) Evening Journal.

The Island City.
Venice is one of the most singular and famous cities in Europe, and is built upon a cluster of islands in the lagoon. This lagoon is banked off from the Adriatic by a long, narrow sandbank which is divided into a number of islands, six in number. Inside of this sand bank and between it and the mainland, is the lagoon, a sheet of shallow water. In parts of this marshy, sea-covered plain, islets have become consolidated into ground, firm enough to be cultivated. And in the midst of a crowded cluster of such islands, amounting to between seventy and eighty in number, the city of Venice is built. The chief of these islands is called Isola de Rialto, or Island of the Deep Stream. The islands, in many places mere shoals, afford no adequate foundation for buildings, and the city, for the most part, is built upon an artificial foundation of piles and stones. The Grand Canal divides Venice into two equal parts and is the main thoroughfare for traffic and pleasure. The city is subdivided by some one hundred and forty-six small canals of water streets, and the gondola is used for the carriage. Access can also be had to various parts of the city by land, there being over three hundred bridges across the canals; the Rialto, the most famous bridge, spans the Grand canal. There are also narrow lanes in among the houses. This beautiful and wonderful city is replete with interest for the student and tourist.

How Sea Birds Drink.
Sea birds frequently spend weeks at sea, and are believed to quench their thirst partly from the falling rains, and partly from the fat and oil which they devour voraciously when opportunity puts it in their way. They have been observed flocking toward a storm cloud about to burst from all parts of the compass, and drinking in the water as it descends from the sky.

It should be borne in mind that this fighting method of the United States Infantry is called normal—and the same term is also applied to the tactics of other armies—because, as a rule, it can be executed exactly only upon the drill ground, and is, therefore, mostly abnormal in actual warfare.

The present United States infantry tactics are, as has been said, formed after European patterns, and it appears that the French tactics have been followed in the main. The French, on the other hand, remodeled their infantry tactics toward the close of the '80's, immediately following the Russo-Franco alliance, after the Russian style, and the latter, in turn, is patterned in its material points after the German infantry tactics.

Beautiful Custom in Crete.

One of the curious Cretan customs which prevail on the eve of every insurrection, says the Fortnightly Review, is known as adelphopoleis, or fraternization. One of its immediate results is the cessation of all feuds, enmity and rancor. It is carried out as follows: A number of individuals choose a young girl, who must be pretty—no difficult matter in Crete. They inform her parents of their intention, and the parental consent is never withheld. Then a priest is sent for and told to begin the ceremony. He takes a very long girdle and joins all the men with it in a circle, in the center of which the young girl is placed. Then the clergyman recites a number of prayers and winds up by giving his benediction to all present. The moment he pronounces the last amen the circle and its center stand in the relation of brothers and sister to each other to all religious and social intents and purposes. Each and every one of the males is bound in honor—and a Cretan knows no more sacred obligation—to protect that girl throughout her life, but none of them can ever take her for his wife. She is and remains their sister in the eyes of the priest and people to the end of her days. But they must also stand by and succor each other, and if needs be at the cost of life itself.

Dexterity of Cigarette-Makers.
So great is the dexterity of the employees in cigarette manufactories, acquired by long continued practice, that some workers make between 2,000 and 8,000 cigarettes daily—and being paid by piecework at so much per 1,000 earn about \$6 weekly.

Don't Tobacco Spit and Smoke Your Life Away.
To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

The working classes form 69 per cent, the middle class 28 per cent, and the upper class 3 per cent of the population of this country.

To Cure Constipation Forever.

Women may write about their troubles to Mrs. Pinkham and avoid the questions of a male physician.

The questions asked of a woman by a male physician are embarrassing and frequently revolting to a sensitive nature. In consequence the whole truth is not told! This makes it difficult for female troubles to be successfully treated, and is the reason so many women grow worse rather than better.

Mrs. Lucy A. LOUGHERY of New Lebanon, Ind., describes how wretched she was until she received Mrs. Pinkham's help:

DEAR MRS. PINKHAM—I propped myself in a chair and wrote to you, and as soon as I commenced to take your Vegetable Compound I began to improve. I had suffered with severe pains in my hips, back and head. The doctor said I had bladder trouble and falling of the womb. I had spells when, if I did not sit down, I would fall. I was sleepy all the time. I was also troubled with leucorrhoea and itching piles. People thought that my end was near. Had it not been for Lydia E. Pinkham's Vegetable Compound and advice, I would have been dead and buried long ago. I hope that this letter may be the means of helping all women who suffer as I did.

Women understand women better than men can. The whole truth is freely told to Mrs. Pinkham, and women only see the letters received by her at Lynn, Mass. Her advice is freely offered.

Here is a convincing letter from a woman in Bethlehem, Pa.:

DEAR MRS. PINKHAM—Words cannot express my gratitude for the good that your Vegetable Compound has done me. I have taken five bottles, and feel better in every respect. Menses heretofore lasted too long and were very profuse, and made me very weak. Your Compound is a miracle. Before writing to you I had tried doctor's medicine, but of no avail. I would not give up your Compound for female complaints for all the doctor's medicine in the world. My friends want to know what makes me look so well. I do not hesitate one minute in telling them what has brought about this wonderful change. I cannot sing its praises enough. I hope every one who suffers as I have will give Lydia E. Pinkham's Compound a trial; and I know that, if taken according to directions, it will cure.—MRS. EDWIN EMIG, 413 Church Street, Bethlehem, Pa.

All women who suffer should secure Mrs. Pinkham's counsel. Female troubles are real troubles, and must be treated understandingly. For a quarter of a century Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound have been helping women to be strong and well, more than a million women have been benefited by it.

Lydia E. Pinkham's Vegetable Compound
A Woman's Remedy for Woman's Ills.

DEAR MRS. PINKHAM—I have suffered for over two years with falling, enlargement and ulceration of the womb, and this spring, being in such a weakened condition, caused me to flow for nearly six months. Some time ago, urged by friends, I wrote to you for advice. After using the treatment which you advised for a short time, that terrible flow stopped.

"Doctor, what is free alkali?"
"The alkali used in the manufacture of soap is a strong chemical and is destructive of animal and vegetable tissue."
"Pure soap is harmless, but when the soap is carelessly or dishonestly made, alkali is left in it and it is then said to be 'free.' Soap containing free alkali should not be used where it may do damage."
"In the medical profession, in sickness, in surgery and in the hospitals we use Ivory Soap because it is pure and contains no free alkali."
"Ivory Soap is a powerful antiseptic, it is healing to a diseased surface and stimulating to a healthy skin."

IVORY SOAP IS 99 1/2 PER CENT. PURE.
