## SUMMARY OF THE NEWS.

Acting Secretary Allen has decided to adopt the policy of mustering out the Naval Militia in bodies instead of individually as heretofore. This will be done in the case of the New York men on the Yankee, now at New York, and in all other cases hereafter.

Major J. M. Walsh, ex-Commissioner of the Yukon District, who has arrived here from Dawson, estimates this season's gold output at \$11,000,000, while the clean up for next year will undoubtedly aggregate \$20,000,000.

It is said at the War Department that there is no truth in the report that Camp Wikoff, Montauk Point, is to be abandoned, either as a result of Secretary Alger's inspection of on any other account.

The New York coroner's jury found that the murderer of "Dolly" Reynolds is unknown, thereby favoring the accused, Dr. Kennedy.

New York paid hearty tribute of welcome to the brave soldiers of the Seventy-first Regiment on their arrival home.

Officials despatches show that Secretary Alger expected to keep the troops in Santiago "until the fever had run its course."

had weight with the President in deciding to appoint him. A meeting of the full commission will be held early next month, and the commission will sail for Paris about Sept. 15.

### NEWS PARAGRAPHS.

The omission of mention of the Maine in the peace protocol indicated that this government had abandoned hope of bringing to justice the fiends who blew the battleship up.

Prof. Gilbert V. Curry, of Wilkes-Barre, Pa., was instantly killed at Plains this afternoon by lightning. He was returning from the funeral of a friend.

Secretary Alger refused to discuss the criticisms alleged to have been made by Gen. Miles. The War Department, he said, had not criticized Gen. Miles.

Mr. H. M. Flagler has given \$5,000 to the American National Red Cross Relief Committee.

In an alleged interview Gen. Miles freely criticizes the management of the war.

Helen Gould has given \$127,000 for patriotic uses since the war began.

### FROM ACROSS THE SEA.

Madrid, Sept. 1.—In an interview to-day Prime Minister Sagasta said that as soon as the Cortes meets he will submit a bill authorizing the peace negotiations.

The House would not discuss the question of peace or war. The Deputies were completely lacking the materials necessary. Such information, based on concrete positive facts, had not arrived yet.

He did not believe there would be a discussion of the surrender of Santiago and Manila. A discussion of the destruction of Admiral Cervera's squadron would not be permissible. That was a matter that was before the Supreme Council of War.

The nations were merely in a state of suspension in order that the negotiations may be successful, but it might happen that hostilities would be recommenced.

London, Sept. 1.—A despatch to the Daily Mail from Madrid says that in an interview to-day Senor Romero Robledo said that he would energetically oppose Prime Minister Sagasta's intention to prevent debates in the Cortes. He added that if the Government refuses to furnish official documents for purposes of debate the House would use the uncontradicted press reports. The members of the opposition are not inclined to accept Senor Sagasta's decision. The session promises to be a stormy one.

Moscow, Sept. 1.—Vast crowds have assembled here to witness the Czar and Czarina unveil a monument to Alexander II., the Czar's father.

The monument is in the Kremlin. The streets are lined with troops, and the decorations and illuminations are gorgeous.

Madrid, Sept. 1.—Senor Iglesias, editor of El Pais, has been condemned to two years and four months' imprisonment and also to pay a fine for publishing an article two months ago attacking Senor Castelar.

Madrid, Sept. 1.—The police are making domiciliary visits here. The public gambling houses have been closed.

Copenhagen, Sept. 1.—The Queen of Denmark is suffering from dropsy. The disease is extending, and her condition is serious.

Admiral Dewey Summoned.

Manila, Sept. 1.—Admiral Dewey says that he has been advised by the Navy Department at Washington to hold himself in readiness to return home by the quickest route for the purpose of conferring with President McKinley on the Philippine question. The Admiral cabled in reply giving the fullest possible information and also giving his views on the subject. He suggested to Secretary Long that the importance of the situation required him to remain here, where there is much work yet to do. He thinks that his squadron should be augmented in strength, and he therefore requested Secretary Long to despatch a battleship and an armored cruiser to Manila.

Boy Tries to Poison His Mother.

Rochester, Sept. 1.—Raymond Calkins, 11 years of age, in a fit of anger, put muriatic acid in his mother's coffee jar. Mrs. Calkins drank some of the coffee, but detected the bad taste before any harm had been done. When found the boy was led to confess that he put the poison in the coffee to get even with his mother for having punished him.

900 May Have Drowned.

Tacoma, Sept. 1.—The Hong Kong Daily Press is authority for the statement that 900 Spaniards, including sixteen priests, lost their lives several weeks ago when the Spanish gunboat Leyte was captured by a vessel belonging to Rear Admiral Dewey's squadron.

## THE MILES INTERVIEW.

President McKinley Will Order an Investigation.

Washington, Sept. 1.—Officials of the War Department are convinced that the outcome of the controversy between General Miles on one side and Secretary Alger and General Corbin on the other, either will be a court martial ordered by the President or a court of inquiry requested by General Miles. It may be announced with authority that the President is much irritated by the unfortunate situation. When he left Washington he had in contemplation an investigation of the whole affair. His subsequent action will depend on what General Miles says about the interview when he returns to this country. If the General denies its authenticity and does not himself ask for a court of inquiry, the case will drop. But General Miles is not likely to deny the interview. Otherwise it is almost certain to be ventilated in an official investigation.

Aguinaldo To the Powers.

Manila, Sept. 1.—Aguinaldo, the insurgent leader, has issued a memorial addressed to all the foreign powers reciting the fact that the Filipinos have formed a government under the constitution adopted on June 23.

He adds that the Filipino forces have since carried on a campaign of liberty, taken forty provinces, and have reduced Manila. They have 9,000 prisoners.

Peace and tranquility prevail in the conquered provinces, and there is no resistance to Aguinaldo's authority. The campaign, the memorial says, was conducted with due regard to the rules of civilized warfare.

He asks for the recognition of the independence of the Philippine Republic, or, failing in that, to grant the Filipinos belligerent rights. The United States are not mentioned in the memorial.

Honor for Colonel John Hay.

London, Sept. 1.—The National Review, referring to the recall of the United States Ambassador, Colonel John Hay, to become Secretary of State, says it considers Colonel Hay to be the best Ambassador accredited here in recent years, adding:

"He has spoken well and not too often; he has abstained from being more British than the British; he has refrained from fulsome flattery, nor has he indulged in postprandial gush, but he has missed no fair opportunity of promoting friendly Anglo-American relations and has been emphatically the right man at the psychological moment."

Broke Jail to Go to Battle.

Oswego, N. Y., Sept. 1.—Andrew Gardiner, a trooper of the First Volunteer Cavalry, who was in the fight before Santiago, is now a prisoner in the county jail here. While awaiting trial prior to the breaking out of the war, on indictments charging him with burglary and grand larceny, he escaped from jail, and a letter from Montauk Point to a relative revealed his whereabouts. He was brought here to-day by Deputy Sheriff Murphy.

Plan to Remove Columbus's Body.

Washington, Sept. 1.—Madrid advices received in Washington to-day say that the Count De Las Infantas, said to be one of the descendants of Christopher Columbus, has held a conference with Senor Sagasta, begging him that the body of the illustrious navigator be immediately transported from Havana to Spain and reinterred in the royal chapel at Madrid with the full honors of an admiral of the royal Spanish navy, the highest rank held by Columbus.

Editors On Field of Honor.

Vicksburg, Miss., Sept. 1.—Charles A. Scott, editor of the Bolivar County Democrat, and Captain C. E. Wright, of the Vicksburg Dispatch, met on the field of honor to-day and exchanged two shots each.

The duellists were lined for a third shot when officers appeared on the scene and stopped the battle. The difficulty grew out of an editorial controversy on the failure of the Rosedale Bank.

Gen. Wheeler Cuts Red Tape.

Camp Wikoff, Montauk, L. I., Sept. 1.—General Joseph Wheeler has sent out to cut some more of the red tape that has been responsible for the misery in Camp Wikoff. He began to-day by calling down the surgeons who have been letting men die because they would not or could not get medicines. As a result of his vigorous methods the general hospital is in better shape to-day.

Cervera Will Be Honored.

Washington, Sept. 1.—News received in this city from Cadiz shows that by order of the Secretary of the Spanish Navy a flying squadron of Spanish ships is making preparations to go to Southampton, England, to await the coming of Admiral Cervera and the officers under his command, whom they think will be released soon.

Woman Elopes With Boy of Twelve.

Binghamton, Sept. 1.—The arrest of a Delaware woman for eloping with a boy of 12 has caused a sensation at Delhi. The woman is Mrs. Mary Brownell, wife of a Delaware & Ulster Railroad conductor. She is the mother of several children. The boy is Gus Stewart, son of Robert Stewart, of Delhi.

900 May Have Drowned.

Tacoma, Sept. 1.—The Hong Kong Daily Press is authority for the statement that 900 Spaniards, including sixteen priests, lost their lives several weeks ago when the Spanish gunboat Leyte was captured by a vessel belonging to Rear Admiral Dewey's squadron.

## ALGER DEFENDS HIS WORK.

He Says There Will Be No Investigation as It Is Unnecessary.

### PRAISES THE OFFICIALS.

All of the Bureaus in the War Department Have Acquitted Themselves Magnificently.

If There Has Been Any Lack of Supplies, Food, Medicine or Clothing It Has Been Due to the Officers or to Unavoidable Circumstances—The Plans of the War Department for Mustering Out Troops.

Washington, Sept. 1.—Secretary of War Alger gave to the public a very elaborate explanation of some of the features of the conduct of the War Department during the entire war, and emphatically declared that there would be no investigation of any branch of the service; that no investigation was necessary, and that there was nothing to investigate.

"The statement that there will be any investigation of the Quartermaster-General's Department, the Commissary-General's Department or of the Surgeon-General's Department is absolutely untrue," said the secretary.

"All of them have acquitted themselves magnificently throughout the whole war, and there is no fault to be found with them. If there has been any lack of supplies, food, medicine or clothing in any of the camps it has been due to the officers in command or to unavoidable circumstances. Food, clothing and medicines have been everywhere provided in abundance, and there has not been a requisition for anything that has not been promptly filled. All an officer had to do was to notify the department what he needed and it was immediately sent to him. Of course, in many instances, supplies were allowed to get short before other supplies were ordered. This is due partly to the fact that no one had an adequate idea of the immense amount of stuff that would be needed.

In speaking of the plans of the department for mustering out the troops, the Secretary said that every soldier who had been to Santiago would be mustered out as rapidly as possible, and that 100,000 to 150,000 men would be mustered out before fall. In the case of the men at Montauk it would be necessary to detain them in camp until all danger of yellow fever was passed. They would then be sent to their States by railroads and there mustered out. Each man would receive a sixty-day furlough when mustered out, which would give him an opportunity to rest and to look about for work. In the case of the sick they were being furloughed as fast as they were able to leave the hospitals and transportation given them to their homes.

"Everything that could be done for the comfort and future welfare of the soldiers was being done by the War Department, and it was felt that after putting the men in good condition and giving them a sixty-days' furlough the Government had done all it could possibly do.

FOR UNIVERSAL PEACE.

The Czar Proposes a Congress of the Nations to Discuss It.

St. Petersburg, Sept. 1.—By order of Emperor Nicholas, Count Maravloff, the Foreign Minister, on the 24th inst. handed to the foreign diplomats at St. Petersburg a note declaring that the maintenance of peace and the reduction of the excessive armaments now crushing all nations is the ideal for which all governments ought to strive. The Czar considers the present moment favorable for the inauguration of a movement looking to this end, and invites the powers to take part in an international conference as a means of thus assuring real and lasting peace and terminating the progressive increase of armaments.

The Czar's proposition is likely to produce a sensation throughout Europe, and, coming from such a quarter and with such evident sincerity of purpose, it is likely to have important effects. There is no doubt that with Russia taking the lead in such a step Germany, France and the other nations will be ready to follow.

Eight Sure to Come Off.

New York, Sept. 1.—That the Corbett-McCoy fight will come off on Oct. 1, the new date agreed on a few days ago, is a fact not now questioned by many sporting men. Just after the tragic death of the former champion's parents it looked as if the whole affair were off.

Corbett is on his way East from San Francisco, and is expected to reach Asbury Park by the middle of this week. "Kid" McCoy is at Saratoga and will resume active training at once.

Surgeon-General Terry's Illness.

Albany, Sept. 1.—Surgeon-General Terry, of Gov. Black's staff, is ill in the Homeopathic Hospital in Utica, as a result of his inspection of the United States military camps in the South. He arrived in that city last evening, his condition necessitating the abandonment of his contemplated tour of the camps in company with Gov. Black.

Two Counterfeiters Caught.

Washington, Sept. 1.—Chief Wilkie, of the United States Secret Service, has been notified of the arrest at Texarkana, Ark., of J. H. McQuirk and James Covin, alias Capeton, and the capture of \$3,610 in counterfeit \$10 silver certificates.

The conduct of the American troops at Manila has been admirable. The town has been wonderfully free from disturbance.
