Berlin Fears a French Crisis.

Berlin, Sept. 27.—The German press regards the situation in Paris as extremely critical. The National Zeitung compares it with the situation of the Spring of 1870 during the reign of Napoleon. Only an immediate revision of the Dreyfus trial, it says, will avert the imminent disaster.

The Hanoversche Courier fears an outbreak of Chauvinism which might evoke another war with Germany. There is also great consternation in diplomatic circles over the continued threatening aspects of affairs in the Orient and the unceasing sending of Russian and English troops to Crete. It is doubted if the Kaiser, under such menacing conditions, will persist in his plan of visiting Palestine this Fall.

Nancy Guilford Found.

Bridgeport, Conn., Sept. 29.—Dr. Nancy Guilford, who is wanted for the murder of Emma Gill, is under arrest in Liverpool, England. States Attorney Fessenden received a cablegram saying that the Scotland Yard detectives had found the woman supposed to be Mrs. Guilford, who was a passenger on the steamer Vancouver, which sailed from Montreal. Mr. Fessenden at once cabled to arrest the woman, and steps were at once taken to get the necessary papers to bring her to this country, and the State Department at Washington was advised of the desire of the Connecticut authorities to have Mrs. Guilford held until an officer with papers for her removal to this country arrived.

Lacret Opposes Garcia's Views.

Santiago de Cuba, Sept. 27.—General Lacret Morio has published a strong letter he has written to General Sanchez stating that America must give up the control of Cuba, or otherwise political suicide for the Cubans would result. Better any fate than that, he says; better to return to the woods and fight.

Corbett Stops Training.

Asbury Park, Sept. 27.—Corbett and his retinue of trainers have broke camp and left for New York. The champion said that he was tired of training when there were no positive assurances in sight that his proposed fight with McCoy will come off. Corbett had intended remaining here until the second week in October, and it was a surprise to his friends when he announced his determination of getting out.

Manila, Sept. 27.—When the American auxiliary gunboat Hugh McCallough captured the Philippine steamer Abbej on August 24, an insurgent gunboat followed her to Cavite harbor. MOUNTED CUBAN POLICE.

General Wood Formulating a Plan for Guarding the Province of Santiago.

COL. HOOD TO COMMAND

Will Take Best Cuban Soldiers and Put Each Detachment Under an American Officer.

Conquered Territory to be Thoroughly Policed—The Cuban Officers to be Given Subordinate Commands—Thirty Schools That Will Teach Both English and American History.

Santiago de Cuba, Sept. 28.—Gen. Wood, the Military Governor of Santiago, is formulating a plan for the establishment of a mounted police force for service in the interior of the province. In his communication to the Washington authorities concerning his plan, Gen. Wood will recommend that Cubans who have voluntarily surrendered their arms and acknowledged American authority in the territory conquered from the Spaniards be employed on the force. Only the most energetic men of this kind, who stand well with their Cuban officers and have good moral characters will be selected as rural police. The men will be required to undergo physical and mental examinations, and must be skilled in handling firearms.

The best of Cuban officers, many of whom have come into Santiago during the past fortnight without money or means of subsistence, the result of three years' campaigning in the field will receive subordinate commands, such as Sub-Lieutenants, First Lieutenants, Sergeants and Corporals.

It is understood that Col. Duncan Robert Hood of the Second Immunes will command the rural police. Col.

GENERAL WOOD.

Hood, in spite of his youth, has proved himself to be an energetic and capable officer.

Gen. Wood is determined to maintain perfect order in the conquered territory, and to protect the lives and property of citizens in even the most remote parts. He will not tolerate interference with workmen on plantations or in the mines by members of the so-called Cuban army or others. The rural police will be armed with carbines, machetes and revolvers. The men Gen. Wood proposes to select for the guard understand the country and the people. Gen. Wood believes that with rigid American discipline he can in a short time have a highly efficient force in service.

Thirty schools will be opened in the city of Santiago on next Monday. All the municipal schools will be free, and the city will furnish books. Every facility will be afforded to Cuban parents for the education of their children. The school system will embody only the best features of the old Spanish scheme. The general lines of the American plan will be followed. Sectarianism will be entirely eliminated, and the study of the English language and American history will be included in the course.

Scandalized the Queen.

London, Sept. 27.—The new regulations for the Queen's drawing rooms, which will be in force next season, are due to the Queen's annoyance at the scandals discovered this and last year. It was found that impudencious ladies of rank were advertising, for fixed sums, to bring out young ladies who are rich but not in society. The terms included presentation at court and the run of the London season. The idea of presentations being sold was a severe shock to her Majesty. The presentation lists were scanned more carefully than ever. It was not discovered that there was anything against the personal character of the ladies thus presented which would disqualify them from being received by the sovereign.

Madrid, Sept. 27.—Ten thousand Spaniards in Porto Rico, who are resolved to abandon the island rather than remain under the American flag, have demanded repatriation at the expense of the State. The Government has referred the question to the Council of State.

Some Pointed Questions

Does your urine contain any sediment? Is the lower part of your back sore, weak and lame? Does your urine have a whitish, milky color? Is there a smarting or scalding sensation in passing it? Does it pain you to hold it? Do you desire to urinate often, especially at night?

If you have any of these symptoms, your Kidneys are diseased and your life is in danger. More people die of such disorders than are killed in wars.

Dr. David Kennedy's Favorite Remedy is a direct and sure cure. It goes straight to the seat of diseases in the Kidneys, Bladder and Blood. It hunts out and drives from the system all the impurities that cause pain in the back, Stone in the Bladder, Bright's Disease, Urinary Troubles, and diseases of the Stomach and Liver. It acts at once. There is no long waiting to see if it will help.

"For years I suffered with my Kidneys," writes THOMAS QUACKENBUSH, of Pittsfield, Mass. "The pain in my back was so severe at times that I was obliged to keep to my bed. I suffered awfully when passing water, which was often discolored with blood. I tried almost everything in the shape of medicine, but nothing seemed to help me. One day I got a bottle of Dr. David Kennedy's Favorite Remedy and used it but a little while when it braced me right up. My back became all right, no pain at all; my water cleared up and passed from me without pain, and I grew better in every way. I consider it a great medicine, as it has done wonders for me. My wife uses it for female complaint, and thinks it's the finest medicine in the world."
