

# EVERYTHING A SACRIFICE. MUST GO!

Consisting of Men's, Boys' and Children's Clothing, Hats, Caps and Gents' Furnishings,

has been bought by

## REFOWICH BROS.,

who will continue the business at the same stand in the Refowich Building. Mr. I. Refowich, who so ably conducted this clothing store here for so many years until a few years ago, will again take charge of the establishment and will once more give the people of Freeland and surrounding towns as large and fine an assortment of clothing to select from as can be had anywhere. He will have all goods manufactured at Freeland, and again you will be able to buy Refowich's Home-Made Clothing, which the public well knows will outwear and outlast any other make of clothing sold in the market. In order to make room for the immense stock which will immediately be manufactured on the premises, Refowich Bros. have decided to sell out the entire line carried by the Guarantee Clothing Company at less than 42 cents on the dollar. The Guarantee people did not wish to remove this tremendous stock to the city and sold it to us at less than the cost of material, hence we can offer it to you at prices far below the ordinary rate. Remember this was to be the first fall season of the Guarantee Company in our town, so the stock is strictly new, made up in the latest styles, having been prepared for this season's trade. The cloth is of the finer grades and every garment contains the best workmanship. This purchase also included a large and very well assorted line of fine piece goods for overcoats, suits and trousers, many of them being imported goods.

**THIS IS THE CHANCE OF A LIFETIME!** We have been wide awake to your interests—be wide awake also, and take advantage of it. During our many years in business we can state positively that never before have we known of such a sacrifice as this. On account of the necessary preparations required for this great sale, the big store has been closed for the past few days, but it will reopen and these goods will be placed on sale on

# SATURDAY, OCTOBER 15, 1898,

AT 7 O'CLOCK A. M.,

### Labor and the Machine.

Labor stands pleading at the doors of the legislature, each succeeding session, for relief from its thousand and one ills. It asks that the so-called labor laws heretofore enacted and that have proved to be unconstitutional, impracticable or worse than the laws they superseded, be taken up and so amended as to give them force and effect for good purposes.

It pleads that the measures it presents shall not be handed over to machine-made committees in the senate and house, to be either throttled therein, or to have all the life and spirit taken out of them, so that they are not, as passed, worth to labor the paper on which they are written. It pleads that committees shall be no longer made up to suit the monopolies of the state, to recommend bills the monopolies want and negative those to which the monopolies object, and generally to exploit the monopolies for money to run the machine campaigns.

It asks no special favors, but wants the right to live and make a living by honest and fairly paid work, and that the leaders in the lawmaking shall give some heed to the fact that when labor is not prospering, the state cannot prosper. The producer is also the consumer, and when his ability to buy is cut off by selfish monopolies, created and fostered by machine legislatures and executives, all classes must suffer.

It pleads that when departments and bureaus are created ostensibly for its benefits they shall be officered by clean and capable men who will do their duty faithfully and fearlessly and not, as too often happen, to the machine heeler who recognize no allegiance but to the machine.

Finally, it pleads, for a governor like Jenks, who has not and never had connections with monopolies of any kind, who has never, though a great lawyer, served any form of corporation, who is a plain man, in fully sympathy with the plain people, utterly untrammelled and prepared for anything that will uplift the people and progress the state.

With such a man as the chief executive and a legislature against the machine, labor's plea will be heeded and its causes for complaint will disappear.

### WHAT IT COSTS

To Run the State Department Under Quyanism as Compared With the Cost Under Democratic Management.

Executive offices	\$517,000	\$1,513,971
Legislative expense	\$41,111	724,828
Judicial expenses	967,000	1,342,682
Printing and binding	605,863	1,139,984
	\$2,630,980	\$4,722,465

These figures need little explanation. They show that in fourteen years, under the unbroken direction of Republican lawmakers, executive departments have been multiplied, salaries increased, new and useless deputies and clerks employed and contingent funds padded, until from a half a million, our executive expenses have swelled to a million and a half for each two years.

They show that while the number of senators and members and the allowances for mileage, stationery and postage are the same as in 1883, by increasing the already large enough force of clerks and other employees, by adding enormously to contingent expense to fee party favorites, by awarding pay for regular committee services, by creating whitewashing and fraudulent investigating committees (whose perquisites were not vetoed), by piling up the cost of contested elections, etc., they have swelled the charge upon the people for holding a legislative session about \$200,000, or over 35 per cent.

They show that the expenditure for printing and binding the often worse than useless state publications has almost doubled since 1883, although the actual cost of doing that kind of work has been very materially reduced in the interval.

They show that even the bench has been made to contribute to the imposition largely by laws that multiply the number of judges beyond all reason and then making statutes that enable some of them to add almost 50 per cent to their legal salaries by holding court in other districts in years when, in order to keep up with the trial lists, they must have other judges come and hold court in their own districts.

They show, in brief, that under Republican rule, the system is rotten from core to rind, and that there is but one chance for real reform, which lies in electing a Democratic executive administration and a Democratic legislature.
