ADVANCING DEMOCRACY.

SKIES ARE BRIGHT WITH SIGNS OF VICTORY IN OLD LUZERNE.

Chairman Dasch and His Assistants Are Working Hard for the County Candidates and a Glorious Triumph Is Indicated by the Reports Coming In.

As the campaign advances it becomes more apparent to the eye of the calm and intelligent observer, that Democracy in Luzerne is not only holding what it gained last year, but is making steady inroads in the common enemy. At headquarters in this city, says the Wilkes-Barre Newsdealer, old campaigners assert that it brings back recollections of the long-ago, when Democracy was the one great ruling party, to see the haste and bustle that is afoot.

Mr. Davenport, the attractive congressional candidate, is winning friends every day. He is making a magnificent canvass and will bring to the polls every Democrat in the county, and if this is done his success and that of the whole ticket is sure. There is no brass band about this gentleman. He has no agents out with contributions from a big bar, working along the highways and byways and especially in the dark recesses of the night.

UPPER LEHIGH NOTES.

The Betterly death benefit dispute, the circumstances of which were explained in these columns recently, was settled finally on Saturday, when the employes received their September pay. Half a day's wages was deducted from each employe, notwithstanding that the vote taken on the question last week was 168 to 60 against paying the money.

Dr. H. M. Neale was called yesterday to Berwick, and was driven there by Liveryman O'Donnell, of Freeland.

William Challenger is spending a week with Scranton friends.

May Form a New Union.

The quarterly meeting of delegates representing the temperance societies of the Fourth district of the Scranton union was held yesterday at McAdoo. The question of forming a new union, embracing the societies of lower Luzerne, Carbon, part of Schuylkill and towns in the Lehigh valley, formed the principal subject of discussion.

Wants Careless Miners Arrested.

William Stein, mine inspector for the First anthracite district, has requested the state bureau of mines and mining to prosecute Michael Mackinowski and Michael Garlot, two miners of Shenandoah, for causing the death of Stephen Smolesky, in the Ellangowan colliery last Wednesday, by alleged criminal carelessness.

Mr. McGinty is putting up a brilliant fight and his friends are proud of him. He has been ceaselessly at work since the battle opened and there are no signs of his tiring.

Week's Engagement Ended.

The Labadie Company ended its week's engagement here on Saturday evening by presenting "For Liberty" to a large house. The play was not given in the company's usual creditable manner.

JENKS AT HAZLETON.

Rousing Reception Given the Democratic State Candidates. One of the largest political meetings held in the Hazleton region for years took place on Saturday evening. The Democratic state candidates were present and addressed the gathering, and Hazle hall never held a more enthusiastic body of men than was there assembled.

Hon. George A. Jenks, the candidate for governor, was the first speaker. His address was confined to state issues. It was a mastery of calm and dispassionate, but filled from beginning to end with proofs of the terrible corruption that exists in the departments of state in Pennsylvania.

William H. Sowden, of Lehigh county, the candidate for lieutenant governor, followed Mr. Jenks. His address was the most sensational of the evening. The charges of dishonesty, common thieving and robbery of public funds which he made against Quay and the tools of the boss were not of the general and vague order, but specific instances were named and the proof furnished.

His story of the sale of postoffices in Lehigh county, which Quay miserably failed to refute, was repeated, and supplemented with additional details of the scandal attached to the appointment of a postmaster at Hazleton. He told how Thomas A. Harris, of Latimer, who was sent to Harrisburg to vote for Leisnering for governor, was given notice in the presence of C. W. Wilde, William Schwartz and William Adams, at Harrisburg, that he (Harris) must vote for Quay's man Stone for governor, otherwise Harris' friend, William Powell, would not be appointed postmaster at Hazleton.

He told how Harris then betrayed Leisnering at the command of Boss Quay and Congressman Morgan B. Williams, voting for Stone instead of for Leisnering, and for this perfidy and treachery to the Republicans of the Fourth district Powell was given the postmastership. Numerous other similar cases were told of by the speaker.

Captain DeLacey, of Scranton, candidate for secretary of internal affairs, who wears a congressional medal for bravery in the civil war, was next and gave an entertaining speech.

Stanley W. Davenport, Joseph J. McGinty and Dr. Singer, county candidates, also delivered addresses, and their reception was such as to fully convince them that lower Luzerne will do its duty on election day.

What the AnimatSCOPE Shows.

From the Nanticoke News, September 19. The Niver AnimatSCOPE Company presented its new and unrivaled entertainment to a large and appreciative audience on Saturday evening. Many interesting and thrilling life-motion scenes of the Spanish-American war were produced in picture form on canvas, life-size. The cavalry charge of Roosevelt's Rough Riders near El Canoy was exceedingly fine. The full charge can be seen coming up the Cuban hills at a very rapid gallop until they come immediately before the audience and then they pass in full size off the screen to the right.

The famous dynamite gun is shown in the battlefields while the cannons are booming on all sides, as it was operated by the Ohio volunteers at Albinia; the wonderful gun is loaded before the audience and discharged to the right in a manner that makes one tremble on account of its likeness to reality.

The Seventy-first regiment of New York city is seen in parade and under a difficult drill; the American flag waves proudly over the brave boys as they march along under martial tread; great crowds of people are seen on all sides witnessing the event.

American marines are seen to climb the flag pole in front of the Spanish fort at Cavite, near Manila, and tear down the hated Spanish ensign from its dignified position and the Stars and Stripes are raised instead. The scene of a bull fight which took place at Seville, Spain, while the Spanish-American war was hottest, was presented. There were many other scenes which show men struggling for their lives while the American flag proudly floats over them on the smoky battlefield. All pictures are clear and distinct, being from the jerky, eye-straining motion peculiar to most picture machines.

Between the pictures the audience is entertained by Edison's very latest phonograph, which is very loud and clear, being very distinctly heard in every part of the auditorium. The records are appropriate and unexcelled. At the Grand opera house Wednesday evening. Proceeds for the benefit of the English Baptist church.

Card of Thanks. We kindly and sincerely thank the friends and neighbors who assisted us during the sickness and death of our son, Patrick, and especially the Good Wills Athletic Association for their floral offering.

Mr. and Mrs. John Cannon and family.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable.

For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.
