

EVERY MAN
Ought to have two eyes open when he is awake and only one eye closed when he is asleep.
It's the man with his eyes open—the wide-awake man, as we call him—who sees the opportunities of life; sees them and seizes them, nothing escapes him.
The Sleepy Man walks down the street and sees only a number of stores, all somewhat alike. He fails to become impressed.
On the other hand the Wide Awake Man notices the air of business about our establishment. The goods catch his eye, he prices them, he buys and he gets in a bargain. He has made money. No wide-awake man passes our store. It is always attractive—something new every week. Our stock of

Fatal Accident at Upper Lehigh.
John Mealing, of Upper Lehigh, was killed yesterday in No. 6 mine at that place by a fall of top coal. He was engaged in robbing pillars, an extremely hazardous occupation. Mr. Mealing was known as a careful miner.
Mr. Mealing was a resident of Upper Lehigh for thirteen years. He was aged 48 years, 6 months and 16 days. Besides his widow he is survived by seven children, the eldest of which is Mrs. Fred Bell, of Freeland; also by a brother, William Mealing, a mine foreman at Upper Lehigh.
The funeral will take place at 2 p. m. on Sunday under charge of Undertaker Albert. Interment will be made in Upper Lehigh cemetery.
The deceased was a member of Commandery No. 6, Knights of Malta, and Castle No. 65, Knights of Mystic Chain, of Freeland.

Trials of a Fat Man.
"Yes," said the fat man, "I am learning something of bargain hunting. My wife has long been telling me about the fine bargains she has been getting—goods marked down from \$1.50 to 98 cents, &c. So I concluded I would try it myself the other day, and went to a clothing store that was selling out at 95 per cent below cost. I immediately began buying. I needed some shirts and bought several just because they appeared to be way below cost. When I bought them I knew that they were a half size too small, but I concluded that I could get into them. Now I find that I can't wear them, and have decided to diet myself to fall off so as to fit those very shirts. To do this I will have to deprive myself of all good things simply because I got the idea that anything below the marked price was a bargain. Of course I bought collars to fit those bargain shirts and spent everything I had."

A Mean Crawl.
Mother—Why, what grieves you, Willie?
Willie—I asked pa if he could spell hippopotamus.
Mother—And what did he do?
Willie (sobbing)—He thought hard a minnit an' then got mad an' said he'd lick me if I bothered him again when he was readin'.

He Saw Plenty.
Tom—She promised to give me a kiss for every shooting star I saw.
Jack—How did you come out?
Tom—Well, I haven't collected the account yet, but her father landed on me about five minutes later and she owes me at least a million kisses now.

Well Provided With Fiction.
It happened in a book store.
"What can I show you, madam?" he asked. "Something in the line of fiction?"
"No," she answered slowly. "I think I'll try history for a change. I get enough fiction when my husband gets home late from the club."

The printing plant of the Hazleton Truth, which had been stored for some time in the D. S. & S. station at Drifton, was removed yesterday to one of the store-houses of the Cross Creek Coal Company. The railroad people intend to use all the rooms in the station after January 1.

John McKinley, Jr., left at 8:20 o'clock this morning for Fortress Monroe to join his regiment. Mr. McKinley has not yet succeeded in driving the Cuban fever out of his system, but as an extension of his furlough was not granted he could not remain here any longer.

Light and Police Affairs.
The question of light was taken up by Freeland council at the adjourned session on Monday evening, and the result of the deliberations was that the new applicants were given privilege to erect lamps in some of the dark territory of the borough so the people can see for themselves what sort of light the outside companies can furnish.
The light committee, through Chairman Kline, read a number of replies received from various towns and cities in Pennsylvania, New York, New Jersey and Ohio, giving the prices paid and the conditions upon which their streets are lighted.
As the figures varied so much it was not possible to arrive at any definite average, and the council agreed to meet as a committee of the whole at Solicitor Stroh's office Wednesday (last) evening to tabulate the prices and discuss the question.
Previous to this action, Mr. Maloney, of Scranton, representing the Welsbach Illuminating Company, Philadelphia, and Mr. Ober, of the Kitson Company, spoke upon the merits of their lights.
The council decided to allow each to light up a street where no electric lights are at present and a comparison will then be made.
The Welsbach Company will light up Main street, in the Third ward, South Heberton, and the Kitson Company Birkbeck street, from Main to Foster streets.
The police committee reported that in conjunction with the burgess and chief of police the charges made by President DePierro against Officer McNelis had been investigated and they had decided that the chief should administer a reprimand to the officer. The report was accepted, thus ending an episode which at one time threatened to assume large proportions.

Coal Prices Are Advancing.
Owing to the cold weather the anthracite coal companies have decided to make an advance in the price for all sizes at New England points of 25 cents a ton, to take effect immediately, and it is understood that it is the intention of the operators to make another advance within a very short time. Owing to the shortage of cars there is a great demand for all sizes throughout the anthracite and bituminous trades and many of the mines are being worked only part time as the amount of coal produced cannot be handled and there is a no place to store it.
The new price relates only to coal at points in the New England district and does not apply to the city and line and tidewater trade. It is stated, however, that there will also be an advance in price along the whole line, perhaps on the first of the year, although it is not believed that any material change will be made in the retail prices.
The anthracite output for the month of November was 4,800,000 tons, which is 300,000 tons greater than for the same period last year. It is stated, however, that if the different companies could have secured enough cars the output would have been considerably greater.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's catarrh cure is the only positive cure now known to the medical profession. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address,

Hall's Family Pills are the best.

Hazleton Opera House.
All lovers of refined stage art agree that James A. Herne's unconventional comedy-drama of American home life, "Shore Acres," is the strongest play of its kind ever produced on the English-speaking stage. In it there is absolute truth to nature and the characters introduced upon the scene come and go as people do in life. Certainly no other native work has ever shown the age and body of the time more vividly or faithfully. The closing scenes of the first and second acts are extremely interesting, and no one who has ever witnessed the final scene in the play will ever forget it. A thoroughly competent company, with the well-known character actor, Archie Boyd, at its head, has been engaged to present "Shore Acres" at Hazleton opera house tonight. Prices, 75, 50, 35 and 25 cents.

Twenty Dollars Reward.
This is the season of the year that pigs are killed. The Freeland Game and Fish Protective Club will make the greatest effort of their life to kill the game boys this winter, by paying a reward of \$20 for information that will lead to the arrest and conviction of any person killing or catching any game after Thursday, December 15, 1898, or any time before the season for such game opens in the year 1899.

THE POWER OF WOMEN.
Continued from First Page.
the stores of your town.
Many a woman pays dollars in car-fare, walks and shops, crowds and is crowded, and comes home a self-constituted wreck, bringing with her something she had purchased; and as she drags her tired self along the homeward street, her drooping eyelids open wide enough for her to see within the window of her own town store the same article at the same price.
Don't for a moment think that I would be as foolish as to say it is a woman's duty to buy everything at the local stores unless it pays to do so, for I am aware that there are exceptional towns where the local stores are not worth patronizing, but I know from experience that in ninety-nine per cent of the local towns of fair size, the stores carry goods good enough to satisfy the reasonable demands of sensible people.
You have a duty to perform, and that duty is for you to support your town from progressive motives as well as from selfish motives.
If your local stores don't carry the goods you need, the chances are it is your fault, not theirs. They cannot afford to carry good things in great variety if you spend your dollars abroad and your cents at home.
Give your stores the opportunity, and they will give you the goods.
Spend your money in a distant city, and all you will receive are the goods you buy. Spend it in your town, and it will come back to you, not only in the goods you buy, but in better streets, better schools, and better everything.
Spend your money away from home, and you receive back the principal. Spend your money at home, and you get back the principal and everlasting interest.
Read your local papers. It's your duty to know what is going on about you. A family without a local paper is to be pitied, because it must depend upon the charity of its neighbors to learn what is going on.
Read the advertisements of your local stores.
Keep posted on the business of your town, as well as upon the social functions. I am aware that some stores misrepresent in their advertising, and I also know that you can get cheated at the stores that don't advertise.
All things considered, the store which wants your trade enough to invite you to give it to it, is the safest and best store to trade at, and this store advertises.
The store that advertises is the store that is known, and the store that is known is the store that the trade goes to, and the store that the trade goes to is the store that does the business, and the store that does the business is the store that cannot afford to cheat.
So long as there is money there must be business, and the business of a town is the maintaining element of comfort and progress.
The town is yours, ladies.
What are you going to do with it?
