the stepping stones to dens of iniquity. Small Coal Cars Must Go. What are known as the "jimmy" coal cars will soon be a thing of the past. At one time there was a large number of these cars in use on the anthracite coal carrying roads, but the number has been greatly reduced in the past few years. Recently some of the more prog-ressive lines refused to haul these cars and the roads that possess them have had to confine them to their own tracks as far as possible. The Philadelphile and Basdian Bail

had to confine them to their own tracks as far as possible. The Philadelphia and Reading Rail-way Company years ago had a large number of thess small cars, but for some time past it has been getting rid of them, and when one has been badly injured it has been consigned to the scrap pile. All the new cars are of larger size. The law which requires all freight cars to be equipped with patent couplers has brought about a change in the character of the rolling stock of the railroad companies. Not only are the small size coal cars being supplemented by larger ones, but the new freight cars are of larger capacity, and, on some of the lines, cars of 100,000 pounds capa-city are now in service. Cannot "Round Up" McCarthy. From Tuesday's Philadelphia Inquirer. The Inquirer regrets that it cannot grant the request of 'One of the Public' who writes to it from Audenried, asking that it shall compel the Honorable Dan-iel J. McCarthy to make good his charges against the Kline township, Luzerne county, school heard. The charges against the Kine township, Luzerne county, school board. The request is entirely relevant and we have no doubt that everything which our correspondent writes with respect to public laterest in the charges is true. But there are two reasons why this journal cannot "round up" the Honor-able Daniel J. McCarthy. The first is that the Audenried letter to the In-quirer was anonymous, a reason suffi-cient to preclude its publication, and the other is that nothing short of the swirl of a tornado can stop Mr. Me-Carthy when he is once in active opera-tion.

American Womea. Women are keenly competing with men in art and professional life in America, as is show by recent statis-tics. In the United States there are 4,000 actresses and 3:000 women vocal-ists and instrumentalists; 11,000 are professional artists, 890 journalists and 2,800 who are engaged in literary work of one kind or another. The number of wemen who are dramatic authors or theatrical managers is 600. To Water Takers. All water rents must be paid for the present quarter by April 3, or the water will be turned off without notice, and charges made for turning it on again. Freeland Water Company.
