Young Man's Terrible Death.
John Gallagher, of Drifton, was injured so badly in Oakdale colliery on Thursday morning that he died a few hours later. He was a son of James Gallagher, and resided at the family home in Drifton. He was aged about 25 years.
In company with Charles Mock, of Hazleton, he was working a breast. Shortly after 9 o'clock a heavy fall of rock occurred, in which Gallagher was caught and buried. After he was rescued from his dangerous position, it was learned that he was horribly mangled about the head and upper portion of the body.
A special traction car conveyed the injured man to the Miners' hospital. The physicians there agreed that his death was a question of a few hours only. His father and brother, Edward, then decided to remove him to his home.
When the car reached Jeddo it was met by an ambulance, and while being removed to the latter Mr. Gallagher expired.
The deceased was a well-known young man in this section, having resided hereabouts all his life. He was a brother-in-law of the late John McCabill, who met with a fatal accident in No. 5 mine, Jeddo, last March.
The funeral took place yesterday afternoon. A large body of friends and acquaintances of the deceased followed to the remains to their last resting place in St. Ann's cemetery.
Courthouse Site Arguments.
The injunction proceedings brought to restrain the erection of the new courthouse on Public Square were argued before Judge Woodward on Friday last. There was quite an audience present and for two hours they were treated to a display of oratorical fireworks by ex-Judge D. L. Rhone, George S. Ferris, John T. Lenahan and Hon. H. W. Palmer, each speaker by agreement being limited to thirty minutes.
The question at issue was presented with forceful eloquence and every legal point involved was presented in its strongest light from the point of view of the rival speakers. At the conclusion of the argument Judge Woodward took all the papers in the case and his decision will be anxiously awaited by those interested in the courthouse project.

BRIEF ITEMS.

A suit for \$5,000 damages for injuries sustained was entered at Wilkesbarre by William Mitchell and Margaret A. Mitchell, his wife, against Jerome and Addie Wickheiser. The parties are all residents of Forty Fort, and the plaintiffs allege that the defendants are the owners of a vicious dog which recently attacked and bit Mrs. Mitchell.
Frank Duffy, son of Burgess and Mrs. P. H. Duffy, of Mayfield, Lackawanna county, has died in Porto Rico. Duffy was bathing in a stream in the province of Pinar del Rio, when he was seized with cramps and sank within sight of his fellow soldiers. The deceased was 18 years of age and enlisted in the army last November.
During the electrical storm on Wednesday night Florence, the eighteen-year-old daughter of Mr. and Mrs. William Oswald, of Weissport, was killed, and Laura Weston, also of Weissport, was seriously injured in the Mononite church, which was struck by a lightning bolt. The building was partially destroyed.
"Lark" Sweeney, who is famous over the entire coal regions, was released from Carbon county jail last week after doing "time." This decreases the county guests to eight, one of whom is P. J. Furey.
Stephen J. Hons, of Hazleton, was placed under \$500 bail on Saturday to answer the charge of opening a letter addressed to H. J. Moyer.
BASE BALL DOTS.
The report that the Tigers park has been leased by Wilkesbarre parties is without foundation. The park is under control of the Tigers Athletic Club and all base ball played there will be under its management.
While playing ball at Ebervale yesterday two young men named Dougherty and Sweeney collided. Dougherty's collar bone was broken and Sweeney sustained a severe gash in the head.
Boner played with Atlantic City on Friday at Statington, but returned to Mauch Chunk on Saturday and will likely finish the season with the latter team.
Several local base ball admirers saw Mauch Chunk defeat Atlantic City, 7 to 4, on Thursday.
A Sweeping Tax on Hucksters.
Lehighton borough council has passed an ordinance making it unlawful for any person to peddle or to sell or to offer for sale, by sample or otherwise, by going from house to house within that borough, any milk, cream, ice, meat, bread, cakes, pies, flour, meal, grain, hay, straw, poultry, butter, lard, eggs, fruit, and all kinds of vegetables, produce and marketing, without first having obtained from the burgess a license.
A license fee has been fixed as follows: All parties with one wagon and one horse or mule shall pay 15 cents, and with one wagon and two horses or mules, 25 cents, which shall be good only on the day of issue; or at their option may take out and pay for quarterly licenses, which range in amounts from \$3.75 for bakers to \$8.75 for milk and ice dealers. Residents as well as non-residents must pay the license.

MINES AND RAILROADS.

The annual summer passenger traffic on the Lehigh Valley has increased a third over that of last year and is greatly in excess of that of former years. During the past week the Black Diamond trains have been made up of from six to eight cars daily instead of four as formerly. The increase in the passenger traffic is due to the energy of General Passenger Agent Chas. S. Lee, who in a few years has worked up this branch of the business from a common passenger road to one of the best lines in the country.
Agents of the New York, Wyoming and Western Railroad, the new independent coal line to be built from Scranton to New York, are quietly at work in Monroe county buying the right of way for the tracks. Not much has been heard lately about this road, but its projectors are pushing it along without noise. Over 7,000 tons of steel rails, enough to build forty-five miles of road, have been delivered at Tobyhanna. This is evidence that there is something more than wind back of the new line.
All train baggagemen on the Jersey Central Railroad must submit to an examination similar in method to the postal civil service examinations to prove their fitness for their positions. The employees are obliged to know the route of a piece of baggage from a given point to any point designated by the examiners.
The prospects are very favorable for the reopening of the York Farm colliery, near Pottsville, which shut down a few months ago, throwing 800 hands out of employment. The dismantling of the colliery has been stopped and there is a rumor that operations will be resumed very soon.
Rumors of trouble on the coal roads are increasing. Employees have numerous grievances which the officers do not appear anxious to consider. Eleven roads are involved and one of the greatest strikes ever known in the East is one of the possibilities of the near future.
The White Oak breaker at Archbald, Lackawanna county, was entirely destroyed by fire, Friday night. It was owned by the Delaware and Hudson Coal Company and its destruction entails a loss of at least \$50,000. A locomotive spark set fire to the breaker.
The most destructive fire that has visited the Wyoming region in many months occurred at Plymouth on Thursday, when the large Dodson breaker, owned and operated by John C. Hadcock & Co., was totally destroyed. The loss is \$60,000.
The Lehigh Valley Railroad is laying new 100 pound rails on the mountain cut-off in place of the lighter ones.
Hazle Township Teachers.
Hazle township school board appointed teachers on Friday evening. The following list was read and adopted by the votes of Directors Morgan, Hinkle, Welsh and Neilson, Directors Gallagher and Rohland voting against it:

Crabcrany—J. J. Thomas, Sue Gallagher.
Harwood—John Madden, Agnes Kinney, Ellie Christy.

Substitute teacher—Michael McMonigal.
Directors Gallagher and Rohland claim the appointments were illegally made and the board is threatened with test suits.
Among the fourteen teachers who were not reappointed are Charles Gallagher, of Jeddo, and Miss Hattie Cunningham, of Drifton.
The citizens of Tamaqua will decide at the next regular election whether the borough indebtedness shall be increased \$50,000 for the purpose of improving the water works.

COAL MEN LOCK HORNS.

OPERATORS SUE RAILROAD FOR \$350,000 DAMAGES.
Langellife Coal Company Claims That the Defendants Failed to Provide the Agreed Number of Cars—Decision Will Affect Several Individual Operators.
A suit to recover \$350,000 for damages was commenced last week at Scranton by the Langellife Coal Company, Limited, against the New York, Susquehanna and Western Railroad Company. The summons is made returnable at the next court of common pleas.
The statement of claim is not filed, but it is understood that the cause for the action is violation of contract and the issues involved are of unusual interest to those connected with the anthracite industry.
The Langellife Coal Company was organized as a limited partnership by Reese G. Brooks and Thomas H. Dale, who EFFECTED AN AGREEMENT with the New York, Susquehanna and Western Railroad Company for the delivery and sale of at least 200,000 tons of coal per annum to that corporation.
It is alleged that instead of taking that amount the railroad furnished cars for but 65,000 to 100,000 tons per annum. The agreement also specified that the railroad company should pay the plaintiffs certain prices and this it is claimed they did not fulfill.
The plaintiffs aver that in the running of their mines they are compelled to incur certain fixed charges which were regulated in view of the contract of the defendants to take a minimum of 200,000 tons of coal per annum. These fixed charges are the same whether the company mines 50,000 tons or 200,000 tons per annum, so that
OWING TO THE FAILURE of the railroad company to live up to its contract the plaintiffs claim that they have incurred a great loss.
Owing to the violation of the contract they have also, it is claimed, sustained a great loss in connection with the payment in advance of the royalties and thereby lost interest on the money thus paid. It is also claimed that the mine supplies, such as rails and ties, were provided and laid in view of mining 200,000 tons of coal per annum and owing to the decreased amount taken by the defendants the plaintiffs claim that they suffered considerable loss.
The progress of the case will be watched with unusual interest for the reason that a number of individual coal operators will be affected by the decision. In those cases it is also claimed that the railroad companies fail to furnish sufficient number of cars to meet the requirements of the mines.
