HIGH SCHOOL COMING.

FREELAND WILL BE UP TO DATE

ed-Some Changes Were Made.

As announced in the Tribune on June 29 last, Freeland is to take its place among the towns of the state where a higher education is given to the boys and girls who have passed through the common branches.

The first step in what might be termed the new era of education in this town was taken by the school board on Monday evening, when Prof. William S. Houck, B. S., of Berwick, was added to the faculty.

Houck, B. S., of Berwick, was added to the faculty.

The Tribune has learned that the selection of Prof. Houck will be follow-ed by the establishment of a high school of exceptional merit, one which from the very beginning will commend itself to every friend of education in the horough. to every friend of education in the corough.

It is the intention of the directors to

It is the intention of the directors to formulate an academic course of three years, which will embrace studies that shall place the school on par with any in the county, and will enable the youth of Freeland to obtain at home the knowledge and learning, which, to secure heretofore, it were necessary to go elsewhere.

stile youth of Freeland to obtain at home the knowledge and learning, which, to secure heretofore, it were necessary to go elsewhere.

STUBES LIKELY TO BE TAUGHT.

The act of legislature of June 28, 1895, contemplates the employment in every high school of at least one peron legally certified to teach book-keeping, civies, general history, algebra, geometry, trigonometry, algebra, geometry, trigonometry, plane-surveying, rhetoric, English literature, Latin all cluding Cæser, Virgil and Cicro, and the elements of the following branches; Physics, chemistry, botany, geology and zoology, including entomology. Mr. Houck is legally qualified to teach all the above branches, and the school will likely have all or a greater part of these studies.

This step has been decided upon after a high school.

This ten has come when Freeland must step boldly forward and show that its people are as progressive on educational lines as in other matters, and to delay a year longer would be doing an injustice to the boys and girls of town who have no now ready and qualified by the excellent training given them in the common branches to enter those advanced studies which are taught only in the same profession, the two should make a combination which, with the assistance of the remaining members of the corps, will soon place the Freeland public schools on a plane to which out citzens can point with pride.

Another matter which the directors total, 10 seconds of the corps, will soon place the Freeland public schools on a plane to which out citzens can point with pride.

Another matter which the directors total, 10 seconds of the remaining members of the corps, will soon place the Freeland public schools on a plane to which out citzens can point with pride.

Another matter which the directors total, 10 seconds of the remaining members of the corps, will soon place the Freeland public schools on a plane to which out citzens can point with pride.

Another matter which the directors total, 10 seconds of the received the votes of all the dir

an up-to-date high school.

FRINCIPAL AND VICE PRINCIPAL.

The high school, as stated before, will be placed in charge of Prof. Houck as principal. Prof. E. F. Hanlon, the present supervising principal, will be vice principal. From what can be learned of Mr. Houck as a teacher and from what is known of Mr. Hanlon in the same profession, the two should make a combination which, with the assistance of the remaining members of the corps, will soon place the Freeland public schools on a plane to which our citizens can point with pride.

Another matter which the directors have considered in making these preparations is the opportunity that is here at present to make Freeland an educational centre for the surrounding towns. The several villages hereabouts contain many boys and girls whose parents wish them to receive an advanced education and at the same time have them reside at home. With a high school in Freeland conducted on the standard intended there are sufficient out-of-town pupils ready to apply for admission here and pay tuition fees which will reimburse the board for any extra outlay that may be necessary.

NO INCREASE IN TANATION.

In any event, there can be no increased taxation. With an additional state appropriation and economical management of the revenues the high school will cost the people of Freeland a sum insignificant when compared with the good that should result from its establishment.

lishment. The high school will be located in the Daniel Coxe willding on Washington street. It is learned from a reliable source that the board will in the near future, probably at the close of the next term, remodel the third floor of this commodious structure. Recitation rooms will be formed and all the necessary scientific apparatus will be installed. The cost of this would be very light, as the building is well adapted for the alterations intended.

forts in behalf of the schools and win a short while elevate them to the

highest level attainable.

SERTCH OF THE NEW PRINCIPAL.

In this connection a brief introduction of Prof. Houck to our readers may be given. The new principal is a graduate of Dickinson college, Carlisle, where he received the degree of Bachelor of Science. He is about thirty years of age. He taught in Berwick schools seven years, the last two of which were served as vice principal of the high school.

Before agreeing to his election a majority of the board investigated his

which were served as vice principal of the high school.

Before agreeing to his election a majority of the board investigated his character and ability, some of them visiting Berwick for this purpose, and the result was more than satisfactory. He is highly recommended as a teacher and disciplinarian by the Berwick board, and as a gentleman of ability, good judgment and the possessor of executive tact every prominent resident of Berwick has vouched for him.

The school from which he comes holds an enviable position in educational circles. Graduates of Berwick high school are admitted to Bucknell, Dickinson, Cornell and other leading colleges without examination, the school

leges without examination, the school having attained such a high mark that a certificate from it is a passport to any institution of learning in this and neighboring states.

TEACHERS APPOINTED

The deposed teachers are Misses Mary Dougherty and Mary Herron.

ight, as the building is well adapted for the alterations intended.

GOOD NEWS FOR TEACHERS.

It has also been learned that the directors propose to establish a system in regard to teachers by which positions will be retained and promotions made solely on a basis of merit. All other considerations, it is claimed, will be of secondary importance in making selections hereafter. It is believed that such a system will act as an incentive to teachers to put forth their best ef-

PERSONALITIES.

John Cannon, of South Centre street, has given up his work as miner in No. 5 colliery, Jeddo, and will remove nest week to Allentown, where he has secured a position. Mr. Cannon's family will accompany him and will make their future home in that city.

John Boyle, proprietor of the St. Charles hotel of Freeland, was in town Tuesday and attended the funeral of the late Peter Gallagher. Mr. Boyle was a former townsman and is doing well in the lower end.—W. B. Record.

Miss Madge Boner, of Bavonne City.

BRIEF ITEMS.

Captain Daniel B. Kauffman died at his home in Tamanend, near Tamaqua, aged 69 years. He saw much active service during the civil war. He recruited Company A, Forty-eighth Pennsylvania Volunteers, and was made its captain. He is surviyed by a widow and four children.

A meeting of the board of poor directors was held at Laurytown on Tuesday. The only matter of any importance considered was the publishing of the names of those who receive out-door relief. Action on the matter was deferred until the next meeting.

Fred Burkhardt, who was shot and severely injured by Coal and Iron Policeman John Cook at Hazle Brook two years ago while the officer was looking for a Beaver Meadow murderer, has entered suit for \$5,000 damages.

Street fakirs have made money by selling novelties on the corners every evening this week.

CHURCH CHIMES. Captain Daniel B. Kauffman died a

CHURCH CHIMES.

On Sunday next Rev. W. C. Hall will preach at the usual hours at the Primitive Methodist church of Freeland. Subject for morning, "Marks of Genuine Christianity," subject for evening, "What It Means to Be a Minister of the Gospel." We invite everybody. W. C. Hall St. John's Reformed church, Rev. J. Kerschner, pastor. Services next Sunday as follows: Sunday school, 9.15 a.m.; English preaching, 10.30 a. m.; song service, 7.30 p. m. There will be no meeting of the Christian Endeavor Society next Sunday.

Three Farms for Sale.

George Sauer is offering at private sale three farms and a considerable amount of implements and stock at his house in Butler valley, one and one-quarter miles above St. John's. One farm contains 100 acres, of which 65 are cleared. The second also contains 100 acres, of which 40 are cleared. Three borses, five cows, four heifers and other animals are also for sale, and a number of farm implements will be disposed of. The farms and goods will be sold separately or all together, as the buyers desire.

Engaging Trolley Cars.

Engaging Trolley Cars.
Superintendent John McNelis, of th Superintendent John McKells, of the Lehigh Traction Company, was in town on Tuesday evening and completed ar-rangements for the trolley cars to be used by the Tigers Athletic Club on account of the excursion to Hazle park

account of the excursion to Hazie park on August 19.

The first special train will leave Freeland at 7 p. m., the second at 7.15 and the third at 7.30 p. m. Each train will consist of two or more ears.

Special trolley trains will leave McAdoo at 7.20 and 7.35 p. m.

Saw Her Child Killed by Train.

A sad accident occurred at Ransom, a small station on the Lebigh Valley Railroad, five miles west of Wilkesbarre, Monday afternoon. The local train from Wilkesbarre had just arrived, and among its passengers was Mrs. L. E. Girton, wife of a farmer, and her six-year-old son, Fred. Mrs. Girton got off the train, carrying her boy in her arms. She did not notice the approach of the Black Diamond express from the west and started to cross the track. She had only made a step, when the locomotive of the express struck her. The little boy was knocked out of her arms and under the wheels of the rapidly moving train. The mother was hurled in the air but escaped the wheels. The boy was ground to pieces. Mrs. Girton was taken to Wilkesbarre hospital. It is thought she will recover.

hospital. It is thought she will recover.

Wilkesbarre vs. Lancaster.

Wilkesbarre and Lancaster Atlantic league clubs will be the attraction at the Tigers park on Sunday afternoon. Both clubs are playing very pretty ball this week and are struggling hard for third place, which is held at present by Lancaster. The fine exhibition given by the Wilkesbarre team on the 23d inst. should be an inducement to local admirers of the national game to turn out in force. All games played here are official, and the ball playing given in Freeland is the same as is seen on any league grounds.

The game will begin promptly at 3 p. m. The admission will be 25 cents.

Capt. William Astor Chanler,

Capt. William Astor Chanler,
