The voters of Freeland borough have spoken in no uncertain tone in favor of progress. By a vote of 515 to 133 they gave their assent on Saturday to issue \$15,000 worth of 4 per cent bonds for the following purposes:

Ten thousand dollars for erecting, furnishing and completing a town hall, including in the one structure, council rooms, fire department, municipal offices, a large hall, a public library and a lockup.

Fifteen hundred dollars for establishing an electric pumping station on the

Every ward gave a majority in favor of the increase of indebtedness, as is shown by the following vote:

A total of 648 votes were polled, or about 60 per cent of the voting population of the borough. The election passed off very quietly, and the result was accepted in the proper spirit by all.

The vote of the Fourth ward was beyond the expectations of the most ardent advocates of the bond issue. The majority given there, 138, was sufficient to overcome all the opposition in the entire borough.

the both green all the opposition in the entire borough. Every election district but one, the Second of the South ward, registered a majority for the increase, and the opponents carried that one by the narrow margin of 2 votes. This result was overbalanced by the Third district of the same ward, which gave 4 in favor of the increase, thereby giving a majority of 2 in the whole ward. After the result was made known the Citizens' band celebrated by rendering selections on the streets, and an address congratulating the people on the result was made by Hugh Malloy on the K. of L. lots, where the town building will be located.

L. lots, where the town building will be located.

As the erection of a town building was one of the principal features of the election, a brief review of the more important conditions upon which the K. of L. land was offered to the borough on October 17, 1898, ought to interest the citizens.

The conditions provide that the borough shall pay \$100 cash and the costs of transfer; that the borough shall erect a building on the land to cost not less than \$6,000; said building shall contain a public library and free reading room, equipped and open to all people as soon as the building is completed; work upon the building must commence within six months a wal must be finished within one year from date of transfer of land.

Is is also provided that the building shall contain one large room suitable for town meetings, and that on the cornerston of the building there shall be placed a tablet bearing an inscription in reference to the transfer of the land.

The proposition was made by the land trustees, under instructions from the local assembly of the K. of L., and was accepted by council. It is understood that the formal transfer of the lots to the borough will take place at as early a date as possible.

Mine Workers Convention.

About 200 delegates representing local unions of the United Mine Workers in the Luzerne, Lackawanna, Schuylkill and Shamokin districts, met at Wilkesbarre on Friday in convention, the first gathering of the kind in that city since the old days of the Knights of Labor.

Among the prominent labor leaders present were National President John Mitchell, of Indianapolis; Matonal Seretary W. C. Pearce, of Indianapolis; M. McKay, of Buena Vista, Pa., a member of the National Executive Board, and District Organizer James, of Jeanesville. National President Mitchell, in opening the convention, made a lengthy speech. He said he was opposed to strikes, but they had to be, then he favored remaining on srike till the last man dropped. He said he was vigorously opposed to any politics creeping into the union. A secret session was held and notthing was given out beyond the statement that only the routine business was transacted.

Discharged and Re-Arrested.
George Saunders, or Stevenson, and Alice M. Jones, of Wilkesbarre, who were arrested on board the Cunard line steamer Campania, on her arrival at Liverpool Saturday a week ago, charged with forgery in the United States, were discharged from custody when arraigned in a Liverpool police court Friday morning. No evidence was produced as to the guilt of the prisoners, and no instructions were received from Washington as to the disposal of the case.

After their discharge in the police court the prisoners were rearrested and taken to London to await the action of the Bow street police court on the arrival of extradition papers from the United States.

Former Residents Demented.
From Hazleton Plain Speaker.
A man named Eidleman, residing on Hayes street, and his wife, are in a demented condition and neighbors have become somewhat alarmed. The man is the more violent of the two. He has the house barricaded and is in constant dread of being attacked by imaginary enemies. Eidleman believes that burglers are always attempting to get into the place at night and one day this week a man passing by was suspected and almost assaulted by him. The people in the neighborhood will demand that Eidleman and his wife be removed to some asylum for treatment.

The many friends of Bernard C. Gallagher, whose home is on Walnut street but who is at present in the West, will regret to hear that he was one of the hundreds who lost all they possessed in the fire which destroyed Victor, Colorado, last week. Mr. Gallagher was at work that day and the flames burned everything he owned except the clothes he wore. The many friends of Bernard C. Gal

Anthracite Coal Trade.

From the Philadelphia North American.

"Prices on anthracite coal are much demoralized," said General Manager Henderson, of the Reading Coal and Iron Company, "and some of the big dealers have been cutting prices. When a company handles an inferior grade, cutting is the only way for it to do business. That is one way I have of explaining the trouble. Some time age the leading companies agreed that

adjusted their differences before snow flies, and consumers will pay the cus tomary rates. Early in the summe several of the big coal concerns were overstocked and the market was dull. Unsalable coal, and a lack of she room for it led several companies te reduce prices, among them the Nev Jersey Central, the New York Centra and the Ontario and Western. Some of the dealers fear that the bottom in rate cutting has not yet been reached. The cutting has not yet been reached. The point out that this week the anthrac trade is more demoralized than it when the trouble began in May.

when the trouble began in May.

Wants Heavy Damages.

A suit in trespass for \$10,000 damages has been entered in court against the Florence Coal Company, Limited, by Garmen and Angela Schtlin. A son of the plaintiffs, Anieldo Schtlin, aged 15, was killed at the breaker of the defendant at Dupont on October 10, 1898, and it is alleged that the accident which resulted in his death was due to the negligence of the company in not providing proper safe-guards.

The boy was attending the conveyors in the breaker and it was his duty to turn on and off the water to and from the conveyors. In order to reach the water-cock the boy was obliged to walk along a plank a foot and a half wide. The passageway, it is alleged, was unprotected by any railing potence, the

what Jealousy Has Done to a Party.
From the Nanticeke News.

The Republican party of Luzerne county have got the Democrats just where they want them. That is why there are so many Republican candidates for the various offices to be filled this fall. They believe, as they have good reason to believe, that a nomination is equivalent to an election. It is a sad spectacle for the men of a once powerful party in Luzerne county to gaze on. Jealousy, combined with a desire to ruin or rule, has left the Democratic mismanagers today fighting over the nomination of commissioners, because they can elect one of the three to be chosen. The Democratic organs are vainly trying to drag out candidates for the other offices. Thus are vainly trying to drag out cand for the other offices. Thus far have not been very successful.
