Minister Makes the Congregation and the Congregation the Minister.

Between a minister and his congregation there is an action and a reaction so that the minister makes the congregation and the congregation the minister, says Ian MacLaren in the Ladies' Home Journal. When one speaks of a minister's service to his people one is not thinking of pew rents and offertories and statistics and crowds; nor of schools and guids and classes and lectures. The master achievement of the minister is to form character and to make men. The chief question, therefore, to consider about a minister's work is: What kind of men has he made?

a minister's work is: What kind of men has he made?

And one, at least, of the most decisive questions by which the members of a congregation can be judged is: What have they made of their minister? By that one does not mean what salary they may give him, nor how agreeable they may be to him, but how the head of the man what have the head of the head o

HARE BREEDING FARM.

Novel Project of Ten Enterprising Pen vania Young Men.

A corner in rabbit meat in Western Pennsylvania, as well as Ohio Valley towns as far down the river as Cincinnati, is threatened. Ten enterprising young men of Allegheny have completed arrangements for establishing a breeding farm near Industry, the aim of the venture being to give more and better meat to the great army of consumers in this part of the country. The common, every-day township rabbit is not wanted, as he is a little too light for cornering purposes, but heavier Belgian hare, an advanced type of rabbit. "Bert" D. Taggart, of 513 Federal street, Allegheny, who is at the head of the venture, wants all the Belgian hares that he can possibly secure; 500 pairs are needed to get the venture started right, and Mr. Taggart expects to send to Europe for at least 300 pairs. Speaking of the project Mr. Taggart said lately:

"Should everything go well in three years we will be able to put our first product on the market. It may seem a long time and the money to be expended considerable, but we think it will pay in the longrun. We purpose to raise 1,000,000 hares per, year and to sell them, too. We will kill and sell them ready for the pot. One million looks like a whole lot, but it ain't so many when you know that the people of Pittsburg and Allegheny eat 1,000,000 rabbits every year. Ten thousand per day during the season is the amount consumed. We have figured long and closely, and with the Ohio Valley towns, which we can reach in twelve hours' run, we can easily dispose of 1,000,000 hares per year. I violate no confidence in saying that we expect to be able to furnish the hares dressed cheaper than the ordinary pot hunter who now supplies the market can shoot the wild rabbit.

"The Belgian hare is by far the better for our business. He is much larger and his meat is better. A Belgian hare will clean about four pounds, while our common rabbit will clean but two and a half pounds. The hare, too, is very prolific—a pair of good hares will produce at least three families of six each yearly. No one can find fau

wire used in chicken farms, and every effort will be made to protect the little animals and bring them on as fast as possible to the great and hungry public."

## POPULAR SCIENCE.

It is estimated that one crow will destroy 700,000 insects every year. An English mechanic has discovered that salt restores apparently drowned

In the British army in India there are about 1500 cases of typhoid fever every year, 300 of them fatal.

Scientific men generally believe that the bed of the Pacific Ocean was once above water and inhabited by men.

The Hawaiian Islands a century ago had a native population of some 400, 000, which has diminished to less than 30,000 at the present time.

Ostriches, when frightened, get over the ground at the rate of twenty-five miles an hour. Their strides measure eleven and a half feet.

ANY a dutiful daughter pays in pain for her mother's ignorance or perhaps neglect.

The mother suffered and she thinks her daughter must suffer also. This is true only to a limited extent. No excessive pain is healthy. Every mother should inform herself for her own sake and especially for the sake of her daughter. Write to Mrs. Pinkham, at Lynn, Mass., for her advice about all matters concerning the ills of the feminine organs.

Many a young girl's beauty is wasted by unnecessary pain at time of menstruation, and many indulgent mothers with mistaken kindness permit their daughters to grow careless

mistaken kindness permitabout physical health.

Miss Carrie M. Lamb, Big Beaver, Mich., writes: "Dear
Mrs. Pinkham—A year ago I suffered from profuse and

and leucorrhœa. My appetite was variable, stomach sour and bowels were not regular, and was subject to pains like colic during menstruation. I wrote you and began to take Lydia E. Pinkham's Vegetable Compound and used two packages of SanativeWash, Youcan't imagine my relief. My courses are natural and

courses are natural and general healthimproved."

MRS. NANNIE ADKINS,
La Due, Mo., writes:

"DEAR MRS. PINKHAM—
I feel it my duty to tell you of the good your Vegetable Compound has done my daughter. She suffered untold agony at time of menstruation before taking your medicine; but the Compound has relieved the pain, given

relieved the pain, given her a better color, and she feels stronger, and has improved every way. I am very grateful to you for the benefit she has received. It is a great medicine for young girls."
