Standard Rebate Checks With Cash Purchases.

PATRONIZE HOME INDUSTRY.

EXPLANATION

The merchants whose names appear in this Directory are the leading business people in this vicinity; they want your cash trade, and in order to secure it they are going to give STANDARD REBATE CHECKS. One check for every ten-cent purchase or ten with every dollar, etc.

When you have saved the required number of STANDARD REBATE CHECKS from any or all of these merchants combined, you exchange at our stores WHICH ARE PERMANENTLY LOCATED IN "THE BETHLEHEMS," or at any of our Branches, for useful and attractive articles to decorate your home. Rebate Checks bring cash trade and cash trade is always worth 5 per cent. The merchant makes no advance on his goods, but on the contrary, can and does sell cheaper. The merchant may not always think to give you Rebate Checks. For that reason, you must ask for them; they belong to you for cash trade; you are not begging for them, and it pleases the merchants to get your cash trade. The Standard Rebate Check puts business on a cash basis, enables the merchant to pay his debts, purchase his goods cheaper, and does not figure in his losses a lot of dead book accounts. Are you not entitled to a discount if you pay cash? Pay cash and ask for Standard Rebate Checks. They belong to you.

WASHINGTON LETTER.

Washington, D. C., January 16, 1900.
The defense offered by Secretary Gage to the Sulzer resolution has taken for granted by them that he would at least have some excuse to offer for his earth and the contract of late some property, puts forward a plitful evasion in regard to the rent question, and finally excuses his direct violation of law in treating national bank depositories as part of the treasury department, by stating that it has been customary to so regard them, although a recent, as well as an annotent, decision of the supreme court, but does not yenture to tell by what decisions, and for the supreme court, but does not yenture to tell by what decisions, and for the life property is forward a plitful evasion in regard to the rent question, and finally excuses his direct violation of law in treating national bank depositories as part of the treasury department, by stating that it has been customary to so regard them, although a recent, as well as an annotent, decision of the supreme court positively states that they are nothing of the kind. The act authorizing the sale of the custom fouse gravided that the money received therefor should be covered into the received under the general act of 184, according to which the right to deposit the proceeds might possibly be inferred by those strongly partiasan to that view, the has the assurance to add that his action in regarding depositories as part of the treasury, shore the proceeds might possibly be inferred by those strongly partiasan to that view, the has the assurance to add that his action in regarding depositories as part of the treasury is supported by decidence of the contraction of the supreme court, but does not yet the contraction of the suprementation of the pro

entirely evades the fact that the court, speaking through Justice McKenna, on November 20 last, reaffirmed, in the strongest possible terms, a former decision by Chief Justice Waite, declaring the exact opposite.

The secretary says that no rent has been paid for the building because congress has not appropriated for that purpose. He is careful not to say that no agreement for payment has been made. He further admits that, despit this agreement to pay rent, part of the purchase price was held back by the bank with his approval, so as to free it from any liability as to taxation. And the scandal is made worse by the discovery of a letter written to the secretary by the vice president of the National City bank, appealing for favors on the ground that its directors are men who "have great political claims in view of what was done in the campaign."

The secretary be the scareful not to say that no agreement for payment has been meloyed, he says, by the shipping interests, to lobby for the bill. Mr. Sawmuds has made elaborate arguments before the committees, a majority of both having before the committees, a majority of both having ago by Boss Hanna and his assistant pushers. Mr. Edmunds is not a cheap man, and he would not have been employed if his services had not been considered necessary. His arguments were one in favor of the bill. SKUNK FARMING.

Millions In It, According to an Agricultural Department, Officials

"There's money in a skunk farm," said an official of the Agricultural Department, "and skunk farming will some day be a great industry in this country. There's a barrel of money in the business, and yet the man who suggested it was regarded as being out of his head. It does not take a prolonged and expensive investigation to demonstrate the truth of what I assert. It is not necessary to send a lot of agents from this department helterskelter over the country to gather facts and figures. Not a bit. All that is necessary is to get one of the old-time fellows who has spent his life on a farm and in the woods, and who is a close observer of the habits of 'varmints,' and he can give all the information needed.

"An old fellow of this kind can tell you when the first skunk was discovered on the American continent, how often they have young, how many, how fast they grow, to what age they live, and, as I have said, tell all that is needed. From such information as this it is easy to figure out the facts you wish. Coming from such a source there can be no doubt of its accuracy. "While there are no official statistics on record it is known that skunks—the American skunk—will begin breeding at one year, and have litters of from five to thirteen, an average of eight to a litter. It is said that skunks can live on as little expense in raising them. They are of a different disposition to the coon, squirrel and many other small animals, in that they cannot be tamed, and I do not suppose that many people would care to have one as a pet.

"There are two distinct species of the American skunk—the jet black and white striped. The pelt of the latter can always be sold for \$1. The oil from the skunk is worth 50 cents an ounce, and is used in several cases of croup, colds and kidney diseases. The oil does not have the unpleasant aroma of the skunk.

"Now, it has been figured out that a man who understands skunk farming can begin on twenty skuwle.....

in several cases of croup, colds and kidney diseases. The oil does not have the unpleasant aroma of the skunk.

"Now, it has been figured out that a man who understands skunk farming can begin on twenty skunks—fifteen females and five males—and in a few years he will have a large and very healthy bank account. It is easy to calculate how rapidly these twenty skunks will increase in number. If you begin operations on the farm in December. Right from the jump, estimating the increase at the rate of eight to the litter, you have an increase of 120 skunks. Well, in June they breed again, and at the same ratio of increase at the expiration of one and one-half years you will have 7,495 skunks. In four years, without mishap, your skunks will have increased to 3,780,000.

"This is a good, big drove of skunks, and, if the pelts are worth \$1 each, the pelts of 200 males skunks would bring in open market \$200, and the oil at 50 cents an ounce would be worth \$800. Then figuring as we did on the increase of skunks, the pelts of which would be worth just as many dollars as skunks killed. The amount of oil gathered from from this number of skunks would amount to 29,600 ounces, worth \$14,800. At the expiration of four years you would have killed 1.890,000 male sknuks, the pelts of which would be worth \$1,800,000 and the oil—15,120,000 ounces—\$7,560,000, and you would still have 3,700,000 skunks left to continue business with. "These figures are not at all extravagant, and it will not be long before some of our enterprising citizens will be embarking in the skunk farming business. I do not know of anything which will produce money faster than this, and the beauty of it is that it only takes a small sum to begin with. It discounts raising five-cent cotton or any other agriculteral pursuit that I know of."—N. Y. Sun.

Is something that often happens to people when they go to look for so-called bargains in Shoes, but you would not "go too far" should you call and examine the class of goods we carry and learn the prices at which we sell. We are headquarters for Reliable Footwear and where quality is taken into consideration we will not be undersold. We are steadily increasing our shoe trade, because we handle only yuch goods as will give our patrons satisfaction for the money invested. People are learning that many "bargains" are such in name only and to get full value for their coin they can with safety buy only from merchants who are above catchtrade schemes. Boots and Shoes and Rubber Goods of every description for Men and Boys. We call special attention to our Guaranteed Miners' Shoes; nothing to equal them is sold in this town outside of our store.

In Men's and Boys' Furnishings,

Underwear, Hosiery, Shirts, Sweaters, Overalls, Working Jackets, Neckwear, Hats and Caps, Boys' Knee Pants, Gloves, etc., we present complete lines of the latest and best goods, and sell them at the same prices to a child as we would to an expert. We aim to give cur customers the best for the least money. Try us and see if this is not true.
