First Come, First Served.

Don't say that you couldn't get the valuable presents offered with "Red Cross" and "Hubinger's Best" laundry starch; your grocer has them for you; ask him for a coupon book, which will enable you to get one large 10c, package of "Red Cross" starch, one large 10c, package of "Hubinger's Best" starch, with the premiums, two beautiful Shakespeare panels, printed in twelve beautiful colors, or one Twentieth Century Girl calendar, all for 5c.

Value of Pictures

Value of Pictures.

Pictures do more toward furnishing a house and determining the status of its inmates than anything else. If you have a suspicion that you are not wise in choosing and hanging pictures, get advice from someone whose taste need sot be questioned, says the Pittsburg Dispatch. Cheap pictures are not necessarily poor, but a poor picture is assually cheap. To be able to discern the difference is a quality with which svery one is not blessed. A good plan is to purchase copies of famous pictures, etchings and engravings. These are almost sure to be good. In framing pictures remember that gold frames are for oil paintings and dark pictures, white frames for water colors, and black enamel or Flemish oak and modern oak for etchings and photographs.

A New York banker has just returned from Mexico and was interviewed by the New York Tribune, but the Arizona Gazette insists that the Whitelaw Reid organ was afraid to publish the truth about Mexican prosperity. The returned banker did say through the Tribune that the republic is prosperous, paying off its national debt and furnishing hundreds of thousands of new laborers with employment every year. "There is more money coming into Mexico than ever before," quoth the banker; "banks are being organized all over the country and everything is in a cheerful condition. The Americans and English are putting up great sugar mills and opening up the tropical belt to the markets of the world. Here the Arizona paper takes up the interview and explains why the Tribune cut it short.

"There are no panic scares" there.

takes up the interview and explains why the Tribune cut it short.

"There are no panic scares there. The monetary standard is stable. The supply of money is sufficient for the demands of trade. In fact, it is the abundance of money that starts trade and keeps it up. Every Mexican producer is making money and is happy. While other nations are hoarding their currency, that of Mexico is in circulation, performing the functions for which it was created.

"Mexican statesmen and financiers attribute the prosperity enjoyed by their people and the republic to the unilmited use of silver as a medium of exchange.

"They have currency which is not constantly appreciating in value to the detriment of all other forms of wealth; a currency which cannot be cornered, manipulated or controlled by a few to the injury of the many. A currency which foreign financiers cannot limit or lock up at pleasure. A currency which enables the producing classes of Mexico to realize from their products more than the bare cost of production—in short, a currency which is satisfactory to and sufficient for the tradesmen and producers and to everybody except the usurers and the money changers, who have been securged from the temple of Mexican progress."

POLITICAL BROTHERS.

It must be an immense satisfaction to the American citizen, worrying over his financial condition, that William McKinley and Grover Cleveland are in full accord as to the "proper" remedy. Time was when William boldly and anarchistically, not to say treasonably, denounced Grover in no measured language for depositing public money in "pet banks." It is a suspicious sign, however, to now have two such master minds and prominent figures in the public eye engaged in smacking their lips over the public purse. It is said that "when rogues fall out honest men get their due," but here we have the unsual spectacle of two honest men clinging together like Siamese twins, staying the attacks of a dishonest people. We are all rogues, and we have departed from the principles established by the immortal Jackson. Grover says so, and William nods assent. What is the ligature which holds these incompatible, inconsistent elements together in such close relations? sent. What is the ligature which holds these incompatible, inconsistent ele-ments together in such close relations? ments together in such close relations? Is there a possibility amounting to a possibility that the next ticket to sweep the country in the interests of the foreign bond holder, the trusts, syndicates, money brokers, banks and other instruments of American prosperity, shall be McKinley and Cleveland, or Cleveland and McKinley? It matters little which way the ticket reads, so far as effects go. True, Grover did inconsiderately twist the British lion's tail in the Venezuela matter, but William has been graciously apologizing ever since, even to the y apologizing ever since, even to the surrender of the whole country to our surrender of the whole country to our British brethren. England would hall such a ticket with its approval, and put up money to secure its election. What difference, therefore, to the American people? The men who own and conpeople? The men who own and control the people's money also own and control the people themselves.

ABBOTT ON HARVEY'S BOOK.

After four years, during which period he has at all times been laboring with voice and pen and organizing ability to fulfill the mission of '96, Afr. Harvey, author of Coin's Financial School, comes before the people on the eve of the new presidential campaign with a new book—in the familiar style of his former one, but treating of the later, though not more important, issues which have sprung up since the time that Mr. Bryan was defrauded of his election. "Coin on Money, Trusts and Imperialism" treats of at least one issue—imperialism—which had not raised its threatening head in '96, During that struggle, too, the trusts, though already offering a certain menace to the well-being of the people, had not developed into such startling proportions as they now present. To these issues Coin, in his new series of lectures, devotes much of his attention, but the old issue—the issue that will arise perennially until out of the hands of a favored class shall be taken the priceless privilege of issuing and controlling the money of the people in such clear language that so man can be deceived.

Monopolles to the Frost.

Monopolles to the Frost. attention, but the old issue—the issue that will arise perennially until out of the hands of a favored class shall be taken the priceless privilege of issuing and controlling the money of the people—engages his attention in the opening chapters of the book. I do not think that Mr. Harvey has ever done anything so well as his dissection of anything so well as his dissection of the privileges enjoyed and the further once demanded by the national bankers. In a clear and simple strie. Ising the monopolies of private monopolies. W. J. Bryan, at Omaha, Jan. S. 1900.

FREE FROM PANICS.

REPUBLIC OF MEXICO CONTINUES PROSPEROUS.

Free Silver Coluage and Staple Government Currency Serve to Maintaine Unequaled Activity in All Fields of Production—Bondholders Are Scarce.

A New York banker has just returned from Mexico and was interviewed by the New York Tribune, but we this particular comparison, and I use this particular comparison, and I believe that his logic will prove as irrefutable as his language is simple and

refutable as his language is simple and direct.

In my opinion, this new book of Mr. Harvey's—notably better than "Coin's Financial School"—by its thoroughly human treatment of the questions of the campaign, deserves and will attain a popularity and a circulation quite commensurate with his earlier one. It is, like that one, cleverly illustrated by drawings which enforce the teachings of the text, and is given a certain up-to-date and living interest by the employment of the names of well-known men in the course of the discussions which it recounts. It is a book that will be read by the millions, and will be a most potent weapon in the hands of the people for their defense against privileged classes.

WILLIS J. ABBOT, Chief of the Press Bureau of the Democratic National Committee.

EDITORIAL ETCHINGS.

While it would be a very beautiful thing to give everything to God, still there are some things which may belong to Caesar without offense to the Creator. Indeed, it was Christ himself who said: "Render, therefore, to Caesar the things that are Caesar's, and unto God the things that are God's." Senator Beveridge, in his remarkable conversion of the American republic into an apostolic propaganda, does not seem able to draw the line in his anxiety to curry favor with his masters, the trusts, banks and the Republican administration.

Is it not a suspicious circumstance that all of the trusts, banks, raoney lenders, etc., are demanding McKingley's re-election, and are contributing heavily to the Republican campaign fund? Some say we cannot get along without the banks and great moneyed institutions, and therefore feel it obligatory to stand in with them. That obligatory to stand in with them. That is true enough when one wants to borrow money, but the difficulty is, the great majority want to earn it, but cannot because of the hoarding of the money for speculation.

We have gone so deep into the world's politics that a great standing army is said to be necessary to save the nation. If we had not gone in so deep we would not have required so much army, would we?

There is altogether too much argument among our grammarians about the proper number of the verb "to be" used in connection with the United States. Ought it to be "the United States is," or "the United States are?" By and by it will be "the United States ain't."

Gen. Alger is about to publish a book defending his administration of the war department and embalmed beef. Secretary Gage and a few others might also write books of explanation under the title, "How I Did It."

Owing to the impressive, not to say Owing to the impressive, not to say ferce, demands made by Ambassador Choate, the British government has re-leased the American flour seized by it in Delagoa bay. Thus war has been averted by the firmness of President McKinley.

Here is something for those who think Jackson would favor McKinleyism, were he alive, to consider:

ism, were he allve, to consider:

"He was the first American to emphasize the Democratic doctrine that under the constitution congress alone had power to coin and issue money; and in his veto of the bill to recharter the United States bank he declared that this power was a governmental function, could be exercised by congress alone, and should not be delegated to corporations or individuals. He denounced the bank and denied the constitutionality of its creation. Against the advice of Webster and Clay, against the decision of the Supreme court, in the face of friends and foes alike, he took his stand and fought the fight to a finish against the most gigantic monopoly which Americans

There are many white soaps, each represented to be just as good as the Ivory; they are not, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine.

Ostrieh Spolled His Speech.

Anybody who heard Senator Alien of Nebraska, deliver his famous fitteen-hour speech against the bill for the repeal of the Sherman silver bill would hardly believe that anything coud stump him. Yet there is an experience in the senator's life which shows that, after all, he is like unto other mortals, says the Washington Post. "I was campaigning in my state once," said the senator, "when I had occasion to speak at a fais grounds. The grand stand was full, and the occasion seemed to be full of promise for an orator overflowing as I was with political gospel. Just as I had commenced a man brought out an ostrich hitched to a sulky. I don't know whether you ever saw the trotting ostrich in the east, but out west he was a great attraction. Well, as soon as that bird began to run around the track I wasn't in it. The ostrich monopolized the attention of every man, woman and child. When the bird stopped the people listened to me, but when he threw out his long legs again there was a roar of laughter and applause which drowned every word I uttered. Finally, I gave it up. I let the trotting ostrich have everything his own way."

From the New York World.—Angeline—Do you really think, then, that Mr. Softhead is interested in you? Barbara—Yes, that is, he mentioned flats the last time he called.

I Had a Bad Cough

"I had a bad cough for six weeks and could not find any relief whatever. I read what a wonderful remedy Ayer's Cherry Pectoral was for coughs and I bought a bottle. Before I had taken a quarter of it my cough had entirely left me."—L. Hawn, Newington, Ont., May 3, 1899.

Quickly Cures Colds

Neglected colds always lead to something serious. They pulls down your general health and deprives you of sleep; or they end in genuine consump-tion with all its uncertain results.

Don't wait, but take Ayer's Cherry Pectoral just as soon as you begin to cough. A few doses will cure you then. But it cures old colds, too, only it takes a little more time. W refer to such diseases as bron chitis, asthma, whooping-cough, consumption, and hard winter coughs.

If you've just taken cold a 25 cent bot-tle is all you'll need. For harder cases a 50 cent bottle is better. For chronic troubles, and to keep on hand, the \$1.00 bottle is most economical.

FALLING

Save Your Hair with **Shampoos of**

uticura

And light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions of Women

Use CUTICURA SOAP exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruft, and the stopping of falling hair, for softening, whitening, and healing, red, rough, and sore hands, in the form of baths for annoying irritations and chaings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, calp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for prepurest of cleaning ingredients, and the most refreshing of nower doors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines, in ONE SOAP at ONE PRICE, viz., TWENTY-FIVE CENTS, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world.

Skin and complexion soap, the BEST twice and BEST body soap in the south.
