Martin Macknevtich, a Pole, was killed at 10.30 o'clock this morning by a fall of top rock while at work in No. 5 colliery, Jeddo. He was 30 years of age and has resided in Freeland for some time past.

The deceased met instant death under the fall, while his fellow-laborer escaped unhurt. Death was due to the injuries he received on the head, which was crushed on both sides.

His breast was also badly squeezed and his right leg was broken in two places.

The company ambulance conveyed the remains to Undertaker McNulty's morgue, where the body was washed and dressed.

### Memorial Service.

There will be a memorial service on the evening of Monday, September 10, in Lattimer, Pa., under the auspices of the state committee of the Socialist party, to commemorate the third anniversary of the massacre of the miners by Sheriff Martin.

This is the way a large part of Pennsylvania miners will be invited to attend a mass meeting. Full particulars of the memorial service will be given later.

### Big Trolley Scheme.

Another move in the gigantic railway consolidation project, which will connect Shamokin with every Schuylkill region town by trolley, was made by the Schuylkill Traction Company yesterday, when the directors voted to increase the capital stock to \$5,000,000.

New lines from Mahanoy Plane to Pottsville, Tamaqua and McAdoo will be built, and at the latter point connections will be made with the Lehigh Traction Company. When the Hazleton-Wilkesbarre road, and the Schuylkill extensions, are finished, a continuous trolley ride from Forest City to Shamokin can be taken. The road will pass through Susquehanna, Lackawanna, Luzerne, Carbon, Schuylkill, Columbia and Northumberland counties.

### Bad News For Fishermen.

The Honey Hole dam will soon be a thing of the past, and that famed fishing ground will no longer have attractions for the fishermen of this vicinity. The dam and the streams which feed it have been free to all and have given many a day's pleasure to people here for years past. The privilege has been abused, so the owners claim, and the announcement is now made that the dam will be torn away.

It is alleged that the dam is haunted by men who have no regard for the rights of others, that they use dynamite and nets and other unlawful appliances to fill their bags, and that every effort to stop the abuse has failed.

Calvin Pardee, of Hazleton, who is interested as one of the owners of the dam and the Honey Hole, has erected a fine home near the dam. He has confirmed the report that the dam will be torn away, as he can no longer tolerate the conduct of many of the people who go there to fish or spend the day.

### ROUND THE REGION.

Daniel Jones, wife and five children, of New Philadelphia, Schuylkill county, are lying at the point of death from eating new cabbage, which poisoned the entire family. The cabbage was fired, and baking soda, which was used in the culinary operation, is supposed to have poisoned the vegetable.

Henry Hoffman died Wednesday evening at his home in Butler township, aged 105 years and 2 months. He was one of the oldest men in the state. The funeral takes place tomorrow afternoon. Interment in the cemetery at St. Johns.

Smoke the John Smith. At Kelper's. John, the eldest son of Judge Lynch, died at Harvey's Lake on Wednesday, aged 13 years and 7 months. He was buried this morning at Wilkesbarre.

Nathan Shaffer, for a number of years boss carpenter at Jeannette, has been placed in Laurytown asylum. He is a raving maniac.

Try Kelper's ice cream soda.

Operators and bosses in the Wyoming region are behind a scheme to organize miners' "unions" in opposition to the United Mine Workers.

Smoke and chew Kendall, Clock & Co.'s XXXX union-made. Mfd by the Clock Tobacco Co., Scranton, Pa.

Mrs. William Bolger, of Plymouth, was burned to death yesterday while making a fire in the stove. She poured oil on the kindling wood and the flames reached the can, causing an explosion.

Patrick J. Kelly, Burgess of Centralia, died at that place yesterday morning. Death was due to miners' asthma.

### PROGRESSIVE SCHOOL.

Some Facts About a Prominent Institution of Learning.

We have just received a copy of the catalog of the state normal school, at Bloomsburg, Pennsylvania. This school is recognized as one of the best in the United States, and, as proof of this fact, draws a patronage that extends from Maine to California. In fact, we are informed several students from Japan and Porto Rico, and probably from other foreign countries, will be in attendance during the coming year. This indicates that the school has an international reputation.

This high standing is the result of correct methods and thorough teaching by college and university trained specialists. The results of this wise policy were seen at the recent commencement. About 200 seniors and 150 juniors were presented to the state board of examiners, every one of whom passed a creditable examination. Of the seniors, some sixty being high school graduates of leading cities of this and other states, added about one-half of the advanced course to their regular course. Some thirty-five or forty received honorable mention on commencement day for unusual excellence in practice teaching, and a goodly number for unusually high standing in scholarship. Such a record is one to be proud of, and makes a fitting close to the country in the school's history.

This school maintains, by charter privilege, as a continuation of the old Bloomsburg Literary Institute, an excellent preparatory collegiate department, and a music department, which has been recognized as being equivalent to a good conservatory.

Those who expect to attend school this fall, even if they have chosen their place of attendance, can learn from the catalog much that will be of advantage to them wherever they may go; and if they have not made a choice, they will do well to remember that no school is so good as the best.

Prices are extremely low considering the advantages offered. If they were lower, we do not see how a faculty like the one found at Bloomsburg could be maintained. The faculty is the school. Let nobody be deceived into thinking that excellence lies in carpets, furniture, and such appliances which are often strongly advertised to cover other weaknesses. The Bloomsburg school has all the conveniences that belong to a well-equipped school, including a passenger elevator; but her chief boast is of her faculty, her methods, and her graduates.

Results prove the excellence of a school. We advise all young people to study the facilities offered at Bloomsburg before deciding to go elsewhere.

### Where Good Work Is Done.

Under direction of Clifford H. Heller, who recently assumed the management of the Freeland Steam Laundry, the plant has been remodeled in every respect. The machinery has been overhauled and repaired, and such as did not come up to the manager's ideal was discarded and the latest in the market installed instead.

The result of this has been a revolution in the quality and quantity of work turned out. Nowhere in the state can there be found a place where better work is placed in the hands of patrons. The business has almost trebled itself in the past month, and the laundry may now be set down as one of the stable industries of Freeland.
