The late Mrs. John Sherman was disturbed, her pose ruffled, only upon those rare occasions when she felt that Mr. Sherman had been badly used by his friends, and it was in obedience to her wishes that her husband finally resigned the portfolio of state.

Hannah Reardon, a young woman of Wilmington, Del., who recently attracted much attention on account of a tendency toward being a human pincushion, has, after having been relieved from the presence of 87 pieces of steel in her body, including 30 whole needles, returned to her home from the hospital in the enjoyment of good health.

POULTRY POINTERS.

Bone dust is very beneficial for feeding growing chickens until they are 6 months old.

Loss of feathers is generally caused by want of green food or want of a dust bath. Supply both.

Begin poultry keeping with a good breed, medium in size, good layers, good table fowls and constitutionally strong.

When it is desired to have the greatest number of pounds of meat produced with the smallest amount of feed, select the large breeds.

Do not sell off the hens that begin to molt early, as they will finish the shedding of the feathers and begin to lay early in whiter.

Overgrown chicks are not those that have grown rapidly and attained large size, but those that cannot stand on their legs by reason of too rapid growth.

Gesee can be raised on many farms to advantage. Besides yielding a regular income in the way of feathers, they are one of the most profitable fowls for market. They are more easily raised than turkeys and sell readily at good prices.

The flock of hens that keeps busy scratching does not contract the vices peculiar to those fowls that have nothing to do, and they keep in good flesh and in good health. The clean plumage, bright red comb and plenty to do indicate good health.—St. Louis Republic.

POLICY OF OUR GOVERNMENT

Everything Is In Such a Chaotic State That Our Plans Will Not Be Made Definite Until Further In-formation Is Received.

Made Definite Until Further Information is Received.

Washington, Aug. 22—After the cabinet meeting President McKinley sent for Acting Secretary of State Adee and directed the preparation of a reply to Li Hung Chang's request for the appointment of a peace plenipotentiary. The attention of the venerable Chinese statesman was directed to the fact that the president's conditions for the restoration of amicable relations had not been complied with. Such communication as had been established with the American minister was obtained only by the armed efforts of the allies, and the fighting and disorder in Peking since their entrance to the city were far from the guarantee of security which should obtain under a capable government.

Awaiting Details.

This, in general terms, is the idea which the president has conveyed to Earl Li. It is a recognition of Li Hung Chang in his representative capacity, and it affords a diplomatic reason for postponing a more pointed correspondence until fuller details of the situation in Peking shall have been received from Minister Conger or Special Commissioner Rockhill.

Another cabinet meeting will not be held until Friday, immediately preceding

Minister Conger or Special Commissioner Rockhill.

Another cabinet meeting will not be held until Friday, immediately preceding the departure of the president for Chicago to attend the Grand Army encampment there. Whatever action is taken by this government will be in accordance with the programme which the administration has had clearly in view from the beginning of the Chinese troubles. The relief of the American minister and his people having been accomplished. American interests will be protected and poace and order restored sufficiently at least to permit a reduction of the lighting force on Chinese soil and eventually its withdrawal.

To Oppose Scizures.

ually its withdrawal.

To Oppose Scizures.

With the operations of the foreign governments in other parts of the empire where armies are being landed with supposed ulterior motives the United States will not interfere, except to enter a protest against territorial seizure which is likely to interfere with the open door policy through which American trade is to be extended on even terms.

without date. As given out it is as follows:

"United States legation, Peking, undated, by way of Chefu, Aug. 20:

"Saved. Relief arrived today. Entered city with little trouble. Do not yet know where imperial family is, Except deaths already reported, all Americans alive and well. Desperate efforts made last night to exterminate us, Mitchell, American solder, and a Russian and Japanese wounded, German killed. Charges Against China.

The state department officials admit that part of Minister Conger's dispatch had to be suppressed. It is believed that that part of Minister has charged the Chinese government direct with complicity in the attacks which have been made on the foreigners and which culminated in a desperate effort for their extermination the night before relief arrived. This is of extreme significance considered in connection with the flight of the downager empress and the uncertainty as to where the emperor, Kwang Su, is. It would seem that the Chinese imperial government had purposely scattered to escape the punishment which its treacherous conduct had earned. The point has been raised that with no visible head to the government of China there is no government to deal with that there is in fact no government whatever in China except that which is maintained by the viccroys in the various provinces. Upon this question the state department holds that for diplomatic and international purposes there is a government in China so long as the ministers at the respective capitals throughout the world are afforded recognition.

Viccroys Still Loyal.

Minister Wu was received in his min.

robal stronghout the world are afforded recognition.

Ministers Wu was received in his ministerial capacity yesterday for the presentation of certain messages from loyal Chinese officials concerned in the protection of the persons of the emperor and dowager empress from indignity. Until there is an agreement between the powers as the result of grave deliberation for the appointment of a new occupant to the throne or until the present dynasty is overthrown by revolution or otherwise it will be assumed that there is a central power in China, although it may temporarily be beyond the reach of direct communication. How long this anomalous condition of affairs will be permitted to continue nobody can answer.

The possibility of complications that are likely to embarrass this government in its altruistic policy is appreciated by the administration. It was suggested yesterday that a situation might be developed which would disclose that one of the powers has violated the tentative agreement to maintain the territorial integrity of the Chinese empire.

Possibility of a Crisis.

That, it was said, would produce a crisis in which the United States would have to decide quickly how far it would become involved in a game of seizure that is likely to lead to war. No advices have been received from public sources that any of the powers have separated themselves from the rest in Chinese operations, but suspicion is directed toward Russia, where rumors that boundary lines are being extended to cover Chinese territory have been common of late.

There is no end to speculation concerning what the future has in store for the governments interested in Chinese affairs. In every official and unofficial circle around the president and the cabinet officers the Chinese situation its discussed with eagerness, but with a certain degree of blindness, To most of the governments interested in Chinese affairs. There is no intention of depreciating Minister Conger. "Odell," Says Platt.

New York, Aug. 22,—"It looks like Odell for governor, with the old state ticket renominated," Senator Platt thus briefly stated the situation confronting the Republican leaders yesterday as he said he understood it. He said, however, that the unwillingness of Benjamin B. Odell, Jr., chairman of the Republican candidate for governor this fall was well understood. Mr. Odell has said to some of his friends that he will not permit the Republican state committee on the Republican politicians state convention to force the momination upon him. The Republican politicians believe that Mr. Odell is sincere in wanting to remain at the head of the state committee and to let some other man run for governor, but they believe at the same time that if the state convention nominates him he will not refuse to run. Senator Platt wants Mr. Odell to be the candidate for governor. Other Republican leaders have declared that Mr. Odell is the only candidate who will be acceptable to the entire organization.

Incendinry Fire at Newport.

Newport, B. L., Aug. 22.—It was learn ed last night that a fire at the summet residence of former Governor Charles, Warren Lippitt last Friday evening which was said at the time to have been the result of defective wiring for electric lighting was attended by such circumstances that it is now believed to have been of incendiary origin. Furthermore another fire occurred there an bour later for which no alarm was sounded. Not doubt was left in the minds of Mr. and Mrs. Lippitt that somebody had actually tried to burn a part if not the whole of their villa. Mr. Lippitt declined to speak of the matter last evening. Chief of Police Richards was equally disincined to talk in view of the fact that the fires were being investigated. It is not known whether the police have any clew to the offender.

San Francisco, Aug. 22.—A report has reached this city that there has been serious trouble on the hospital ship Relief, now at Nagasaki. Thirteen men in the engineers' department and several officers are said to have struck. They are also said to have expressed the determination not to sign new service contracts when those now in force expire on Sept. 14. Army officers here, while admitting that there has been some trouble on the Relief, refuse to give out any information regarding the affair, but it is significant that First Officer Crosky of the Grant has been ordered to the Relief as master.

of the foreign troops for the purpose. From Taku they went to Wei-hai-wei and thence to Nagarsaki, Japan, on a transport.

Dr. Smith crossed the Pacific on the steamer City of Peking. In speaking of the experiences of the foreigners in the foreign city during the bombardment he said that they were in bad plight and in great danger of capture on one or two days. He believed that the 2,000 foreign city of the experience of the theorem one or two days. He believed that the 2,000 foreign troops were enabled to save the city by special acts of Providence. There were one or two occasions when the Chinese one of the order of the control of the fire of the Chinese owing to the small customer of the fire of the Chinese owing to the small caliber of their guns.

We hadn't a single gun to fight with. Said Dr. Smith. "All we could do was to sit there and let them fire. We had 1,500 Russian troops, with a few British and American, 2,000 in all. We were just boxed in. The first shot was not fired by the foreigness, as some have said. It was fired by the Chinese. An ultimatum had been sent in to them to surrender at 3 p. m. on June 17, and at 2:30 a Chinese shot whisked through the air, It was a surprise to us. That shot struck Gordon hall, where the women and children were. The Chinese did not get the range again that day.

"The bombardment did little damage to the mission property. Some of the buildings have holes shot in them. The chapels in the native city were all destroyed. The Chinese had spice all over the place. They had carrier pigeons, by which they sent messages into the city. In a fort captured by Admiral Seymour's forces near the city were found 52 Maxims and cannon which the Chinese had not taken from their cases. The guns had been sold to them by the Germans."

Youtsey Too III to Be Tried.
Georgetown, Ky., Aug. 22.—It is practically certain that the case of Henry E. Youtsey, charged with being the principal in the murder of Goebel, will not be tried until the October term of the circuit court. At yesterday's session of court Commonwealth Attorney Robert Franklin stated that the prosecution had no desire to force a sick man to trial. Dr. R. L. Carrick, Youtsey's physician, said that his patient was not now in a physical condition to stand trial and that there was no reason to believe that he could regain his strength during this exceedingly hot weather, confined, as he was, in a hot cell.

State Chairman Rilling was recognized at the Kansas City convention by being made a member of the committee on notification. lation" into permanent retirement without delay.

Our "strenuous" efforts in attempting to teach the Cubans the art of self government are about as consistent as Satan's attempts at preaching the gospol. Cuba is undergoing a system of taxation that will speedily turn her plantations over to the control of the land grabber. Through the devastation of war many of the Cubans lost all they had except their land, which they do not now have the means to cultivate. Gen. Wood, in spite of their helplessness and poverty, has issued an order declaring that estates shall be taxed just the same as if worked to their full producing capacity. If the tax is not paid within two months of levy six per cent additional is added, and if delayed six months 12 per cent is added, and so on. This, in many cases, means confiscation, just what the land speculator, in league with the officials, desires. The rate of taxation is worse than any that King George the Third ever imposed on the colonies. It amounts to \$16,000,000 annually, or \$8 for every man, woman and child on the island. This money is either stolen directly or used in paying a lot of favorite supernumeraries double salaries. All this in the name of Hanna, McKinley and God.

Like most of his fellow men, the writer felt when the hot days of July came that he would like to spend a few days at the seashore. Cape May was chosen as the objective point, partly because of its magnificent beach and partly for the reason that it can be reached from Philadelphia by boat. The fine steamer Republic makes the round trip daily during the summer season, and the trip down the historic Delaware is a most enjoyable one, and will hear reneating again and again. Our stay at the Cape was made doubly pleasant by the excellent accommodations and service at Congress Hall, under the efficient management of Miss R. Halpin. Congress Hall stands in the midst of a magnificent lawn on the highest point of land at the Cape and affords a fine view of the ocean. It has passenger elevators, electric lights and perfect sanitary arrangements. Miss Halpin formerly conducted the Windsor, at Cape May, and that house under her judicleus management prospered greatly. Since she left it the larger portion of its aristocratic patronage has followed her to Congress Hall. Cape May is not the place where politicians meet to concoct schemes of conquest, but many of them go there for rest when tired of the worries of political life.
