# Monster Demonstration at Hazleton This Afternoon. Freeland Sends a Large Delegation--The Strike.

Deregation-- The Strike. One of the greatest labor demonstra-tions ever held in the Lehigh region, and by far the greatest labor parade in this section for the past quarter of a century, took place this afternoon. Forty-one local unions of the United Mine Workers were in line, and men and boys from every town in the terri-tory bounded by Upper Lehigh, Coal-dale, Silver Brook and Nuremberg marched the streets of Hazleton. The parade started at 2.30 o'clock. The number of men in line is estimated at 10,500, the South Side furnishing al-most one-half of these. The parade consisted of three divi-sion. The chief marshal was Thomas Duffy, president of District No. 7. His aides were Hon. William R. Jeffrey, of Hazleton, and James Brogan, of Upper Lehigh. End Strike This Week. There is a well-defined rumor affoat that the coming week will see the wind up of the strike. Neither the strikers nor the operators admit this openly, but it is the feeling that the contest will not be continued much longer. Both sides are expected to make concessions. The operators say they have none to make, but under certain pressure they are ex-pected to make them nevertheless. The politicians have had their say in the negotiations looking toward a settle-

President Mitchell gave out the fol-lowing statement last evening: "As there seems to be some disposition on the part of the public to place the re-sponsibility for the prolongation of the strike on the shoulders of the Mine Workers, I, speaking for them, want to say that when the Scranton convention accepted the 10 per cent advance, pro-vided the operators abolish the sliding scale and guarantee its payment until April 1, the miners had met the opera-tors more than half way. scale and guarantee its payment until April 1, the miners had met the opera-tors more than half way. As a conse-quence, the responsibility for the con-tinuation of the strike rests solely upon the failure of the operators to treat the proposition of their employes consid-erately. "The public should understand that unsatisfactory as is the proposition of the operators who make the reduction on powder a part of the advance of 10 per cent, that even this proposition has not been offered by a large number of the coal producing companies of the anthracite region, and until all com-panies guarantee payment of the 10 per cent advance above the rates paid in September until April 1, according to the Sortanon convention, the miners are powerless to act. ## POSTING NEW NOTICES.

Posting service of the service. Posting size works. All the individual operators of the Schuylkill region have followed the lead of the Reading Company by posting new notices offering all their mine employes a straight increase of 10 per cent. In the Wyoming and Lackawanna regions a majority of the individual operators and some of the larger corporations have posted new notices, but all contain the objectionable powder note. In the Lehigh region similar notices have been posted by all the operators except the Lehigh and Wilkesbarre Company, the Drifton companies and Markle & Co. Companies which produce about 65 per cent of the total production have guaranteed the payment of the 10 per cent advance, and have abolished the sliding scale. was a happy and contented home but a short time ago is now shrouded with the gloom of death. Mr. Davies' death was due to an acci-dent which befell him recently by falling through a trap-door in the D. S. & S. Railroad office at Drifton, by which several ribs were fractured and other internal injuries received. The acci-dent, however, was more serious than at first supposed, and to the surprise of his attendants death claimed him for its own at 7 o'clock Friday evening. His devoted wife had been ill for some time past, and the shock of her hus-band's death was more than she could bear.
