DANGER OF AN EPIDEMIC

Attention of School Board Called to It.

Principal Houck's Report to Directors Treats on Laxity of Parents in Relation to Scarlet Fever.

The November meeting of the borough school board was held Wednesday evening. Those present were Directors Kline, Trevasikis, Bell, Isaac, Brown, Everitt and McCole.

One of the principal matters before the board was a reference in the monthly report of supervising principal Houck to the carelessness shown by the parents of many pupils in allowing their children to visit and frequent houses where scarlet fever exists.

The principal supplemented his report with verbal statements relative to the subject, and the directors were unanimous in their opinion that the laws of the Board of Health should be strictly obeyed. There are a number of cases of scarlet fever in town, and, unless the parents of pupils carefully follow out the health laws, an epidemic will naturally follow.

The principal's report for the second month showed an enrollment of 891. The average attendance was 92 per cent.

The building and grounds committee was authorized to have duplicate grates for the furnaces in the Ridge street and Washington street buildings cast at the Salmon Iron Works, so that no school time may be lost should either grate give out during cold weather.

Principal Schmidt, of Bivanton school, made application for a better system of ventilation in his building. The matter was discussed and several members offered suggestions which if acted upon will overcome the present difficulty.

The insurance on Washington street, Second ward and Third ward buildings having expired, it was decided to renew the contracts with Mrs. S. E. Hayes for three more years and to increase the amount on the Second ward building \$500. The insurance carried on these three buildings will be as follows: Washington street, \$15,000; Second ward, \$1,500 on building and \$300 on furniture; Third ward, \$500 on building and \$150 on furniture.

The report of the county superintendent showed that all the Freeland teachers attended institute five days, with the exception of George McLaughlin, who was absent the last day on account of illness.

Tax Collector Malloy's report of taxes collected and money paid the treasurer during the first sixty days was read and accepted.

An agent of the Melodian Music Company, of New York city, addressed the board on the subject of introducing music in the schools and stated he would be here before next term begins to demonstrate the merits of his system. He complimented the members upon the business methods they show in conducting their affairs.

These bills were ordered paid: William Wood & Co., books, \$8.98; Fisher & Schwartz, books, \$29.91; American Book Company, books, \$44.76; Butler, ... There is no pleasure in life if you doing to the table to eat and can't rest at night on account of indigestion. Henry Williams, of Booneville, Ind., says he suffered that way for years, till he commenced the use of Kodol Dyspepsia Cure, and adds, "Now I can eat anything I like and all I want and sleep soundly every night." Kodol Dyspepsia Cure will digest what you eat. Grover's City drug store.

No Celebration.

Freeland Republicans have as yet taken no steps toward arranging for a celebration of Tuesday's victory. It was understood that if either the national or county ticket won that the event would be commemorated by a demonstration, but the magnitude of the sweep, it would seem, has been so great that even the Republicans are dazed and cannot arrange a fitting celebration. A number of the party workers will go to Hazleton this evening and participate in the parade in that city.

PARADE POSTPONED.

On account of the inclement weather the parade and demonstration in honor of the Republican victory, to be held this evening at Hazleton, was postponed this morning to a date which will be announced later.

Some evening next week will be chosen by the committee in charge of the celebration.

Will Pay Semi-Monthly.

G. B. Markle & Co. have notified their mine employees that the firm will pay semi-monthly. The Tribune has not learned the date when the change from monthly payments will be made, but it is said the new rule will go into effect in the near future. This action of the firm is voluntary.

It is understood that petitions containing the name of almost every employee of the firm are about ready for presentation at Jeddo. These petitions relate to the semi-monthly pay law, and when presented it will be compulsory on the part of Markle & Co. to pay the employees their wages twice a month.

The employees of the Delaware and Hudson Company have demanded that the company comply with the semi-monthly payment law. The employees of the Kingston Coal Company have made the same demand.

Toadstools Caused Death.

Joseph Turkon, of Throop, Lackawanna county, died this week and his death is supposed to be the result of his having eaten several of those deadly fungi, toadstools, while under the belief that they were mushrooms. On Monday afternoon his wife went into the fields near the house and picked a large number of mushrooms, which grew plentifully thereabouts. Together with these she must have gathered several toadstools, for after the evening meal Turkon, his wife and two of their children became violently ill. Mrs. Turkon and the children were relieved and soon felt no ill effects from the meal. Turkon, however, grew speedily more and more sick.

Warrants for Three Men.

Warrants were sworn out yesterday for the arrest of three young men of Audenried, on the charge of assault, preferred by Mrs. Halaman, of Harwood. The affair occurred on Monday night, as the woman was returning from McAdoo, where she had been on a visit to her home. A number of prominent citizens discovered the young men in the woods, and attempted to capture them, but they escaped and have not been seen since.

Work Resumed.

The trouble between the Drifton mine employees and the coal company at that place, which resulted on Wednesday in a lockout, was amicably adjusted yesterday and the whistles blew last evening for work. The employees responded this morning to the call, and everything is moving smoothly at the collieries today.

Children like it and mothers endorse it. Grover's City drug store.

Election Echoes.

The Freeland friends of Bernard Ferry, of Butte, Montana, were gladdened yesterday by the receipt of a telegram announcing his election to the legislature of that state on the Democratic-Fusion ticket. Two years ago he was defeated by a small majority. The young man is a son of Mrs. Morris Ferry, Washington street, and was a visitor here last spring. Mr. Ferry is the second Freeland young man who has been chosen to represent Silver Bow county in the Montana legislature. The other was Charles Boner, a son of Mrs. Patrick Boner, South Washington street, who served a term in that body some years ago.

The Republicans in Lackawanna county elected everything but their candidates for judge, sheriff and register of wills. There was remarkable independent voting. McKinley has a majority of 1,200, and John P. Kelley, the Democratic nominee for judge, has a majority of 4,100. Judge Kelley is the only Democrat on the Lackawanna bench. He was appointed some time ago to the vacancy caused by the death of Judge Gunster.

The Republican committee of the Fifth legislative district claims to have discovered overwhelming evidence that wholesale frauds at certain voting precincts have been committed, so that it would be made to appear that Burke had been elected. A thorough investigation has been ordered, and the committee claims a contest will show that William Strange, Republican candidate, has been elected.

Timothy Hayes, at one time a resident of Freeland, went down with his fellow Democrats on Tuesday. He was a candidate for the legislature in the First district of Lackawanna county. Hayes received 3,538 votes and his opponent 4,031.

Silas E. Jones, of West Hazleton, the defeated Democratic candidate for prothonotary, is in the field for the nomination for sheriff next year.

Explosion of Powder.

A peculiar explosion occurred in No. 5 colliery, Jeddo, yesterday. A box of dynamite and a quantity of common blasting powder went off in some unknown manner in the gangway worked by Thomas Elliott. The latter and his laborers happened to be absent from the immediate vicinity at the time. While they escaped danger from the explosion, they were in peril of being suffocated by the intense smoke it created. To obtain pure air they had to pass through the smoke, which they did with great difficulty and were completely exhausted when they reached a safe spot.

The cause of the explosion is unknown. No person was near the powder at the time, and why it exploded is a mystery which will probably remain unsolved.

No Change in Strike.

There is no change of any account in the strike at the silk mill. The plant continues to run with the force which remained at work, but the lack of help has badly handicapped the management and there are rumors that the mill will close down for an indefinite period unless sufficient help is soon procured. The striking employees are less demonstrative of late than they were during the early part of the trouble. They claim, however, that there are no defects from their ranks and that they will stay out until the mill owners comply with their demands.

Sheriff Harvey was present at the mill on Wednesday and Thursday afternoons at quitting time.

Teachers' Institute.

The semi-monthly institute of the teachers of Freeland borough schools was held Wednesday evening in the Washington street building. There was a good attendance and all the teachers evinced a great deal of interest in the papers read. A number of the subjects on educational matters which came before the teachers during the county institute at Wilkesbarre last month were discussed in an able manner. These will also be a basis for discussion at future local institutes.

Miners Threaten to Strike.

There is a threatened strike at the coal washery of the Philadelphia and Reading Company at Wadesville, and at the Kaska William colliery, operated by the Dodson Coal Company, near Middleport. The trouble has been caused by the discharge of union men. The United Mine Workers of America have demanded that the men be reinstated at once or they will all go out.

If you have ever seen a child in the agony of croup you can realize how grateful mothers are for One Minute Cough Cure which gives relief as soon as it is administered. It quickly cures coughs, colds and all throat and lung troubles. Grover's City drug store.
