Notes From the Paris Exposition.

"The Singer Manufacturing Company, of 149 Broadway, New York, show their usual American enterprise by having a very creditable exhibit located in Group XIII, Class 79, at the Paris International Exposition, where they show to great advantage the celebrated Singer Sewing-Machine which is used in every country on the globe, both for family use and for manufacturing purposes. The writer was highly pleased with this display and observed with much satisfaction that it was favorably commented upon by visitors generally.

The Grand Prize was awarded by the International Jury to Singer Sewing-Machines for superior excellence in design, construction, efficiency and for remarkable development and adaption to every stitching process used in either the family or the factory. Only One Grand Prize for sewing machines was awarded at Paris, and this distinction of absolutely superior merit confirms the previous action of the International Jury at the World's Columbian Exposition, in Chicago, where Singer Machines received fifty-four distinct awards, being more than were received by all other kinds of sewing machines combined.

Should it be possible that any of our readers are unfamiliar with the celebrated Singer Machine, we would respectfully advise that they call at any of the Singer salesrooms, which can be found in all cities and most towns in the United States.'

Every year on June 30 the pension-rs of the Civil War are counted. In une, 1898, the number on the lists was 93,714. Last year there were about 000 less, and this year also there are were than in 1898.

A landslide occurred recently in Sat-tel, Switzerland. An inn and its gar-den and outbuildings slid down the bill-side a distance of 35 feet without being in the least injured. Two stately elms in the garden were also moved without injury.

y local applications as they cannot reach the issued partion of the ear. There is only one application as they cannot reach the issued partion of the ear. There is only one at the cure deafness, and that is by constitutional remedies. Deafness is caused by an insued condition of the mucous liming of the ustachian Tube. GORGED WITH GOLD.

REPUBLICAN CAMPAIGN COF-FERS OVERFLOWING.

Doubtful Voters—How They Are "Approached"—Told in a Letter Sent Ou from Headquarters.

Headquarters Democratic National Committee. Chicago Letter—Fifty million dollars is the price placed upon the honor of the American people by the Republican campaign managers, for that is the amount of the campaign fund that they propose to raise. The question is frequently asked, regarding that same campaign fund, "What are they going to do with it?" and it has been frequently observed that no such amount could be honezedly expended in any campaign. The observation has, however, heretofore lacked absolute confirmation. Republican plans have been well covered. The manner in which the fifty million was to be expended has been carefully concealed, but "murder will out." The fifty million is to be used as a corruption fund. The following letter has been sent out from Republican headquarters to thousands of doubtful voters over the United States. The letter is nothing more nor less than a proposition to buy votes and to pay for political work. It reads as follows:

"Mr. ——: Your name has been

lows:

"Mr. ——: Your name has been given to me as one who is not fully decided as to the political situation as it stands today. If it is agreeable to you, we would be pleased to have some of our best posted speakers, who are now in your part of the state, call on you and converse with you on the leading political questions, and we feel sure that they will be able to convince you that the platform as presented by the Republican party in this campaign is the best for the nation as a whole, of any that was ever placed before the American people for their consideration.

"We we also informed the total the state of the state

of any that was ever placed before the American people for their consideration.

"We are also informed that you have considerable influence in your community, and that your veiws will be coincided with by not a few of the voters that you can come in contact with.

"Now, if after an interview with any of the speakers above mentioned, you should desire to take an active part in the present campaign. WE WILL BE WILLING TO PAY YOU FOR YOUR SERVICES WHILE SO ENGAGED.

"Trusting that we may be favored

"Trusting that we may be favored with your personal help in the present campaign, awaiting your further commands, we are, yours respectfully, Republican Campaign Committee. Dictated by "H."

No one care

publican Campaign Committee. Dictated by "H."

No one can read the above letter without realizing that it is a direct attempt at bribery. The Republican party in its desperation is trying to enlist hundreds of thousands of doubtul voters in the cause of McKinley—not, however, by preaching the virtues of their candidate, not by extolling the strength of their platform, not even by pointing with "pride" to the record of their party, and "viewing, with alarm" the tendencies of the Democratic party—but by simply making the cold-blooded, almost businessing the cold-blooded, almost businessing proposition of: "You vote and work for us," and we will pay you so much a day for your time and so much for your vote. The American people would do well to consider this matter carefully.

tamed condition of the mucous lining of the bestachian Tube. When this tube is bestachian Tube. When this tube is bestaching tube. pledge them the loyal and active support of the members of the league.

Samuel M. Jones, the Golden Rule Mayor of Toledo, Ohio, who as an independent candidate for Governor of Ohio in 1899 received 106,721 votes has come out for Bryan and Stevenson in an open letter—a letter which fills the hearts of Republican managers with dismay, and which means the loss of McKinley's own state to the Republican party in November.

A life-long Republican, Mr. Jones has served several terms as mayor of Toledo, having been elected and recleted despite the opposition of machine politicians, his platform consisting simply of the Golden Rule.

Last year Mayor Jones ran for governor on his chosen platform and such was his hold on the laboring men, the reform element in Ohio, that he polled the phenomenal number of 106,721 votes—phenomenal for an independent candidate. He carried his own county, Lucas, by a plurality of 125 over Nash, the Republican moninee for governor, and carried Hanna's we with the cut of Cleveland, gave a majority of 5,451 for McKinley while Lucas county, including the city of Cleveland, gave a majority of 5,451 for McKinley while Lucas county, including the city of Cleveland, gave a majority of 5,451 for McKinley while Lucas county, including the city of Toledo, gave the Republican candidate 2,299 majority. It is conceded by reepublicans and aemocrats alike that Mayor Jones' action will result in a political revolution in the Buckeye state. The republican campaign managers are panic-stricken and are wondering where the Bryan lightning will strike next. where the Bryan lightning will strike next.

next.

Great Cost for Little Proft.

Utica Observer: The Philippines have cest us, up to July 1, \$185,000,000 in money and 2,400 men killed. Our exports for a year amounted to \$2,600,000. Assuming that 20 per cent profit was made on the goods sold in the Philippines, the profit would be \$520,000. It costs about \$100,0000,000 a year to keep the Philippines "curs" in President McKiniey's understanding of the term. It costs us the services of \$0,000 men. It costs us the services of \$0,000 men. It costs us the services of \$0,000 men illicosts us the services of \$0,000 men. It costs us besides, the sacrifice of hundreds of lives, Our profits are half a million dollars a year. Where is the profit in the speculation?

Plattism Is Dominant.

New York Press: The simple truth is that there are in New York so large a number of Republicans who will not vote for Platt candidates or have anything to do with Plattism that a Platt nomination spells individual defeat and party disaster. Yet Plattism, either infatuated with its idea of dummy candidates or because it actually prefers the election of Tammany men to the election of Republicans who do not believe in and will not tolerate bossism, will not heed the warnings of the last three years.

Running Behind Rapidly
Omaha World-Herald: The draughts from the Philippine war are steadily increasing, while the Chinese campaign is making heavy inroads into the treasury. During the month of August the cost of running the government was nearly \$1,000,000 more than the receipts from all sources. To realize the full import of this loss it should be remembered that during August a year ago there was a surplus in the treasury of \$4,500,000. The relative loss, therefore, is more than \$5,000,000 for the past month.

The Manufacture of Offices.

From the rortiand Argus: The official records show that the last congress made a net increase of 2,270 in the number of new offices, involving an extra annual salary expense of \$5,234,663. Besides all this, 479 old officers secured an increase in salaries. These figures are wholly apart from the many generously paid commissions appointed by the president. Under our new imperial regime the Republicans are giving free scope to their mania for creating new offices.

Still Behind His Breastworks.
Cincinnati Enquirer: The campaign plan of Mr. McKinley is expected to be developed in his letter of acceptance. Mr. Bryan will; it is understood, also write a letter of acceptance; but he has already proclaimed his profession of faith and it is winning the people. He has advanced into the open field, not merely with skirmishers, but in line of battle. Mr. McKinley is still behind his breastworks, which are in process of rapid demolition.

The Entering Wedge In.

Johnstown (Pa.) Democrat: Armed men for many months have stood between labor and employment in Idaho. The president has thus repaid party debts to the Standard Oll monopoly. If he shall succeed this fall will Idaho be the only state dominated by federal bayonets under the direction of corporate monopoly? Already the entering wedge of militarism has been started. Shall workingmen help to drive it home?

home?

Breaking Faith with Cuba.
Atianta Journal: When our government ordered Spain out of Cuba it expressly pledged itself not to exercise "sovereignty, furisdiction or control" over that island. The Cubans now see our government proposing a deliberate repudiation of that promise and practically declaring that it will dictate the most important parts of such a consitution as it will permit Cuba to have.

Self-knowledge is that acquaintance with ourselves which shows us what we are, and what we ought to be.

A FAR-SEEING CHARITY.

How the Mothers of the Next Generation Among the Poor Will Profit.

"Probably the oddest philanthropic establishment in New York City, and yet one of the most practical there or elsewhere, is a "School for Little Mothers." This C. Montgomery M'Govern makes the subject of an attractive illustrated article in the Woman's Home Companion, saying: "The object of this institution is to teach little girls to become excellent mothers—nothing more, nothing less. Here the pupils are given no instructions in reading, writing, arithmetic, or in any of the other subjects learned in ordinary schools. Instead, they are taught here how to wash clothes and dishes properly; how to dress themselves neatly, even with cheap clothing; how to wash not dress their younger sisters and brothers; how to seep use and sweep; how to keep even a tenement home neat and cheerful; how to buy food and clothing economically; how to mend; how to seen, and how to cook dishes that are both cheap and appetizing. Each little mother is taught also how to act at table, being drilled first as a waitress, next as a guest, and finally how to conduct herself in the mend; how to sew, and how to cook dishes that are both cheap and appetizing. Each little mother is taught also how to act at table, being drilled first as a waitress, next as a guest, and finally how to conduct herself in the capacity of a hostess. The little girls who attend this school are the elder children in extremely poor and large families of the tenenats where both the father and mother must go out to work; or where the death of the father has made the mother the only breadwinner; or, as is most often the case, where the mother is too weak either from ill-health or from malnutrition to attend to her household duties as she might if she were well.

"The bables in the nursery are both boys and girls, and are between the ages of two and four. They are the younger sisters and brothers of the 'little mothers' who are in the other apartments learning how to conduct themselves at home. At stated intervals throughout the day the older girls come up to the nursery, here to be shown by an experienced teacher how to undress Tommy, wash his face and hands, put on a night-gown (for the children have never heard of such an article at home), and how to put him to sleep in a soft, white bed. Then they darken the room and go to other duties."

Why Ladysmith Was Not Attacked.
The natural question, "When do you mean to take Ladysmith?" being put to our Boer captors, all with one accord affirmed, with the utmost confidence, that they would do so shortly, but that they were in no violent hurry to carry out the operation. Delenda est Carthago was easier said than done, and here it never passed beyond the stage of threat. On my pointing out to the anxious listners that in their place we would not sit down and rest content with looking at it, hoping the wall would come to us, and so save our having to go to the wall, like Mohammed, they had a ready to hand. "Were the commandant general" (meaning General Joubert), one of them insubordinately answered, "to order me to go and attack Ladysmith tomorrow, I should refuse point blank, and my comrades would do likewise. Most of us have wives and children, and we don't want to be killed!" To meet the case, some one suggested that the young unnaaried men might be suitably employed in the assault; but this did not appear to find favor with any young man present—Blackwood.

man present.—Blackwood.

Fresh Air in Powders.

A new method of purifying the atmosphere of a room has just been discovered by a French physician. It is novel, simple, scientific and wonderfully effective.

He arranges his material like Seidlitz powders, in two papers of different colors. One of them (the white, for instance) contains bloxide of barium, which is strongly impregnated with concentrated perfume. This is first put in oil paper and then wrapped in the white paper. The other colue, or any other color, to distinguish it) contains permanganate of potash. When the two powders are mixed the oxygen is freed, mingles with the atmosphere and drives out the bad air.

When the powder is intended for disinfection purposes only the perfume is omitted.

In 1897 about a fifth of the coined

A gorgeous costume flashed beneath the brilliant lights of a ball room. The queen of society is radiant to-night.

The nervous hands of a weak woman have toiled day and night, the weary form and aching head have known no rest, for the dress must be finished in time.

rest, for the dress must be finished in time.

To that queen of society and her dressmaker we would say a word. One through hothouse culture, luxury and social excitement, and the other through the toil of necessity, may some day find their ailments a common cause.

Nervous prostration, excitability, fainting spells, dizziness, sleeplessness, loss of appetite and strength, all indicate serious trouble, which has been promoted by an over-taxed system.

For the society queen and the dressmaker alike, there is nothing so reliable as Lydia E. Pinkham's Vegetable Compound to restore strength, vigor, and happiness.

Mrs. Lizzie Anderson, 49 Union St., Salem, N. J., writes :

Mrs. Lizzie Anderson, 49 Union St., Salem, N. J., writis;

"Dear Mrs. Pinkham:—I feel it is my duty to write and tell you h
grateful I am to you for what your medicine has done for me. At time I suffered everything a woman could. I had inflammation of:
ovaries, falling of the womb, and leucorrhoes. At times could not hol needle to sew. The first dose of your Vegetable Compound helped me much that I kept on using it. I have now taken six bottles and am w and able to do my work. I also ride a wheel and feel no bad effects from the first of all good for giving you the wisdom curing suffering women. I recommend your me icine to every woman troubled with any of the diseases."

Mrs. Sarah Swoder, 103 West St., La Porte, Ind., writes:

La Porte, Ind., writes:

"DEAR MRS. PINKRAM:—It gives me great
pleasure to tell you how much good Lydia E.
Pinkham's Vegetable Compound has done for me.

"I had been a sufferer for years with female
trouble. I could not sew but a few minutes at a
time without suffering terribly with my head.
My back and kidneys also troubled me all the
time. I had no faith in it, but decided to try it.
After taking one bottle I felt so much better that
I continued its use, and by the time I had taken
six bottles I was cured. There is no other medicine

PINKIAM MEDICENT.

Biblical Customs in Abyssinia.

I have alluded to the survival in Abyssinia of the manners and customs of Bible times, says a correspondent of a London newspaper. You have only to stop at a well to realize the kind of scene at which Rebecca figured. In our conception of the word, it is not a well at all. Sometimes it is a pit in the sand, about 15 feet deep. At the bottom of this is a hole as big as a washhand basin, full of water, which has to be ladled out with a mug or cocoanut shell. The basin keeps on replenishing itself from the springs except in time of drouth.
