Waited Twenty Years.

For twenty years Oliver H. Newcomb was supposed to be dead by every one except his wife. She believed that some day he would return. Last night Newcomb came back. While still a young man Newcomb left Wilkesbarre, twenty-three years ago, leaving his wife and little son. He determined to make a fortune in the West, and he went to the gold fields, but misfortune followed him.

He continued to write to his wife for three years, and then, because he was almost disheartened, he ceased writing. Shortly afterwards their came the news that he had been killed in a railway wreck. His wife did not accept the report as true, and during all the intervening years she has believed that he was still alive and would return.

Newcomb finally went to the Klondike and prospered, and when the winter began setting in this year he left there to return to Wilkesbarre. None knew he was in town until he revealed himself to his wife. He had quietly made inquiries until he found that she still waited for him. He will take his wife and his son back to the Klondike.
