

When American armies were in Cuba the island was almost depleted of cattle, a vast number of the animals having been killed for food. Now the ranchmen and farmers are busy stocking up again and have made heavy drafts on Florida, which, as a consequence, has about been stripped of its better grades of cattle.

Valuable Almanac Free.
We have received a copy of the new almanac for 1901 published by the Royal Baking Powder Co. It is an artistic and useful book, and will be of interest to housekeepers. A noteworthy feature of the almanac is a prediction of the weather for every day of the year by Professor DeVoe, who correctly prophesied the great Galveston cyclone and other important meteorological events. We are authorized to say that any woman reader of this paper can secure a copy without cost by sending a request to the company at 100 William street, New York.

North Carolina, in colonial days, was called the "Old North Colony," and the name with State instead of colony, has been retained to the present time. It has also been called "Tartan State," from the importance of this article in the list of its exports.

Cataract Cannot be Cured
With local applications, as they cannot reach the seat of the disease, cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing cataract. Send for testimonials, free.
F. J. CHENEY & Co., Props., Toledo, O.
Sold by Druggists, price, 75c.
Hall's Family Pills are the best.

An ex-Confederate soldier of Cooper county, Missouri, who raised a 90-pound pumpkin on his farm this season, intends to have the mammoth vegetable made up into pies for distribution among such of his former comrades of Sibley's Brigade as reside in his neighborhood.

PEPPERS AND SPICES do not stain the hands or spot the kettle. Sold by all druggists.

A test has been made which shows that a rock can fly 60 miles an hour. The hawk makes 150 miles in the same time.

Attar of roses sells at \$100 an ounce, which is exactly five times the value of gold.

I do not believe Piso's Cure for Consumption has an equal for coughs and colds.—JOHN P. BOYER, Trinity Springs, Ind., Feb. 15, 1900.

The mackerel fishing on the south and southwest coasts of Ireland has been a failure this year.

Kansas City is to have a big banana warehouse, large enough to hold 25 carloads.

A Headache Cure Not Composed of Harmful Drugs.
Garfield Headache Powders enjoy the distinction of being Absolutely Pure, Effective and Harmless; they are made from Herbs.

The Queen has 60 housemaids at Windsor Castle. This is the regulation number.

To Cure a Cold in One Day.
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. GAY'S signature is on each box. 25c.

There are 256 railway stations within a six-mile radius of St. Paul's Cathedral, London.

Talk About It

That's always the way with our Hair Vigor. When persons use it they are always so highly pleased with it that they tell their friends about it.

If your hair is short, too thin, splits at the ends, is rough, or is falling out, our Hair Vigor will perfectly satisfy you.

If your hair is just a little gray, or perfectly white, Ayer's Hair Vigor will bring back to it all the dark, rich color it had years and years ago.

One dollar a bottle.

If your druggist cannot supply you, send us \$1.00 and we will express a bottle to you, all charges prepaid. He will send you our nearest express office.

J. C. AYER CO., Lowell, Mass.

LIBBY'S MINCE MEAT

In our mammoth kitchen we employ a chef who is an expert in making mince pies.

He has charge of making all of Libby's Mince Meat.

We don't practice economy here. He uses the choicest materials. He is told to make the best mince meat ever sold—and he does.

Get a package at your grocer's—enough for two large pies. You'll never use another kind again.

PEARLS OF THOUGHT.

Conceit is self-deceit.
True courtesy is of the heart.
Purity is not negative, but positive.
An honor bought dishonestly is a dishonor.

Don't measure a well until you get to the bottom.
A brave man hazards life, but not his conscience.
A thing is not necessarily true because it is new.

Readiness in criticism often marks ignorance of the task.
The greatest cowards kick the dead lion most heartily.

When a man is dead to the sense of right he is lost forever.

No toil, no hardship can restrain ambitious men inured to pain.

Any coward can fight with the mighty, but it takes a strong man to side with the weak.

The saving of one convict's soul is striking one blow toward the stamping out of hereditary vice.

Something the things you want always seem to come to you just as you've left off wanting them.

A life of patient industry is sure to be blessed with a competence, if it is not crowned with an abundant remuneration.

ARISTOCRATS OF THE FIELD.

Vegetables and Flowers Which Look Down Upon Old-time Varieties.

It has come to be well understood generally that farther North either animal or vegetable life is developed the better that development is, so that the South and Southern planters are just as anxious to obtain Northern-grown seed as are their brethren of the North.

The improvements that have been made in both vegetables and flowers during recent years seem scarcely less than marvelous to one whose attention is for the first time directed thereto. There is scarcely a vegetable seed on the list, from artichokes to turnips; scarcely a flower seed, from abutilon to zinnia, that does not present today a great advance over those varieties as known 20 years ago.

Notably is the evolution of the great, glowing, velvety pansy of today from the little "Johnnie-Jump-Up" of a quarter of a century back. And equally striking has been the betterment of vegetables, in the annals of which a curious instance is recorded of accidental hybridization in the discovery of a wrinkled pea in a pod of the common white Marrowfat, some 40 or 50 years ago, by Dr. Charles Fairbairn, of England. Struck by the appearance of the pea, so entirely unlike anything he had ever seen before, the doctor saved and planted it; and this single pea, thus preserved, was the progenitor of the magnificent race of sweet, green, wrinkled varieties, which are fit for table use. It is to this quality of close and patient observation on the part of specialists that we are indebted for the great improvements referred to.

By means of this cultivation the Dakotas have displaced the dwarfed "squaw corn" that scarcely lifted its tasseled head higher than the prairie grass by some of the finest varieties of corn that can be produced, ears a foot long, and stalks six feet high being the rule and not the exception, and in some instances worth \$3 a bushel for planting. Nor is it in corn alone that this section of our great country excels, for Minnesota is today one of the greatest clover producing states of the Union, the seed grown there commanding the highest prices in the markets of the world.—Philadelphia Record.

Dolls' Furs Sold in the Cities.

This is the season when its owner looks out to see that dolly shall be carefully protected against the cold when taken out for an airing. So the dolls' furs are brought into use; or, if the doll has none, some are bought for it. These may be found in considerable variety of style, material and price. Dolls' furs include muffs, and collarettes and boas. All these things are made in various sizes and then are commonly sold in sets. As to material, the costlier are made of a fur in imitation of ermine and of seal-skin, such furs being lined with silk or with satin, in one color and another, and muffs and collarettes finished just as those for grown-up people would be.

Dolls' furs, according to the material of which they are made and the style of finish, sell at from 50 cents, or perhaps less, a set, up to \$3. They are, of course, sold only in the colder parts of the country, where furs would ordinarily be worn. And while there are some articles of dolls' equipment that, like the dolls themselves, are sold in city and country alike, dolls' furs are sold chiefly in cities.—New York Sun.

The Highest Dwelling Places.

The highest dwelling places occur in the tropics. In the Cordilleres and in the Himalaya mountains there are inhabited spots in altitudes of 13,500 feet and in Tibet even as high as 16,000 feet. In Switzerland the highest inhabited spots occur in the Canton of Wallis, the highest one being situated on the Alpe de Lona, 8276 feet, and three hours' walk from Grimsen, in the Eflish valley. The highest cereal (wheat) producing fields of Switzerland are those situated near the little village of Findeloy, in an altitude of 7140 feet above the level of the sea. In Italy the highest inhabited spot is on the Alpe de Ponton, in Congo, to the south of Oosta, nearly 8300 feet high.

Suez Canal to be Widened.

The Suez canal is to be deepened and widened, if Mr. Linden W. Bates, the London hydraulic engineer, who is now at Suez, reports that the work can be done within a reasonable figure. The Canal Company hopes that the great waterway can be enlarged by the use of dredges, which are comparatively inexpensive. There is great need of more room in the channel, for ships have been growing ever greater, while the canal has remained unchanged.

Mr. Bates, who is now going over the canal en route to Queensland, for whose government he has built three colossal dredges on the Tyne. These are to be used in clearing the harbors of Queensland of mud and detritus. The largest of the trio is the Hercules, a sea-going dredge of 5,000 horse-power, and, by permission of the Queensland government, it will be held under the canal in enroute to Queensland, for whose government he has built three colossal dredges on the Tyne. These are to be used in clearing the harbors of Queensland of mud and detritus. The largest of the trio is the Hercules, a sea-going dredge of 5,000 horse-power, and, by permission of the Queensland government, it will be held under the canal in enroute to Queensland, for whose government he has built three colossal dredges on the Tyne. These are to be used in clearing the harbors of Queensland of mud and detritus. The largest of the trio is the Hercules, a sea-going dredge of 5,000 horse-power, and, by permission of the Queensland government, it will be held under the canal in enroute to Queensland, for whose government he has built three colossal dredges on the Tyne. These are to be used in clearing the harbors of Queensland of mud and detritus. The largest of the trio is the Hercules, a sea-going dredge of 5,000 horse-power, and, by permission of the Queensland government, it will be held under the canal in enroute to Queensland, for whose government he has built three colossal dredges on the Tyne.
