

Everybody Knows

That nervousness and headache go together. The worry and cares of business or home, overwork, loss of sleep, improper food—all tend to irritate the temper, derange the digestion, weaken the nerves and undermine the health. This tearing down of the life forces must be stopped. The ebbing tide of health must be checked, and new energy, new life, new ambition infused into the whole system. To do this quickly and thoroughly use

"Let me add my testimony to the wonderful curative qualities of Dr. Miles' Nervine. After doctoring with several eminent physicians and trying advertised remedies for what was pronounced one of the most stubborn cases of nervous prostration, I found a permanent cure in Nervine. I believe it to be the greatest remedy of the age for those afflicted as I was."

Well Babies Are Good Babies

MOST LITTLE BABIES DIE, either from bowel troubles or from diseases which they contract because they are in a weak and feeble condition from bowel troubles.

Mothers who are seeking the ideal and proper medicine to give their little ones for constipation, diarrhoea, colic and simple fevers will find LAXAKOLA the great family remedy.

It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gives or causes pain or irritation. BEST because it is sure and never fails. BEST because "Children like to take it."

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—give them LAXAKOLA.

A few drops can be given with safety to very young babies, and will often relieve colic by expelling the wind and gas that cause it, and it also will check simple fevers, break up colds and clear the coated tongue.

Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, from the fact that LAXAKOLA neutralizes the activity of the bowels and carries out the cause of fermentation, aids digestion, relieves restlessness, assists nature and induces sleep.

LAXAKOLA is a gentle and safe remedy to use during all conditions of health of the bowels, whether their peculiar and delicate conditions require a mild and efficient laxative and tonic, and is invaluable in assisting to relieve children of the most distressing conditions of the bowels, such as colic, diarrhoea, etc.

It improves the complexion, brightens the eyes, sharpens the appetite, softens the bowels and checks the skin and cures skin diseases, such as eczema, etc. It also cures chronic constipation, headache, biliousness, dizziness, etc.

At Druggists, etc., and sent for free sample to THE LAXAKOLA CO., 315 Nassau Street, N. Y., or 116 Broadway, N. Y., N. Y.

ROUND THE REGION.

After being in progress for three months Seranton silk strike came to an end today. The company gives the weavers an increase of about 20 cents a day and allows them to appoint one of their number to measure the silk. The other employees get increases ranging from 8 to 12 per cent and a half holiday on Saturdays during the summer with full pay.

"I have been troubled with indigestion for ten years. Have tried many things and spent much money to no purpose until I tried Kodol Dyspepsia Cure. I have taken two bottles and gotten more relief from them than all other medicines taken. I feel more like a boy than I have felt in twenty years."

CASTORIA. The Kind You Have Always Bought. Bears the Signature of *W. D. Hoagland*

The 2,000 mine workers employed by the Lehigh Valley Coal Company at the Prospect, Midvale, Oakwood and Henry collieries, who have been on strike for a week, returned to work this morning. Fred Dilcher, national organizer of the United Mine Workers, ordered the strike off and told the men that they violated the union's rules and had done it much injury.

THE FACTORY GIRL.

How She Tolls and Ekes Out an Existence on \$2.50 a Week.

I was left an orphan two years ago. I engaged in an east side factory for \$2.50 a week because I was unskilled, but I am still working at the same wages. I get up at 5 o'clock in the morning. There is no heat in the house where I board. There are other girls in the house, and each one of us has some part of the work to do.

When I go to the kitchen, I scrub the floor. Then I run back to my room, put on my other dress, comb my hair, run back and get breakfast and then walk to the factory. The boarding house is near the factory, and I save 10 cents a day in car fare. I am at the factory by 7 o'clock. I am tired when I begin, but I do not think of it any more than I can help.

At the noon hour I go to dinner. Factory girls do not have luncheon. When I go to dinner I also help wait upon others and do a few chores, after which I hurry back to the factory. It is hurry, hurry, hurry.

At 6 o'clock the day's work at the factory is over and, weary enough, I go back to the boarding house.

After supper the dishes are to wash and put away, and some work is done to make ready for breakfast.

One morning in the week I get up before 5 o'clock and do my laundry before breakfast, for a factory girl who works for \$2.50 a week must wash and iron her own clothes. There is just one thing in this which helps to lighten the burden—a factory girl does not have many clothes, so the washing is light. I do my ironing in the evening after supper. I do my patching whenever I can. When Sunday comes I am almost too tired to go to church. I wonder why some kind hearted church people do not send us a preacher to the boarding house once a month and some music.

I have never been to a theater but once in four years. I have but one dress in which to appear when I go out on Sunday for a walk. I have had it four years. A factory girl's dress costs about 4 cents a yard, her stockings 10 cents, her shoes 50 cents or less. I have no gloves but a pair of mittens. Whatever we wear is out of style. That is why we wear bargains. Everything a factory girl wears comes from a bargain counter. It took me nearly six months to save up \$3, with which I have got a jacket. My hat cost 15 cents, and I have another which I wear on Sunday. It cost me \$1.

I have about 60 cents a week on which to dress myself after I have paid for actual necessities.

The room where I sleep, sew and sometimes read has several beds in it. Two of us sleep in one bed. In another there are three.

Do I ever think of having a home for myself? Sometimes the thought comes to me, but I put it away. What chance is there for a factory girl ever to get a home?—Annie Smith in New York World.

Another Knockout.

Union labor in New Haven got a setback by an opinion given to the board of education by the corporation counsel, A. Heaton Robertson. Recently the court of common council, composed of the aldermen and councilmen of the city, passed a resolution ordering that all contracts hereafter issued by the board of education should contain clauses that only union workmen in good standing be hired on such contracts.

The board of education asked the corporation counsel if such contracts would be legal, and he reported they would not on the ground that such a clause would be unconstitutional, because it would prevent competition in bidding and would tend to create and recognize a privileged class. Such contracts would be void beyond question, he says. The corporation counsel concludes:

"But even if there was no such provision in the city charter the power to discriminate in favor of union labor, either by the court of common council or the board of education, is beyond the authority or scope of either board, whether acting together or separately, because it interferes with the discretionary power which is vested in the different departments of the city government in making contracts, as it effectually ties their hands and prevents their availing themselves of opportunities to make advantageous agreements in behalf of the city, and any taxpayer, under these circumstances, would have a right to enjoin the city from consummating such a contract.

"This very question, whether a city has a right in making contracts to discriminate in favor of union men, has been decided by a number of courts, and in every case the court has decided against such a right."

Big Strike For Pittsburg. A recent Pittsburg dispatch says: A series of strikes affecting between 100,000 and 150,000 men is likely to be inaugurated April 1 unless the building and other trades, including structural iron and steel manufacturers, comply with the demands of the labor organizations. The trades directly concerned will be carpenters, joiners, bricklayers, stonemasons, painters, plasterers, plumbers and others allied. The big amalgamated associations of iron, steel and tin workers are involved.

One Thing at a Time. The industrial council of Kansas City believes in pushing one boycott at a time and has a committee that is at work continually. All of the unions piece a line of from \$5 to \$25 on members who patronize a boycotted firm. This system is a great improvement. It is said, over the old plan of having several fights going on at once.
