

YOUNGEST MAYOR'S WIFE.

Distinguished Position Held by Handsome Pennsylvania Woman.
Mrs. Frederica Prentice Miller of Franklin, Pa., is the wife of the youngest mayor of any city in the United States. Her husband, Major Charles J. S. Miller, is a member of the staff of

MRS. CHARLES J. S. MILLER.

his father, Major General Charles Miller, commander of the national guard of Pennsylvania.

Mrs. Miller is a native of Franklin and a leader of the younger element in society. She is a daughter of the late Frederick A. Prentice and was educated in New York city.

Bernhardt's Bath.

The youthfulness and vivacity of the famous French actress, Sarah Bernhardt, have been the wonder and admiration of the public for many years. There is probably no woman before the American public today who takes greater care of herself than Mme. Bernhardt. Writing in The Ledger Monthly, Stella Stuart says that a sponge bath which affords exquisite refreshment to tired muscles and jaded spirits and is an excellent preparation for the evening toilet is used regularly by the talented French actress and is said to be a potent auxiliary in preserving her apparently perennial charm. It consists of:

- Alcohol 1/2 pint
- Spirits of camphor..... 2 ounces
- Spirits of ammonia..... 2 ounces
- Sea salt 2 ounces
- Boiling water.....to make one quart

Agitate thoroughly. Rub into the skin with the bare hands. It is excellent to bathe the neck and shoulders before donning evening dress.

Picturesque Dress.

It seems that woman's dress is to be picturesque once more instead of merely fashionable. With the Gainsborough hat coming in again—and its popularity received a great boom by the timely recovery of the famous painting—at least one feature of picturesque dress is assured. Then the princess gown is another indication of the trend matters sartorial are taking. Truly, though, there are many periods represented in fashions of today. We have Louis XV coats, empire gowns and Eugenie skirt in addition to the Gainsborough hat and old time princess dress. Then we have the essentially modern Eton, bolero and shirt waist, with hats like unto pancakes. If one style does not suit, the woman of today may select another and rest happy in the assurance that she is in the fashion.—New York Mail and Express.

Truly Practical.

At Berea college, Kentucky, the sewing and cooking classes, under the supervision of a graduate of Pratt institute, Brooklyn, are the most popular in the school. The lessons are carefully adapted to existing conditions. The care of food without the aid of refrigerators and the getting of meals without markets, grocery and delicatessen shops around the corner are considered. The housework at Berea has always been largely in the hands of pupils, and in that way these mountain girls have been learning, but the cooking classes are much more interesting, and during the last four terms the 20 different classes in sewing and cooking have averaged 12 girls to the class.

Lessons in Their Lives.

Miss Edith Marena, assistant secretary of Radcliffe college, has been giving at the Boston Women's Educational and Industrial union a series of talks to working girls, taking each time as her subject the life of some woman who had to struggle with great difficulties and succeeded in overcoming them. Dorothea Dix (Sister Dora) and half a dozen other women of strong and beneficent lives have been thus presented. The talks have proved popular, from 40 to 60 girls usually attending.

Now They Get Up Early.

The empress of Russia leads a simple life when at St. Petersburg, rising generally before 7 o'clock in the morning. In this matter she greatly shocked the ladies of the Russian court when she first took up her abode among them. They were in the habit of making their appearance about 12. Now all the ladies of the court and most of the Russian aristocracy breakfast early owing to the example of their empress.

A Woman Sanitary Inspector.

Miss Finola Sullivan, daughter of the late president of the Queen's college, Cork, Ireland, has been appointed a sanitary inspector in the Pembroke township in County Dublin. She had passed the Dublin and London sanitary examinations, took the National Health society's special courses of nursing in the Chelsea infirmary and is highly fitted for her post.
