

**PERSONALITIES.**

Weston Howland, who died a few days ago in Fairhaven, Mass., is said to have been the first man to discover a successful method of refining petroleum.

"I am still a young man," said Russell Sage the other day, "for a man is young just as long as he takes an active interest in his own life and the life of the world at large."

Sir Edwin Arnold's health continues to fall rapidly. He is altogether blind and goes out driving only about once a week, but continues his literary work by means of dictation.

Howard Gould intends to build at Sands point, Long Island, on a bluff overlooking the sound the largest country house in America. It is to be modeled after Kilkenny castle in Ireland.

Colonel Elijah De Beard of Gilmer county, Ga., lives in a one room house built over his wife's grave. Over the entrance is the inscription, "One in life and death." The old man spends all his days beautifying the place with vines and flowers.

Sophie Reuter, sister of the famous novelist Fritz Reuter, died at Stavenhagen, in Mecklenburg, recently, aged 87. She was much devoted to her brother and visited him as often as she was permitted to during his imprisonment in Berlin in 1833.

Some years ago in Paradise Valley, Cal., John Weer, a Cornish widower with four good looking daughters, wedded Mrs. Malurin, a French widow with four sons. The boys and girls have now been all mated, and the five couples live under the same roof.

Prince Ruprecht of Bavaria, grandson of the prince regent, now has a son, the first great-grandson of Prince Luitpold. Prince Ruprecht, according to the strict order of descent, should be Prince of Wales, as his mother is the legitimist "Queen Mary IV" of Great Britain.

Prosper d'Ephray, the Parisian sculptor, who for some years past has done most of his work at Rome, has just completed a plaster model of John Paul Jones, who is represented standing beside an anchor with drawn sword as if about to leap upon the deck of an enemy's ship at the head of a boarding party.

**Well Babies Are Good Babies**

**MOST LITTLE BABIES DIE, either from bowel troubles or from diseases which they contract because they are in a weak and feeble condition from bowel troubles.**

Mothers who are seeking the ideal and proper medicine to give their little ones for constipation, diarrhoea, colic and simple fevers will find LAXAKOLA the great family remedy.

It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gripes or causes pain or irritation. BEST because it is sure and never fails. BEST because "Children like it and ask for it."

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—give them LAXAKOLA.

A few drops can be given with safety to very young babies, and will often relieve colic by expelling the wind and gas that cause it, and it also will check simple fevers, break up colds and clear the coated tongue.

Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, from the fact that LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of fermentation, aids digestion, relieves restlessness, assists nature and induces sleep.

**LAXAKOLA FOR WOMEN.** It is a gentle and safe remedy to use during all conditions of health of the mother as whenever their peculiar and delicate conditions require a mild and efficient laxative and tonic, and is invaluable in assisting to relieve obstructions which otherwise would tend to more or less chronic illness. It improves the complexion, brightens the eyes, sharpens the appetite, quickens the circulation, removes mucus from the skin and cures skin blemishes, it cures itching of the skin and dyspepsia. Laxakola will invariably bring relief and a speedy cure. At druggists, age and sex, or send for free sample to THE LAXAKOLA CO., 129 Nassau Street, N. Y., or 156 Dearborn Street, Chicago.

**Hints For Smokers.**  
Here is a good tip for a smoker: The best pipe grows foul sometimes, and the various patent cleaning devices are of little use in making it fresh. But if you pack the bowl tight with grass or hay and lay the pipe aside for a few days you will have it as sweet as when it was new. Talking about smoking, here is a good idea for lighting matches: Don't light them on your trousers, for you'll burn slits in them, nor on your shoe soles, for you'll rub the heads off. The plan is to rub them on a piece of paper—a folded newspaper, an envelope, a ticket. The silica in the paper acts like sandpaper.

Many people can't smoke a dozen cigarettes without getting a sore throat. Invertebrate cigarette smokers are frequently troubled with a perpetual cold in the head. It is not the smoke that is to blame, but the dust. Now, if you use a cigarette tube—amber, cherry or cardboard—a tiny bit of cotton wool in the bottom of it will catch every particle of dust. Try this, and you'll have no more sore throats. But you may not enjoy the smoke.—Exchange.

**When Happy Was the Fashion.**  
The following extract from the London Times of May 14, 1801, gives an interesting picture of the good old days: "It is now the high fashion to run, or at least to trot, through the streets at a rate of six miles an hour. A running walk is absolutely necessary for any young man who has the least pretension to ton. You must lounge in a hurry and saunter with expedition. It is an old proverb, the more haste the worst speed, but Bond street daily

shows us the more hurry the less to do. When we see our idle youths riding race horses, walking for wagers or boxing for fame, we must agree with Horace that 'strenua nos exercet inertia.'

Mrs. S. H. Allport, Johnstown, Pa., says: "Our little girl almost strangled to death with croup. The doctors said she couldn't live but was instantly relieved by Otto's Cough Cure. Grover's City drug store."
