FULL RECOVERY IS ASSURED

Senator Hanna has left Bullaio, radi-ant with joy and proclaiming the fact that all Americans should throw up their hats and cheer, now that all ques-tion of the president's recovery is past. Vice President Roosevelt left last

evening in very much the same frame of mind. He probably will not return, as he is not needed for Friday's conference, and has duties elsewhere.

Many of the relatives of the president have left, satisfied that there was no further cause for alarm. Mrs. McKin-ley was out driving, and is so completely recovered herself that she is receiving

many callers.

The physicians are even leaving the president's side. The Buffalo doctors who have been in attendance on him since the shooting are taking up the cases of their regular patients again, one of them only remaining constantly with the president.

Dr. Parke, the most distinguished of the physicians now attending the presi-dent, does not hesitate to say that the patient is convalescent and would be fully recovered in three or four weeks
