Make all money orders, checks, etc., payable to the Tribune Printing Company, Limited.

FREELAND, SEPTEMBER 13, 1901.

To Republican Voters of the Lower End:

Hazleton, Pa., September 12, 1901. In an open letter published in the news columns of the Freeland Semi-Weekly Progress, R. P. Robinson, Esq., of Wilkes-Barre, advocates the nomination of Isaac P. Hand, Esq., of Wilkes-Barre, Pa., for the orphans' court judgeship on the Republican ticket on the ground of expediency.

We do not agree with Mr. Robinson in this. We think the Republicans of Luzerne county have nominated an exceptionally strong ticket and one for which every Republican voter in the county can vote honestly and conscientiously.

We have talked to a great many Republicans in Luzerne county, and we are utterly at a loss to find the source of Mr. Robinson's information in regard to what is the opinion of Republicans in general.

I have not one word to say against Mr. Hand or Mr. Nicholls as far as their qualifications, mental equipment and fitness to properly fill this honorable position are concerned.

When Judge Halsey was nominated, we felt that the lower end had partially secured a judge, but the active work of the common pleas and quarter sessions rendered it necessary for Mr. Halsey to make his home in Wilkes-Barre.

Mr. Troutman has been a consistent Republican through all the years that I have known him, and there never has been a time during that period that he has not been willing to assist the Republican party, both financially and otherwise.

I would ask the Republican voters, particularly of lower Luzerne county, whose loyalty to me in the past has been unquestioned, and who have stood with me in many a hard fought political battle, to stand with me again in this question of nomination, and roll up a rousing majority for the lower end candidate, George H. Troutman.

WORKING IN PUBLIC.

Show Window Artisans Can Command Good Remuneration.

A Broadway shoe manufacturer was asked what method of advertising he found most profitable.

"Placing my men near the window," he said, "so they can work in view of the public. I don't know of anything that catches the attention of the passer-by more quickly than the sight of a demonstrator sitting close to the window running a machine for dear life."

"Manufacturers of all kinds of goods have adopted this plan. Waistmakers put their most skilled workers on exhibition to show how the finest garments are cut and sewed. Cigar manufacturers and let them see the process of rolling as performed by the cleverest hands.

"It isn't everybody who can work in public. It takes a person with good strong nerves and concentration of thought to do difficult work in a show window. I have men in my employ who are excellent workers, but they get flustered when subjected to unusual surveillance and ruin everything they put their hands to.

"A man who can run a machine at full tilt or paint a picture or fry pancakes or iron a shirt in the full gaze of the public eye and not lose his head is an artist and worth several dollars more a week to his employer than the more modest individual. And he gets it too."—New York Sun.

MEN'S VIEW OF WOMEN.

Earth has nothing more tender than a plous woman's heart.—Luther.

Remember, woman is most perfect when most womanly.—Gladstone.

Lovely woman that caused our cares can every care beguile.—Beresford.

Oil and water, woman and a secret, are hostile properties.—Bulwer Lytton.

Women need not look at those dear to them to know their moods.—Howells.

Kindness in woman, not their beautiful looks, shall win my love.—Shakespeare.

Raptured man quits each dozing sage. O woman, for thy lovelier page!—Moore.

He is a fool who thinks by force or skill to turn the current of a woman's will.—Samuel Tuke.

The most beautiful object in the world, it will be allowed, is a beautiful woman.—Macaulay.

If the heart of a man is depressed with cares, the mist is dispelled when a woman appears.—Gay.

Taking Sunday Collections.

An old and not yet obsolete mode of taking a collection in a Scotch church is by means of a ladle—a small wooden box at the end of a straight wooden shaft about four and a half feet long, the top of the box being sufficiently open to receive contributions of money.

For ordinary Sunday collections the general custom has been to have a metal plate or basin on a small table at the church entrance superintended by an elder—a mode which was often called the brood. When ladies are used, they are handed round the congregation by elders after the sermon or after the last psalm, and the common Scotch phrase to "lift" the collection may have come from this custom.—Notes and Queries.

Some Queer Verdicts.

What is "a reasonable state of intoxication" apparently just missed precise definition by a coroner's jury in Mississippi which stated in its verdict that "we, the jury, find that deceased came to his death by a stroke of an east bound train, No. 204, on I. C. Railroad, at Pentress, Miss., in Choctaw county, he being in a reasonable state of intoxication."

A somewhat similar indefiniteness of legal conclusion mars a verdict of a neighboring Georgia jury to the effect that "we, the jury, find the defendant almost guilty."

Equally as uncertain and ambiguous as these statements by laymen is the opinion in an early Maryland case which "acknowledges the corn" by saying that an occurrence referred to took place "at a former sitting when the court was full."

Too Liberal.

Wife—Here's an advertisement in the paper that you'd better look into. It says a man is wanted, and he won't be worked to death, and he'll get paid enough to live on.

Husband—Says he won't be worked to death, eh?

Wife—Yes; and they promise pay enough to live on.

Husband—Some catch about that!—Pick-Me-Up.

Mary's Fractious Sister. "I suppose your baby sister cries some?" asked one of the neighbors. "Cries!" said Mary. "Why, she just seems to look on the dark side of things all the time!"—Youth's Companion.

Well Babies Are Good Babies

MOST LITTLE BABIES DIE, either from bowel troubles or from diseases which they contract because they are in a weak and feeble condition from bowel troubles.

Mothers who are seeking the ideal and proper medicine to give their little ones for constipation, diarrhea, colic and simple fevers will find LAXAKOLA the great family remedy.

It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gripes or causes pain or irritation. BEST because it is sure and never fails. BEST because "Children like it and ask for it."

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—give them LAXAKOLA.

A few drops can be given with safety to very young babies, and will often relieve colic by expelling the wind and gas that cause it, and it also will check simple fevers, break up colds and clear the coated tongue.

Great relief is experienced when administered to young children suffering from diarrhea, accompanied with white or green evacuations, from the fact that LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of fermentation, aids digestion, relieves restlessness, assists nature and induces sleep.

LAXAKOLA FOR WOMEN. It is a gentle and safe remedy to use during all conditions of health of the mother and whenever their peculiar and delicate conditions require a mild and efficient laxative and tonic, and is invaluable in assisting to relieve obstructions which obstruct the bowels and lead to more or less severe pain or illness.

It improves the complexion, brightens the eyes, sharpens the appetite, quickens the circulation, removes morbid and bilious conditions of the skin and cures sick headache, fits a certainty by restoring the system. To women suffering from chronic constipation, headache, biliousness, dizziness, saltiness of the skin and dyspepsia, LAXAKOLA will invariably bring relief and a speedy cure.

At druggists, etc. and see, or send for free sample to THE LAXAKOLA CO., 125 Nassau Street, N. Y., or 125 Dearborn Street, Chicago.

Chopin on Piano Fingering.

This is from a fragment of piano fingering left by Chopin: "No one notices inequality in the power of the notes of a scale when it is played very fast and equally as regards time. In a good mechanism the aim is not to play everything with an equal sound, but to acquire a beautiful quality of touch and a perfect shading."

"For a long time players have acted against nature in seeking to give equal power to each finger. On the contrary, each finger should have an appropriate part assigned it. The thumb has the greatest power, being the thickest finger and the freest. Then comes the little finger, at the other extremity of the hand. The middle finger is the main support of the hand and is assisted by the first. Finally comes the third, the weakest one."

"As to this Siamese twin of the middle finger some players try to force it with all their might to become independent, a thing impossible and most likely unnecessary. There are, then, many different qualities of sound, just as there are several fingers. The point is to utilize the differences, and this, in other words, is the art of fingering."—Huneker's "Chopin, the Man and His Music."

Insects Become Intoxicated.

Intoxication from the nectar and pollen of plants has been a subject of investigation by Dr. J. M. Weir, Jr. This affects insects, and it appears that the cosmos flower is specially potent as a source of drunkenness in bees and other nectar loving creatures. A bee so drunk that it could scarcely get upon its legs was taken to the laboratory and placed about two inches from a cosmos blossom. It immediately staggered over, a senseless and almost inert victim of appetite. Drunken beetles found under the blossoms prove that the pollen must have the same effect as the nectaries.

The experimenter swallowed a half teaspoonful of the pollen and in about 15 minutes experienced a feeling of exhilaration, with acceleration of the pulse and warmth. An injection into the arm of half a dram of liquid distilled from an infusion of the nectaries caused exhilaration for half an hour, followed by nausea.

When Everything Sticks.

"In muggy weather," said the retired burglar, "I always used to stop work not because work was unpleasant then, but on account of everything sticking so."

"You couldn't tell what might happen. Anything and everything was liable to stick and make more or less noise when you finally got it open. A window might stick at first and then go up with a bang. I've had a door open on me that way—fly open all of a sudden after I'd been pushing on it a long time and let me through the doorway on to the floor. There's always danger, for instance, in pulling out a drawer that sticks of pulling it clean out and letting it drop."

"There's constant danger of something of this sort happening, and it doesn't pay to take the chances. And it's easy enough to know when to stay home. My rule was never to try to do any work in weather that would rust a jimmy."—New York Sun.

Pan-American Exposition.

Low fares via the Lehigh Valley Railroad to the Pan-American Exposition. Five-day tickets, good only in day coaches, will be sold on Tuesdays and Saturdays, May 1 to October 31, from Freeland at the rate of \$7 for the round trip.

Ten-day tickets will be sold from Freeland every day, May 1 to October 31, good on any train, except the Black Diamond express, at the rate of \$10 for the round trip.

Soda water—all flavors—at Kelper's.
