

**PAIN IN THE BACK**

**A Sure Sign of Kidney Trouble--Dr. Kennedy's Favorite Remedy Will Cure You.**

Pain in the back is a never failing sign of kidney disease; another sure sign is the condition of the urine; if you have a pain in the back then look to the condition of your urine. Take a glass tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, pale or discolored, stringy orropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal.

F. C. Wilcox of 559 New Britain ave., Hartford, Conn., says:

"I had a frightful pain in my back, the result of kidney trouble. My physician seemed powerless to relieve me. I determined to try Dr. David Kennedy's Favorite Remedy; it helped me wonderfully, and in a short time cured me completely."

Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation and corrects the bad effects of whiskey and beer on the system. It is wonderful how it makes that pain in the back disappear, how it relieves the desire to urinate often, especially at night, and drives away that scalding pain in passing water and in a remarkably short time makes you well and strong.

Dr. David Kennedy's Favorite Remedy is for sale by all druggists. \$1 a bottle, or 6 bottles for \$5--less than one cent a dose.

Sample bottle--enough for trial, free by mail.

**Saloon Men on Guard.**

The activity of the Anti-Saloon League throughout the county is causing much uneasiness among the saloon men, and in several towns special precautions are being taken by the liquor dealers to ward off all suspicion of violating the license laws. To prove that they are not disobeying the law many saloon keepers have adopted the Wilkesbarre plan of raising their blinds on Sundays and giving a full view of the interior from the outside.

As far as is known, none of the spies employed by the Anti-Saloon League have yet visited Freeland.

**Juror Clears Himself.**

Juror James Robinson, who was accused of saying, with reference to the Stevenson case, on which he was a juror: "To hell with the evidence I made up my mind before I heard it," cleared himself. Argument was heard for a new trial in the case before Judge Newcomb, and Robinson and others denied the remark was ever made, with such sincerity that the attorneys for the company said they believed them. The clause in the reasons for a new trial was withdrawn.

**Fire at Nuremberg.**

Fire at Nuremberg early this morning destroyed the opera house and the wholesale liquor store of Mrs. Camille Yannes. The blaze was discovered at 1 o'clock in the dressing-rooms of the opera house and spread with rapidity to adjoining buildings. The butcher shop of James Hough, a former Freeland resident, was saved with difficulty.

The opera house was the property of Nuremberg Jr. O. U. A. M. council. A play by people from Nescopeck was given there last night.

The total loss is estimated at \$15,000, partly covered by insurance.

**THE HOME DOCTOR.**

Hops used as a tea are highly recommended for all blood impurities.

A good remedy for sprains and twists is to cut a red onion into slices and bind them on the afflicted parts.

Hemorrhages of the lungs or stomach are promptly checked by small doses of salt. The patient should be kept as quiet as possible.

For cuts use alum water to stop the flow of blood, afterward drawing the severed parts together with narrow strips of court plaster.

For neuralgia apply an ordinary bread poultice as hot as can be borne to the afflicted part. This remedy is very highly recommended.

For a burn by vitriol or anything else apply the white of egg mixed with powdered chalk to the parts burned with a feather. It will afford instant relief.

The following remedy is recommended as a preventive of tonsillitis: Oil of peppermint, ten drops; pure carbolic acid, one dram; alcohol, three drams. Add ten drops to a glass of hot water and use the solution as a gargle several times a day.

The adage that one "must stuff a cold and starve a fever" is pernicious. A cold is a fever, and one of the surest means of cutting it short is to take a laxative, abstain almost entirely from food for twenty-four hours and drink two or three quarts of cool water.

**Mothers' Clubs.**

One of the things that the mothers' clubs have accomplished is the betterment of the diet of the children of the family. It was found on investigation that the usual breakfast given to them was a slice of baker's bread which was spread with a cheap jelly that could be purchased at some of the little shops. This, with a cup of strong coffee or tea, as the family taste preferred, was given alike to the babies and the children all along the line. Following much suggestion and kindly admonition, many tenement mothers now provide a nutritious and wholesome, even if still inexpensive, meal for their children. One wonders after knowing of some breakfasts spread for children in families quite out of the tenement district if suggestion and admonition are not quite as much needed there. Fried sausage, pork tenderloins, fried potatoes, with hot breads or griddlecakes smothered in a sweet sirup, are a common American breakfast during the winter for children from five to fifteen years. It is little wonder that colds, bilious attacks, sore throats and the like are common ailments in such families from November to May. The real marvel is that the children get through the winter at all.

**Benefit of Exercise.**

Next to bodily cleanliness exercise may be reckoned as the greatest aid to beauty. In fact, exercise is almost necessary to cleanliness, for it is a great incentive to perspiration, which is nature's way of throwing the impurities of the body to the surface of the skin, from whence they are then removed by the use of water. Open air exercise should be taken every day, but according to strength. One should return home after walking, riding or cycling with a sense of being pleasantly fatigued, but without any feeling of exhaustion. Exercise should be taken regularly, and, if possible, dumbbells should be used night and morning. The corset should not be worn while exercising with dumbbells. Skipping is an excellent exercise for the figure, and it is one of which our grandmothers were fond. It is usual with children to throw the rope forward when skipping, but it is far better to throw it backward, for it expands the chest much better.

**Stair Walking.**

Walking up and down stairs can be made an excellent exercise for developing the muscles of the leg from the hip down and giving a good poise to the body if performed in the correct and easiest way. As usually done, with the body thrown forward at the hips, the heel of the foot constantly striking, the poise of the body is lost and a great strain is put on the back, tending to increase the nervousness. If the body is carried well poised, upright from the hips, the ball of the foot striking the stair first, the knees being flexible, both in ascending and descending, all the good effects are obtained, and if much stair climbing is done there will be a great difference in the feeling of vitality. Ascending stairs rapidly by spring from the ball of one foot to the other forms an excellent means of strengthening the ankles and curing a tendency to flat feet.

**A Laundry Hint.**

For strong materials which have become mildewed or otherwise stained a piece of lye the size of a walnut dissolved in a bucket of cold water makes a solution in which the article may be soaked overnight. It should then be washed with a good white soap and boiled, lastly being run through weak blue water. This gives a peculiarly fresh and dainty whiteness. The objection that the lye will rot the material is not sustained save in very delicate materials. A pique or duck will last several such soakings with no ill effects whatever.

**Cooking Ham.**

If you are broiling or frying ham, it is better always to cut the slices from a ham that already has been cooked. It will then be tender and delicious. If you prefer to broil the raw ham, cut the rashers very thin and while broiling dip them once or twice in cold water. If frying raw ham, cut it very thin and fry them very quickly, first soaking them ten minutes in very hot water. The perfection of broiled ham is that which is from a ham that is boiled half done and has been allowed to cool a day or two before cutting.
